Good afternoon Audrey,

Do you think we would have time to do a public meeting?

Respectfully,

Paul Dyal

Mr. Dyal,

I have attached a draft resolution for the FRDAP application. Please feel free to make any changes as needed for the City's resolution format. I tried to get it as close as I could. ☺

Also, how would you like move forward with the public participation portion of the grant application. Our options are as follows:

1. We can conduct an advertised public meeting for 10 points and/or
2. We can make a presentation to an advisory board for 7 points (Planning and zoning or similar boards may be used if a parks and recreation advisory board does not exist) and/or
3. We can make a presentation to a community organization for 4 points (maybe the Richardson Community Center governing board)

Please let me know how you'd like to proceed. I can draft an advertisement for the paper for the public meeting or if you don't think we have time for the public meeting, I can definitely do 2 and 3 for points.

Also, as a reminder, we will need the 30 year title search on the property.

Thank you so much,

Good afternoon Shannon,

I appreciated the opportunity to talk with you and Sylvester yesterday. As I relayed yesterday, I think this is a great project for the community, both youth and adults. I look forward to moving toward making this project a reality. We will start looking into the items that you need and I look forward to you being able to present this worthwhile project to the Council.

Respectfully,

Paul Dyal

Subject: FRDAP Grant R/C Track Project

Mr. Dyal,

I would like to submit a FRDAP application to add an R/C racetrack to the Richardson Community Center. Vested individuals in the community have been working on a plan to add this feature to the center for about a year. NFPS has provided a pro bono conceptual drawing for the project (attached) and the Richardson Community Center and Annie Mattox Park boards both concur that the project is a great idea.

Along with the addition of the R/C track, the FRDAP application will include the renovation of the playground adjacent to the placement of the track, and if the budget permits, a set of prefabricated restrooms to serve the park and track users. Addressing the playground and the restrooms will add several valuable points to the application.

I will be happy to provide a draft resolution for the City to approve at the next meeting. I will also be happy to attend the meeting to address any questions from the Council. To submit a successful application, I will also need the following:

1. A 30-year title search of the property by the City's attorney or property appraiser
2. A land survey of the property less than 3 years old
3. For additional points we can also present the project to local community organization for the purposes of public participation

Thank you so much for considering this project for the community. It will provide a new activity for our youth at the community center and from the community's input so far, we think it will be received well and add great value to the City's resources.
