| On June 5, 2023 I spoke with Judy Bradley (Buse) and she will be attending the hearing by Zoom. Mrs. Buse can be reached at (386)292-4530 or at soccershoes1121@gmail.com. | | |

On this same date I spoke to Randall Scofield over the phone and he will be attending the hearing by Zoom. Mr. Scofield also sent me a copy of his father's will showing that all four subjects are owners of the property. This will is attached to the case file. Mr. Scofield can be reached at (478)288-4601 or cherl11544@gmail.com.

I also spoke with Alice Watson and she stated that she had not received the NOH due to her not receiving mail at home. I was able to forward her the NOH by email and she signed it stating that she received it. Mrs. Watson will be attending the hearing in person. Mrs. Watson can be reached at (386)497-3776 or alice.watson@usda.gov.

| On May 31, 2023 I was contacted by Mavis Georgalis that subjects were trespassing on the property located at 406 SE Monroe Street. I posted a condemnation placard on the property on March 16, 2023 due to the structure being unlivable and unsafe to be occupied. | | |

I notified the Lake City Police Department and met them on scene. The subjects had a fire going in the back yard and the Lake City Fire Department responded and extinguished the fire. During the Officers investigation drugs were located on two individuals in which they were arrested. All subjects were placed on trespass from the residence by LCPD. The placard that I placed on the residence was removed at an unknown time and unknown person.

On June 1, 2023 I placed a total of three placards on the residence and photos were taken.

A copy of LCPD incident report is attached to the case file.

On March 15, 2023 I received a call from Vicki Walters that a generator was running constantly at 406 SE Monroe Street. Ms. Walters also stated that two other people were residing at the residence with no electricity and water.

I responded to the residence along with the Department of Health Investigator. Upon my arrival a generator was running and there were no attempts to clean up the property from prior violations. I spoke with Destini Cordle and advised her that the generator was for emergency purposes or to be utilized for clean up for the property which was not being done. The generator was being used at that time to cook pizza rolls. The generator was turned off.

I was unable to enter the residence but I could see through the broken windows there was no flooring in some of the rooms. I could also see what appeared to be mold on some of the walls.

I verified that there were no utility accounts for this address. The Department of Health investigator served Ms. Cordle an abatement notice for having no water account. A placard of condemnation was placed on the residence.

A third NOV was prepared and was hand delivered to Ms. Cordle on March 16, 2023.

On January 18, 2023 I received a call from Vicki Walters who resides at 422 SE Monroe Street. Mrs. Walters stated that the property located at 406 SE Monroe Street is littered with trash and rubbish. Mrs. Walters stated that a female is living on the premises without water and electricity and several of the windows are busted out.

I responded to this residence and no one came to the door but I could see someone inside and they refused to come to the door. I took photographs of the residence and they are attached to this case file. I prepared a NOV and sent it certified mail to the property owner on January 19, 2023. There are also no utilities at this residence.

Compliance date February 17, 2023.

On January 19, 2023 I emailed Sallie Ford Environmental Health Director for the Florida Department of Health. In my email I requested if her agency can assist me in this investigation due to no electricity or water at this residence.

Mrs. Ford stated that her agency would assist and that they would also send her a Notice of Violation.

GENERAL REQUIREMENTS

pancy. Occupants must continue to keep it safe and sanitary while they occupy, control or use the property and premises.

301.3 Vacant structures and land. Vacant structures and *premises* thereof or vacant land shall be maintained in a clean, safe, secure and sanitary condition as provided herein so as not to cause a blighting problem or adversely affect the public health or safety.

- ❖ Both vacant structures and vacant land present special concerns to communities. Because no one is living on these premises, they are often ignored by the owners. Consequently, this section establishes the code official's authority to order the cleanup of vacant lands and the securing of vacant structures that might present an attractive nuisance.

When the owner fails to secure a vacant structure, Section 111.2 provides the code official with the authority to arrange for securing such buildings. Additionally, Section 113 authorizes the code official to pursue demolition of any structure that is deemed unreasonable to repair. When a structure is reasonable to repair, the code official is authorized to require the necessary repairs.

