COUNCIL AGENDA	
SECTION	
ITEM NO.	

SUBJECT: Advanced Waste Treatment and Effluent Disposal Study

DEPT / OFFICE: Utilities – Wastewater

Originator: Cody Pridgeon, Wastewater Director		
City Manager Paul Dyal	Department Director	Date 2/10/2022
Recommended Action: Accept the terms of the Proposal		
Summary Explanation & Background: <p>The Wastewater Treatment Facilities have new FDEP requirement to meet. Both facilities will have to achieve a Total Nitrogen limit of 3.0 mg/l by the year 2025. A plan of action has to be submitted by March 1st 2022. We are also approaching our permitted capacity for Effluent disposal. Mittauer has submitted the attached proposal to do a study showing the most feasible means of meeting the nutrient requirement as well as gaining additional effluent disposal. The total cost of the study will be \$79,500.</p>		
Alternatives: Not Approve		
Source of Funds: 410.74.536-030.31		
Financial Impact: \$79,500		
Exhibits Attached: 1) Proposal
