Recommended Action:

Request the use of available CARES ACT money to be used for furnishings and equipment for the New Fire Station 2

Summary Explanation & Background:

Lake City Fire Department and the City of Lake City recently received word that we have been granted \$500,000 as an appropriation grant towards the construction of Fire Station 2. This money is designated for Construction use only. When applying for this grant, our thoughts were that some of this money would be used to furnish and provide equipment such as a Cascade system (refill breathing air bottles), Commercial Extractor (to wash bunker gear), Ice machine, Alerting system, and furniture for the station. Once we realized we had to use the money for construction, we requested a meeting with Mr. Dyal for direction. The direction Mr. Dyal suggested along with Ms. Duncan was to put the grant money towards construction and request the remaining \$272,000 of CARES money for the purpose of the above equipment and furnishings.

We are currently working on the pricing for these items to give an idea of what costs we are looking at. I can provide that as soon as we receive them.