SECTION 302 EXTERIOR PROPERTY AREAS

302.1 Sanitation. *Exterior property* and *premises* shall be maintained in a clean, safe and sanitary condition. The *occupant* shall keep that part of the *exterior property* that such *occupant* occupies or controls in a clean and sanitary condition.

- ❖ This section establishes a simple, straightforward requirement that exterior areas shall be clean and free from rubbish and garbage (see the definitions in Chapter 2). The code official may find that enforcement of this section is frequently neither straightforward nor simple.

Each jurisdiction has neighborhoods within the overall community that have distinct characteristics. Deteriorated, low-cost housing may dominate in one area, while another has expensive, well-maintained housing units. Sanitation standards should be enforced uniformly and consistently.

302.2 Grading and drainage. *Premises* shall be graded and maintained to prevent the erosion of soil and to prevent the accumulation of stagnant water thereon, or within any *structure* located thereon.

Exception: *Approved* retention areas and reservoirs.

- ❖ Improperly graded property areas create health and safety hazards. Stagnant water provides a home for many nuisance insects, especially the mosquito. Stagnant water next to a structure can cause mold growth, which can lead to the decay of wooden members. Ponded water is an attractive nuisance for children and has contributed to numerous drowning deaths.

Stagnant water is foul or stale water. Regrading the premises may be necessary to prevent stagnant water. If regrading is not practical, some type of water-diversion system must be installed. Other solutions

include replacing nonabsorbent soil with absorbent soil, installing underground drain tile or building an underground leaching pit.

Soil erosion can be a nuisance if material is being deposited in drainage systems or on adjacent properties, and is an indication of improper grading. Planting and maintaining an acceptable ground cover generally prevents erosion.

As indicated by the exception, water retention areas or reservoirs are permitted by the code even though they may contain stagnant water; however, the code official must approve their use.

302.3 Sidewalks and driveways. Sidewalks, walkways, stairs, driveways, parking spaces and similar areas shall be kept in a proper state of repair, and maintained free from hazardous conditions.

- ❖ The code official is authorized to require that all sidewalks, walkways, stairs, driveways, parking spaces, and similar surfaces are usable and kept in proper repair. Walking surfaces that have deteriorated to a condition that presents a hazard to pedestrians must be repaired or replaced to eliminate the hazard and thus reduce the potential for accidents or injuries.

302.4 Weeds. *Premises* and *exterior property* shall be maintained free from weeds or plant growth in excess of [JURISDICTION TO INSERT HEIGHT IN INCHES]. Noxious weeds shall be prohibited. Weeds shall be defined as all grasses, annual plants and vegetation, other than trees or shrubs provided; however, this term shall not include cultivated flowers and gardens.

Upon failure of the *owner* or agent having charge of a property to cut and destroy weeds after service of a notice of violation, they shall be subject to prosecution in accordance with Section 108.3 and as prescribed by the authority having jurisdiction. Upon failure to comply with the notice of violation, any duly authorized employee of the jurisdiction or contractor hired by the jurisdiction shall be authorized to enter upon the property in violation and cut and destroy the weeds growing thereon, and the costs of such removal shall be paid by the *owner* or agent responsible for the property.

- ❖ Criteria establishing maximum heights for grass and weeds are necessary to reduce rodent shelters and pollen dust problems.

This section provides a mechanism for removal of weeds on neglected or abandoned properties after proper notice has been given to the responsible owner or agent (see Section 111). It is important that the code official acts quickly in requiring weed removal to prevent the weeds from contributing to a blight condition that could eventually become a harbor for pests and rodents.

All noxious weeds are prohibited; however, each community has different weeds that are considered noxious. The code official should confer with the state or local agricultural agent to become familiar with weeds that are noxious in his or her community.

Cultivated flowers and gardens are not considered to be weeds. The word "cultivated" is important. Cultivated is defined as "to loosen or dig (soil) around growing plants." Uncultivated gardens should be treated the same as weeds and tall grasses.

