## **ATTACHMENT 3-2 REVISED GRANT WORK PLAN**

**PROJECT TITLE:** Ichetucknee Springs Quality and Quantity Enhancement

**PROJECT LOCATION:** The Project will be located at 3999 SW Sisters Welcome Rd, Lake City, FL 32024, and is located southeast of the City of Lake City in Columbia County; Lat/Long (30.1226, -82.6819).

**PROJECT BACKGROUND:** The City of Lake City (Grantee) previously constructed the Ichetucknee Springs Water Quality Improvement Project treatment wetland to provide additional nitrogen removal and beneficial recharge within the Ichetucknee Springshed. The Project will expand the treatment capacity of the wetland and increase the volume of treated water recharged from the wetland. The combination of additional recharge and water quality improvement will provide benefits to Ichetucknee Springs and help in achieving both the Total Maximum Daily Load and the Minimum Flows and Levels.

**PROJECT DESCRIPTION:** The Grantee will construct gravity flow modifications and a gravity recharge feature (either a drainage well or a modified soil profile cell) at the Grantee's "treated wetland site". These modifications will allow for consistent flows to the wetland and additional recharge of stormwater and treated effluent to the Floridan Aquifer. The gravity flow components include 24-inch diameter piping modifications to the existing pressure main and changes to or replacement of exiting wetland inflow structures to improve flow control and measurement. The second project component is a gravity recharge feature that will allow for drainage of comingled stormwater and treated effluent to the Floridan Aquifer following natural treatment in the existing constructed treatment wetland.

The DEP Grant Funds associated with this Agreement were awarded based on local contributions pledged towards the total project costs: \$50,000 from the City of Lake City. A summary of the local contributions will be required in the Final Quarterly Progress Report, and financial supporting documentation shall be provided upon request.

**TASKS:** All documentation should be submitted electronically unless otherwise indicated and should be submitted prior to the expiration of the grant agreement.

### **Task 1: Preconstruction Activities**

**Deliverables:** The Grantee will complete the necessary wetland modeling, design of gravity flow modifications, and design of the gravity recharge feature and obtain all necessary permits for construction of the project. Activities necessary for design, such as surveys, geotechnical evaluations, and environmental assessments, are eligible under this task.

**Documentation:** The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, including the percentage of design complete and permitting status, using the format provided by the Department's Grant Manager. For the final documentation, the Grantee will also submit a copy of the design completed with the funding provided for this task, a list of all required permits identifying issue dates and issuing authorities, and copies of any surveys, assessments, or other documents funded under this task. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

### **Task 2: Bidding and Contractor Selection**

**Deliverables:** The Grantee will work with the selected consultant to prepare a bid package, publish notice to solicit bids, conduct pre-bid meetings, and respond to bid questions, in accordance with the Grantee's procurement process, to select one or more qualified and licensed contractors to complete construction of the gravity flow modifications and gravity recharge feature. In the event that the Grantee elects to use a design/build (D/B) or construction manager at risk (CMAR) delivery method, the Grantee will work with the selected consultant to prepare the applicable contracting documentation. The Grantee may bid project components separately.

**Documentation:** The Grantee will submit: 1) the public notice of advertisement for the bid; 2) the bid package; and 3) a written notice of selected contractor(s).

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

### **Task 3: Project Management**

**Deliverables:** The Grantee will provide project management services related to Ichetucknee Springs Quality and Quantity Enhancement, to include review of documents and forms, budget oversight, preparation and submittal of quarterly progress reports, processing of payment requests and related documentation, field engineering services, construction observation, site meetings with construction contractor(s) and design professionals, and overall project coordination and supervision.

**Documentation:** The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

#### **Task 4: Construction**

**Deliverables:** The Grantee will construct gravity flow modifications and a gravity recharge feature in accordance with the final design.

**Documentation:** The Grantee will submit a signed summary of activities completed for the period of work covered in the payment request, using the format provided by the Department's Grant Manager. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

**Performance Standard:** The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, a payment request may be processed.

**Payment Request Schedule:** The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

**Budget Narrative:** Direct purchase of materials for pipeline modifications by the Grantee will be reimbursed as Miscellaneous/Other Expenses.

**PROJECT TIMELINE & BUDGET DETAIL:** The tasks must be completed by the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Preconstruction Activities	Contractual Services	\$ 420,000	07/01/2019	07/31/2027
2	Bidding and Contractor Selection	Contractual Services	\$ 15,000	07/01/2019	07/31/2027
3	Project Management	Contractual Services	\$ 340,000	07/01/2019	07/31/2027
4	Construction	Contractual Services	\$ 881,880.52	07/01/2019	07/31/2027
		Miscellaneous/ Other Expenses	\$ 143,119.48	07/01/2019	07/31/2027
Total:			\$ 1,800,000		

Note that, per Section 8 of Attachment 1 in the Agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.
