Water & Sewer Usage

Water & Sewer usage is 200 GPD per dwelling unit. Thus, total usage is $200 \times 150 = 30,000$ GPD.

Solid Waste

Solid Waste is 8 lbs/day per dwelling unit. Thus, total usage is $8 \times 150 = 1,200$ lbs/day.

Trip Generation

ADT is 6.65 trips/day per dwelling unit. Thus, ADT is $6.65 \times 150 = 997.5$ trips/day.

PM peak trips is 0.62 trips per dwelling unit. Thus, PM peak trips is $0.62 \times 150 = 93$ trips.

Consistency with Objectives and Policies for Urban Development Areas

GOAL I - IN RECOGNITION OF THE IMPORTANCE OF CONSERVING THE NATURAL RESOURCES AND ENHANCING THE QUALITY OF LIFE, THE CITY SHALL DIRECT DEVELOPMENT TO THOSE AREAS WHICH HAVE IN PLACE, OR HAVE AGREEMENTS TO PROVIDE, THE LAND AND WATER RESOURCES, FISCAL ABILITIES AND SERVICE CAPACITY TO ACCOMMODATE GROWTH IN AN ENVIRONMENTALLY ACCEPTABLE MANNER.

OBJECTIVE I.1 The City shall continue to direct future population growth and associated urban development to urban development areas as established within this comprehensive plan.

Consistency: The facility is located inside the Designated Urban Development Area and conforms to the requirements of the Comprehensive Plan and Land Development Regulations.

Policy I.1.1

The City shall limit the location of higher density residential and high intensity commercial and industrial uses to areas adjacent to arterial or collector roads where public facilities are available to support such higher density or intensity. In addition, the county shall enable private subregional centralized potable water and sanitary sewer systems to connect to public regional facilities, in accordance with the objective and policies for the urban and rural areas within this future land use element of the comprehensive plan.

Consistency: The facility is located along Northwest Early Street where adequate capacity for transportation, water, sanitary sewer, etc... is available to support the facility.

Policy I.1.2

The City's future land use plan map shall allocate amounts and mixes of land uses for residential, commercial, industrial, public and recreation to meet the needs of the existing and projected future populations and to locate urban land uses in a manner where public facilities may be provided to

serve such urban land uses. Urban land uses shall be herein defined as residential, commercial and industrial land use categories.

Consistency: The property is being proposed to be used for activities that are consistent with usage of current surrounding properties.

Policy I.1.3

The City's future land use plan map shall base the designation of residential, commercial and industrial lands depicted on the future land use plan map upon acreage which can be reasonable expected to develop by the year 2025.

Consistency: The property owner wishes to start construction as soon as is reasonably possible. They do not intend to wait until 2025 to begin construction.

Policy I.1.4

The City shall continue to maintain standards for the coordination and siting of proposed urban development near agricultural or forested areas, or environmentally sensitive areas (including but not limited to wetlands and floodplain areas) to avoid adverse impact upon existing land uses.

Consistency: The facility is not located in any environmentally sensitive areas. It will not be used for agricultural or forestry activities.

Policy I.1.5

The City shall continue to regulate govern future urban development within designated urban development areas in conformance with the land topography and soil conditions, and within an area which is or will be served by public facilities and services.

Consistency: The facility was designed so as to conform with the existing land topography, soil conditions, and other unique features specific to this property.

Policy I.1.6

The City's land development regulations shall be based on and be consistent with the following land use classifications and corresponding standards for densities and intensities within the designated urban development areas of the county. For the purpose of this policy and comprehensive plan, the phrase "other similar uses compatible with" shall mean land uses that can co-exist in relative proximity to other uses in a stable fashion over time such that no other uses within the same land use classification are negatively impacted directly or indirectly by the use.

Consistency: The facility is not designed to exceed any density, floor area ratio, or other similar required threshold. If necessary, a variance will be requested after exhausting all other options.

Analysis of the LDR's Article 12 Requirements

a. Whether the proposed change would be in conformance with the county's comprehensive plan and would have an adverse effect on the county's comprehensive plan.

Analysis: The proposed zoning change is in conformance with the comprehensive plan and will not cause any adverse effects to the plan.

b. The existing land use pattern.

Analysis: Other parcels with this proposed zoning are located nearby.

c. Possible creation of an isolated district unrelated to adjacent and nearby districts.

Analysis: Other parcels with this proposed zoning are located in the area but are also isolated from sites with the same zoning.

d. The population density pattern and possible increase or overtaxing of the load on public facilities such as schools, utilities, streets, etc.

Analysis: A concurrency analysis for increases due to utility requirements and traffic impacts has been done. For the impact on schools, additional students may be present in the district as a result of the development. However, this development will not overtax the load on public facilities.

e. Whether existing district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.

Analysis: The zoning that we propose for this property is more suitable to existing conditions than the current zoning of the property.

f. Whether changed or changing conditions make the passage of the proposed amendment necessary.

Analysis: Housing is needed in the area due to the increase in people moving to the area.

g. Whether the proposed change will adversely influence living conditions in the neighborhood.

Analysis: The proposed zoning change will positively affect the neighborhood's living conditions.

h. Whether the proposed change will create or excessively increase traffic congestion or otherwise affect public safety.

Analysis: The proposed zoning change will not create excessive traffic congestion and will not otherwise affect public safety.

i. Whether the proposed change will create a drainage problem.

Analysis: The proposed zoning change will not create any drainage problems.

j. Whether the proposed change will seriously reduce light and air to adjacent areas.

Analysis: The proposed zoning change will not reduce light or air to adjacent areas.

k. Whether the proposed change will adversely affect property values in the adjacent area.

Analysis: The proposed zoning change will likely cause property values in the adjacent area to increase.

l. Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accord with existing regulations.

Analysis: The proposed zoning change may encourage the improvement and development of adjacent properties.

m. Whether the proposed change will constitute a grant of special privilege to an individual owner as contrasted with the public welfare.

Analysis: The proposed zoning change will not grant special privileges to the owner.

n. Whether there are substantial reasons why the property cannot be used in accord with existing zoning.

Analysis: What the developer wants to construct is not compatible with the current zoning.

o. Whether the change suggested is out of scale with the needs of the neighborhood or the City.

Analysis: Overall, there is a need for more housing to service the growth in the neighborhood and in the City.

p. Whether it is impossible to find other adequate sites in the city for the proposed use in districts already permitting such use. When pertaining to other proposed amendments of these land development regulations. The planning and zoning board shall consider and study:

i. The need and justification for the change.

ii. The relationship of the proposed amendment to the purposes and objectives of the comprehensive planning program and to the City's comprehensive plan, with appropriate consideration as to whether the proposed change will further the purposes of these land development regulations and other ordinances, regulations, and actions designed to implement the City's comprehensive plan.

Analysis: The owner has purchased this property awhile ago and would like to develop it.