SCOPE AND ADMINISTRATION

3. Any portion of a building, structure or appurtenance that has been damaged by fire, earthquake, wind, flood, *deterioration*, *neglect*, abandonment, vandalism or by any other cause to such an extent that it is likely to partially or completely collapse, or to become *detached* or dislodged.
4. Any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof that is not of sufficient strength or stability, or is not so *anchored*, attached or fastened in place so as to be capable of resisting natural or artificial loads of one and one-half the original designed value.
5. The building or structure, or part of the building or structure, because of dilapidation, *deterioration*, decay, faulty construction, the removal or movement of some portion of the ground necessary for the support, or for any other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning of the building or structure is likely to fail or give way.
6. The building or structure, or any portion thereof, is clearly unsafe for its use and *occupancy*.
7. The building or structure is *neglected*, damaged, dilapidated, unsecured or abandoned so as to become an attractive nuisance to children who might play in the building or structure to their danger, becomes a harbor for vagrants, criminals or immoral persons, or enables persons to resort to the building or structure for committing a nuisance or an unlawful act.
8. Any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the *approved* building or fire code of the jurisdiction, or of any law or ordinance to such an extent as to present either a substantial risk of fire, building collapse or any other threat to life and safety.
9. A building or structure, used or intended to be used for dwelling purposes, because of inadequate maintenance, dilapidation, decay, damage, faulty construction or arrangement, inadequate light, *ventilation*, mechanical or plumbing system, or otherwise, is determined by the *code official* to be unsanitary, unfit for human habitation or in such a condition that is likely to cause sickness or disease.
10. Any building or structure, because of a lack of sufficient or proper fire-resistance-rated construction, fire protection systems, electrical system, fuel connections, mechanical system, plumbing system or other cause, is determined by the *code official* to be a threat to life or health.
11. Any portion of a building remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned so

as to constitute such building or portion thereof as an attractive nuisance or hazard to the public.

- ❖ This specific section contains a general list of baseline conditions to evaluate a structure against to determine if its present condition is dangerous. The purpose of this section is to allow a code official to cite specific conditions under which he or she finds a structure to be dangerous. The list of conditions focuses on adequacy of the means of egress, structural, fire resistance, fire protection, and plumbing and ventilation systems.

108.2 Closing of vacant structures. If the structure is vacant and unfit for human habitation and *occupancy*, and is not in danger of structural collapse, the *code official* is authorized to post a placard of condemnation on the *premises* and order the structure closed up so as not to be an attractive nuisance. Upon failure of the *owner* or owner's authorized agent to close up the *premises* within the time specified in the order, the *code official* shall cause the *premises* to be closed and secured through any available public agency or by contract or arrangement by private persons and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and shall be collected by any other legal resource.

- ❖ Code officials are granted the authority to condemn, placard and vacate any building that they determine to be unsafe, unlawful or unfit for occupancy. Also, code officials may remove unsafe equipment from use.

No one is permitted to reoccupy or reuse any building or equipment until the code official has given his or her approval. Unsafe structures, unsafe equipment, buildings that are unfit for human occupancy and unlawful structures are further defined in subsequent sections.

The ability to condemn and vacate structures is a powerful enforcement tool. It protects occupants from danger and prevents owners from collecting income on their properties. Before condemning or vacating structures, the code official should establish a clearly defined list of violations that warrant such actions. Additionally, it is critical to document all of the violations found in each building to be condemned. When practical, photographs should be taken of violations. Should litigation become necessary, photographs provide powerful documentation.

Open, vacant buildings are an attractive nuisance to children, a potential fire hazard, a harborage for rodents and insects and a potential home for vagrants. Vacant buildings also create a blighting influence within a community.

The code official is authorized to condemn as unfit those buildings that are vacant and open to trespass but not in danger of collapse. When the owner has been ordered to secure an open building but fails to

PLUMBING FACILITIES AND FIXTURE REQUIREMENTS

If toilet rooms are inconvenient or located too far from the work area, they create a physical hardship for employees.

