CITY OF LAKE CITY

Report to Council

COUNCIL AGENDA	
SECTION	
ITEM NO.	

SUBJECT: Upgrade Aging Server Infrastructure

DEPT / OFFICE: Information Technology

Originator: Jason Dumas Type text here		
City Manager Don Rosenthal	Department Director Jason Dumas	Date 8/27/2026
Recommended Action: Approval to purchase new server infrastructure to maintain operational stability, improve system performance, and enforce security compliance.		
Summary Explanation & Background: The City's existing servers are 5 years old and at the end of their lifecycle. Operating further increases the risk of unrecoverable hardware failure, extended operational downtime, and elevated maintenance costs. The refresh of the server hardware will ensure compatibility with current operating systems and protect core operations under full vendor support coverage. This purchase includes 3 years of hardware support.		
Alternatives: Do not upgrade, accepting the risks of unplanned downtime, hardware failure, possible security and compliance vulnerabilities, and increased costs.		
Source of Funds: FY 2027 Budget 001.07.513-060.64 Capital Outlay Machinery & Equipment		
Financial Impact: \$647,465.76
