<b>Summary Explanation &amp; Background:</b> Currently, City and Private Duty overtime is handled manually through a Sergeant at LCPD. This method, due to the increase in Private and City Special events overtime, is now taking the assigned Sgt. a significant amount of time to oversee this. Also, the vendors do not know if the assignments are filled and need to call in to find out, taking up more of the Sgt's time. This program will automate the process and will allow for a smoother process for the hiring of officers. It will also allow for a fairer system of signing for this work for the officers as it will be handled through an App on their cell phones, so every officer has an equal opportunity to sign for overtime, regardless of assignment.		
<b>Alternatives:</b> Keep the current manual system		
<b>Source of Funds:</b> None to City. Vendor-Client is charged 5% for a Vendor Paid Invoice on Private Duty O/T.		
<b>Financial Impact:</b> None