This section does not require storage buildings and kiosks to contain toilet facilities, as long as there are toilet facilities in an adjacent building such that the distance from the work area to the toilet facilities does not exceed 500 feet (152 m). The building with the toilet facilities must be under the same ownership, lease or control as the storage area. Employers cannot expect their employees to depend on neighborhood gas stations, stores or other businesses to provide access to toilet facilities.

[P] 503.4 Floor surface. In other than *dwelling units*, every *toilet room* floor shall be maintained to be a smooth, hard, nonabsorbent surface to permit such floor to be easily kept in a clean and sanitary condition.

❖ A toilet room floor is much easier to maintain if the surface is smooth, hard and nonabsorbent. In areas such as toilet rooms where the public is likely to enter a facility, the primary concern remains keeping the floor area as clean as possible to safeguard against the spread of disease.

SECTION 504 PLUMBING SYSTEMS AND FIXTURES

[P] 504.1 General. Plumbing fixtures shall be properly installed and maintained in working order, and shall be kept free from obstructions, leaks and defects and be capable of performing the function for which such plumbing fixtures are designed. Plumbing fixtures shall be maintained in a safe, sanitary and functional condition.

❖ All plumbing fixtures must operate adequately and perform their intended functions. Fixtures must drain quickly without permitting sewer gases to enter the structure. Fixtures are not to leak from either the water supply piping or the waste discharge piping.

Fixtures must not be worn or deteriorated so that they cannot be adequately cleaned. Kitchen sinks and lavatories that have defects that prevent them from being kept clean increase the likelihood that disease-causing organisms can be spread to food sources or from person to person. Fixtures with structural cracks can fail suddenly, possibly causing personal injury and further property damage.

[P] 504.2 Fixture clearances. Plumbing fixtures shall have adequate clearances for usage and cleaning.

❖ Inadequate clearance between fixtures and adjacent surfaces can create confined spaces that allow disease and odor-causing bacteria to multiply. For proper sanitation, the fixture must have sufficient clearances for proper use and cleaning.

Although the code does not specify exact clearances between fixtures and adjacent surfaces, the code official must use good judgment and must review the required clearances for compliance with the IPC.

[P] 504.3 Plumbing system hazards. Where it is found that a plumbing system in a *structure* constitutes a hazard to the *occupants* or the *structure* by reason of inadequate service, inadequate venting, cross connection, backsiphonage,

improper installation, *deterioration* or damage or for similar reasons, the *code official* shall require the defects to be corrected to eliminate the hazard.

❖ Any plumbing system having a deficiency or condition that is deemed by the code official as hazardous to the occupants or to the structure must be repaired or altered to eliminate the hazard. Hazards in a plumbing system include, but are not limited to, the following:

- Undersized piping.
- Inadequate venting.
- Cross connections.
- Lack of backflow prevention means.
- Lack of sufficient fixtures.
- Improperly installed piping, fixtures or fittings.
- Deteriorated, damaged, worn or otherwise defective piping, fixtures or fittings.
- Inadequately supported fixtures or piping.
- Inadequate water pressure or volume.

One of the most commonly encountered hazards is a submerged outlet in older-style fixtures in water closets, bathtubs, lavatories, laundry tubs and water softeners. Cross connections and improperly protected outlets greatly increase the likelihood that contaminated water will be introduced into the potable water supply.

SECTION 505 WATER SYSTEM

505.1 General. Every sink, lavatory, bathtub or shower, drinking fountain, water closet or other plumbing fixture shall be properly connected to either a public water system or to an *approved* private water system. Kitchen sinks, lavatories, laundry facilities, bathtubs and showers shall be supplied with hot or tempered and cold running water in accordance with the *International Plumbing Code*.

❖ The water for all plumbing fixtures must be properly connected to either a public or an approved private water system. If there is any question about the quality of the private water source, the code official should require that the water be tested and approved by either a private testing service or a local health department. A plumbing system cannot be considered adequate if the water entering the system is contaminated or otherwise unfit for human consumption and use.

The desired qualities for safe water are:

- Free of pathogenic organisms.
- Free of toxic chemicals.
- Free of odor, taste, color and turbidity.
- Free of excessive minerals.
- Relatively noncorrosive.
- Adequate in quantity and pressure.

All sinks, lavatories, bathtubs and showers must be supplied with cold and hot or tempered running water as regulated by the IPC. Heated water is a basic necessity for all cleansing and bathing needs. It should

Chapter 6:

Mechanical and Electrical Requirements

General Comments

This chapter establishes minimum criteria for the installation and maintenance of the following: heating and air-conditioning equipment, appliances and systems; water-heating equipment, appliances and systems; cooking equipment and appliances; ventilation and exhaust equipment; gas and liquid fuel distribution piping and components; fireplaces and solid fuel-burning appliances; chimneys and vents; electrical services; lighting fixtures; electrical receptacle outlets; electrical distribution system equipment, devices and wiring; and elevators, escalators and dumbwaiters.

The primary objectives of mechanical and heating equipment inspections are to detect, identify and abate any condition that is a potential fire or explosion hazard; is a potential cause of asphyxiation or carbon monoxide poisoning; poses the risk of physical injury to an occupant; prevents the equipment from adequately performing its intended function; or otherwise endangers the occupants or the structure.

The primary objectives of electrical equipment and system inspections are to detect, identify and abate any condition that is a potential fire hazard or electrical shock hazard. Any condition that inadequately provides for the

supply and distribution of electrical power throughout the structure must also be detected, identified and abated.

All mechanical and electrical facilities must be capable of providing the minimum levels of safety, illumination, comfort, utility and convenience as prescribed in this chapter.

Purpose

All mechanical and electrical equipment, appliances and systems must be properly installed to serve the intended purpose. Proper installation, however, does not in itself guarantee safety or performance. In addition to proper installation, all such equipment, appliances and systems must be maintained, as they are subject to deterioration, wear and aging, and may require cleaning, lubrication, adjustment, etc. All materials and components used to construct mechanical and electrical systems have a limited life span, and require repair or replacement at various time intervals that are specific to the material or component.

The purpose of the chapter is to establish minimum performance requirements for electrical and mechanical facilities and to establish minimum standards for the safety of such facilities.

SECTION 601 GENERAL

601.1 Scope. The provisions of this chapter shall govern the minimum mechanical and electrical facilities and equipment to be provided.

- ❖ Minimum performance guidelines for mechanical and electrical facilities and equipment are established in this chapter. Installations that do not conform to these minimum criteria are unacceptable.

601.2 Responsibility. The *owner* of the *structure* shall provide and maintain mechanical and electrical facilities and equipment in compliance with these requirements. A person shall not occupy as *owner-occupant* or permit another person to occupy any *premises* that does not comply with the requirements of this chapter.

- ❖ It is the responsibility of the owner of the structure to provide and maintain the required electrical and mechanical facilities. An owner must not occupy or allow any other person to occupy a structure that is not in compliance with this chapter; thus, the requirements of this chapter are the minimum necessary to make a structure occupiable.

SECTION 602 HEATING FACILITIES

602.1 Facilities required. Heating facilities shall be provided in structures as required by this section.

- ❖ This section establishes the scope of requirements in Section 602 [see the *International Mechanical Code*® (IMC®) for space-heating requirements for new structures].

602.2 Residential occupancies. Dwellings shall be provided with heating facilities capable of maintaining a room temperature of 68°F (20°C) in all habitable rooms, *bathrooms* and *toilet rooms* based on the winter outdoor design temperature for the locality indicated in Appendix D of the *International Plumbing Code*. Cooking appliances shall not be used, nor shall portable unvented fuel-burning space heaters be used, as a means to provide required heating. The installation of one or more portable space heaters shall not be used to achieve compliance with this section.

Exception: In areas where the average monthly temperature is above 30°F (-1°C), a minimum temperature of 65°F (18°C) shall be maintained.

- ❖ This section establishes the following minimum requirements for space heating in residential structures.

Sec. 22-172. - Applicability.

Every building used in whole or in part as a dwelling unit or as two or more dwelling units, or as rooming or boarding houses, shall conform to the requirements of this Code irrespective of the primary use of such building, and irrespective of when such building may have been constructed, altered or repaired.

This Code establishes minimum standards for occupancy, and does not replace or modify standards otherwise established for construction, replacement or repair of buildings except such as are contrary to and less stringent than the provisions of this Code.

No owner or operator shall let for occupancy by any person any premises, any dwelling, dwelling unit, rooming house, or building which contain major violations as defined in this minimum standards code.

(Ord. No. 2007-1112, § 1, 5-21-07)

DIVISION 5. - LOT CLEANING CODE

Sec. 22-201. - Accumulation of weeds, rubbish, and other matter upon land prohibited as public nuisances.

The existence of excessive accumulation or untended growth of weeds, undergrowth or other dead or living plant life; or stagnant water, rubbish, garbage, refuse, debris, trash, including but not limited to household furnishings, and all other objectionable, unsightly or unsanitary matter upon any lot, tract or parcel of land within this city be it uncovered or under open shelter, to the extent and in the manner that such lot, tract or parcel of land is or may reasonably become infested or inhabited by rodents, vermin or wild animals, or may furnish a breeding place for mosquitoes, or threatens or endangers the public health, safety, or welfare, or may reasonably cause disease, or adversely affects and impairs the economic welfare of adjacent property, is hereby prohibited and declared to be a public nuisance and unlawful unless neatly arranged for removal in accordance with directions of the department of growth management.

Warning

If the owner of property which is subject to an enforcement proceeding before the enforcement board, or court transfers ownership of such property between the time the initial pleading was served and the time of the hearing, such owner shall:

- (1) Disclose in writing the existence and the nature of the proceedings to the prospective transferee;
- (2) Deliver to the prospective transferee a copy of the pleadings, notices, and other materials relating to the code enforcement proceedings received by the transferor;
- (3) Disclose, in writing, to the prospective transferee that the new owner will be responsible for compliance with the applicable code and with orders issued in the code enforcement proceedings;
- (4) File a notice with the code enforcement official of the transfer of the property, with the identity and address of the new owner and copies of the disclosures made to the new owner within five days after the date of the transfer.

A failure to make the disclosures described in paragraphs (1), (2) and (3) above before the transfer creates a rebuttal presumption of fraud. If the property is transferred before the hearing, the proceeding shall not be dismissed, but the new owner shall be provided a reasonable period to correct the violation before the hearing is heard.

Good morning Sallie,

I am working a case at 406 SE Monroe Street in reference to a sanitation issue of not keeping their property clean. I have checked and there is no water and electricity at this location. A female Destini Scofield Cordle lives there and I went by yesterday to start my investigation. She was in the house but would not come to the door. Do you have any type of pull to remove her from the residence since no utility's are on at this location? I have sent her a Notice of Violation on the property.

**CODE ENFORCEMENT SPECIAL MAGISTRATE
CITY OF LAKE CITY, FLORIDA**

CITY OF LAKE CITY, FLORIDA

PETITIONER,

CASE NO. 2023-00000004

v.

Destini Scofield Cordle

RESPONDENT.

ORDER

THIS CAUSE came before the Special Magistrate on April 25, 2023, at the request of Petitioner, and the Special Magistrate having heard and received testimony and evidence from Petitioner and Respondent orders as follows:

1. Destini Scofield Cordle ("Respondent" or "Ms. Cordle") is an owner of vacant property located in Lake City, Florida, Parcel #: 00-00-00-13318-000(41838) ("Property"). Lake City Code Enforcement Inspector Marshall Sova appeared and testified at the hearing on behalf of Petitioner. Respondent did not appear at the hearing because she is incarcerated. Vicki Walters, residing near the Property, at 422 SE Monroe Street, Lake City, Florida 32025, was present and testified regarding her concerns about the Property. Mavis Georgalis, also residing near the property, at 223 SE Church Avenue, Lake City, Florida 32025, was also present and testified regarding her concerns about the Property. Nancy Wozniak, also residing near the property, 325 SE Church Avenue, Lake City, Florida 32025, was also present at the hearing.
2. The proceedings in this matter are governed by Chapter 162, Florida Statutes, and Article X of the Lake City, Florida Code of Ordinances.

3. Pursuant to Article X, Section 2-421(a)(1) of the Lake City, Florida Code of Ordinances, notices are required to be sent to the owner of the Property.
4. In this case, the record reflects that there are four owners of the Property: the Respondent, Alice Kimberly Watson, Randall O. Scofield, and Judy Payne Bradley. Only the Respondent was sent notice of the hearing and alleged violations, which was returned as undeliverable, likely due to her incarnation.
5. Accordingly, the hearing is hereby continued in order for the Petitioner to send notice to all four property owners of the alleged violations and hearing. The Petitioner shall also notify neighbors of the Property, Nancy Wozniak, Mavis Georgalis, and Vicki Walters, of the new hearing date.

DONE AND ORDERED on this 28th day of April, 2023.

Hi. I'm sorry I just seen this message. I did get the notice the day before yesterday. I'm going to be having some people helping me tomorrow to get as much done as possible & also Friday if we don't get done with everything tomorrow. I apologize it's taking so long to clean I have been working and not able to get over there in time after work to clean it. But I took off tomorrow and Friday to get it done.

Dear Mrs. Watson:

I am sure you are aware of the status of the property at 406 SE Monroe St. It seems to to go from bad to worse. At this point Destini is "squatting" on the property with her boyfriend and a dog. The property is without water, toilet, or electricity. Over the holidays her boyfriend entered onto my property, stole several items, broke a glass-topped table, and wound up rolling around in my front yard in a drugged stupor and totally naked. The police came and removed him.

I subsequently made an offer to Destini to purchase the property. I took her to the courthouse to obtain the most current title information, to Integrity Title to have the title search and new deed prepared, and to the tag office to purchase a new driver license so she would have legal identification. The title search came back indicating four (4) signatures would be required. Destini did not want anyone else to know about the sale. When I informed her that all individuals would be required, she began peddelling the property to anyone who would give her "promise" money.

Currently the City Code Enforcement office, FL Health Dept., and FL Environmental Health are involved. There may be others of which I am not aware.

I am interested in acquiring the property. It would be a cash sale and Integrity has already prepared the documents. If you and your family are interested, please give me a call so we can close as quickly as convenient to you.

Thank you for your consideration/,

Can you write this up please and investigate.

406 SE Monroe Street, Lake City. Owned by Destiny Cordelle. Backyard is full of trash. Harborage causing rats. Tenants are living there with no power or water (look for nuisance issues). Take an abatement notice with you in case you run into the owner on site. Get a phone number as well.

Check it out in the next day or two please.

Hi, Sallie --

As we discussed, at this time, this is a Code Enforcement issue. And yes, your summary of the legal ownership of the property and Ms. Cordle's current incarceration is correct.

Thanks!

Andrea

Thank you Gary!

I know I will be asked for an update, so to re-cap: We are in a holding pattern until Ms. Cordele comes out of jail, and there is not anything further we can do at this time. And what we have done so far is good, because we do not have any other proof at this time that there are other owners (and we do not have any other documents to "back up" the title search to prove there are other owners). Do these sound like correct statements?

Thanks!

Andrea,

I checked the Columbia County Property Appraiser's website this morning and it only shows Destini Scofield Cordle as the owner. In the "Description" section, there is mention of Alice Scofield, who I assume is the same person as Alice Watson, Destini's mother. The numbers following her name appear to be a telephone number, although no area code is shown.

I did a name search on the Appraiser's website for Alice Watson, Randall Scofield and Judy Jayne Bradley. The only one who is shown as a property owner in Columbia County is Alice Watson and her property address is shown as 527 SW Red Cedar Court, Fort White, FL. I am not sure how Integrity Title Service, LLC, was able to show these three individuals as having a vested interest. I assume that Randall Scofield is a relative, perhaps Destini's father. Judy Bradley may be a sibling. I did a Google search on both and could not come up with an address for either Randall or Judy.

Sorry I could come up with no more that this limited information.
