COA23-31

302 SE McCray and 308 SE McCray

- Located in the Residential Single Family 3 (RSF-3) zoning district.
- Per section 4.5.2.1 of the Land Development Regulations, single-family dwellings are a permitted use.
- Per the definition of a single-family dwelling on page 2-6 of the Land Development Regulations, a residential design manufactured home is a single-family dwelling
- Page 2-7 of the Land Development Regulations defines what a residential design manufactured home is.
- Section 4.2.31 states how a residential design manufactured home shall be installed.

SECTION 4.5 "RSF" RESIDENTIAL, SINGLE FAMILY

4.5.1 DISTRICTS AND INTENT

The "RSF" Residential, Single Family category includes three (3) zone districts: RSF-1, RSF-2, and RSF-3. It is the intent of these districts to provide for single family areas of low to medium density together with public and semi-public buildings and facilities and accessory structures as may be desirable and compatible with such development, as well as surrounding development. Non-residential uses in these districts may be subject to restrictions and requirements necessary to preserve and protect the single family residential character of these districts. Variation among the RSF-1, RSF-2, and RSF-3 districts is in requirements for lot area, width, and certain yards.

4.5.2 PERMITTED PRINCIPAL USES AND STRUCTURES

1. Single family dwellings.
2. Public parks and recreational areas.
3. Homes of six (6) or fewer residents which otherwise meet the definition of a "community residential home" (See Section 4.2).

4.5.3 PERMITTED ACCESSORY USES AND STRUCTURES

1. Uses and structures which:
 - a. Are customarily accessory and clearly incidental and subordinate to permitted uses and structures;
 - b. Are located on the same lot as the permitted principal use or structure, or on a contiguous lot in the same ownership;
 - c. Are not of a nature likely to attract visitors in larger numbers than would normally be expected in a residential neighborhood; and
 - d. Do not involve operations or structures not in keeping with the character of single family residential development.
2. Examples of permitted accessory uses and structures include:
 - a. Private garages;
 - b. Private swimming pools;
 - c. Non-commercial greenhouses and plant nurseries; and
 - d. On-site signs (See Section 4.2).

4.5.4 PROHIBITED USES AND STRUCTURES

Trade or service establishments or storage in connection with such establishments, storage or overnight parking of commercial or industrial vehicles in excess of one (1) ton capacity, storage of building materials (except in connection with active construction activities on the premises), signs except as specifically permitted, the keeping of horses, cows, swine, sheep, goats, or poultry, and any use or structure not specifically, provisionally, or by reasonable implication permitted herein as a special exception.

Dormitory. A dormitory is a space in a unit where group sleeping accommodations are provided with or without meals for persons not members of the same family group, in one (1) room, or in a series of closely associated rooms under joint occupancy and single management, as in college dormitories, fraternity houses, and military barracks.

Drainage Basin. Drainage basin means the area defined by topographic boundaries which contributes stormwater to a drainage system, estuarine waters, or oceanic waters, including all areas artificially added to the basin.

Drainage Detention Structure. Drainage detention structure means a structure which collects and temporarily stores stormwater for the purpose of treatment through physical, chemical, or biological processes with subsequent gradual release of the stormwater.

Drainage Facilities. Drainage facilities means a system of man-made structures designed to collect, convey, hold, divert or discharge stormwater, and includes stormwater sewers, canals, detention structures, and retention structures.

Drainage Retention Structure. Drainage retention structure means a structure designed to collect and prevent the release of a given volume of stormwater by complete on-site storage.

Drive-In Restaurant or Refreshment Stand. A drive-in restaurant or refreshment stand is any place or premises where provision is made on the premises for the selling, dispensing, or serving of food, refreshments, or beverage to persons in automobiles and/or in other than a completely enclosed building on the premises, including those establishments where customers may serve themselves and may eat or drink the food, refreshments, or beverages in automobiles on the premises. A restaurant which provides drive-in facilities of any kind shall be deemed a drive-in restaurant for the purposes of these land development regulations. A barbecue stand or pit having the characteristics noted in this definition shall be deemed a drive-in restaurant.

Dwelling Unit (D.U.). Dwelling unit means a room or rooms connected together, constituting a separate, independent housekeeping establishment for one (1) family, for owner occupancy or rental or lease on a weekly, monthly, or longer basis, and physically separated from any other rooms or dwelling units which may be in the same structure, and containing sleeping facilities and one (1) kitchen.

Dwelling, Single Family. Single family dwelling means a building containing only one (1) dwelling unit and structurally connected to no other dwelling unit. The term single family dwelling also includes dwelling units which meet the State of Florida certification requirements for a "Manufactured Building". Manufactured homes defined by these land development regulations as a Residential Design Manufactured Home and meet the installation criteria prescribed in Section 4.2 of these land development regulations shall be considered a single family dwelling unit. The term is not to be construed as including mobile homes, travel trailers, housing mounted on self-propelled or drawn vehicles, tents, house boats, or other forms of temporary or portable housing.

Dwelling, Mobile Home or Mobile Home. Mobile home dwelling or mobile home means a detached one (1) family dwelling unit with all the following characteristics:

1. Designed for long term occupancy, and containing sleeping accommodations, a flush toilet, a tub or shower bath, and kitchen facilities, with plumbing and electrical connections provided for attachment to outside systems;
2. Designed for transportation after fabrication on streets or highways on its own wheels or on a flatbed or other trailers;
3. Arriving at the site where it is to be occupied as a dwelling complete and ready for occupancy except for minor incidental unpacking and assembly operations, location on jacks or other temporary or permanent foundations, connection to utilities, and the like; and

4. Manufactured homes defined by these land development regulations as Standard Design Manufactured Homes and do not meet the installation criteria prescribed in Section 4.2 of these land development regulations shall be considered a mobile home. A travel trailer is not to be considered a mobile home.

Dwelling, One Family. One (1) family dwelling is one (1) building under one (1) roof containing only one (1) dwelling unit. A one (1) family dwelling may be either a single family dwelling or a mobile home dwelling.

Dwelling, Residential Design Manufactured Home. Residential design manufactured home means a manufactured home built on or after June 15, 1976 and certified to be in compliance with the manufactured housing construction safety standards (42 United States Code 5401, et seq) promulgated by the United States Department of Housing and Urban Development, and such manufactured home shall:

1. Have house-type siding and roofing materials with treatment of a type generally acceptable for site-built housing;
2. Measure at least twenty (20) feet in width (requiring at least a double section home);
3. Have a minimum roof pitch of two and one-half (2 1/2) foot rise for each twelve (12) feet of horizontal run; and
4. Have a minimum roof-overhang on all sides of six (6) inches.

Dwelling, Standard Design Manufactured Home. Standard design manufactured home means a manufactured home built on or after June 15, 1976 and certified to be in compliance with the manufactured housing construction safety standards (42 United States Code 5401, et seq) promulgated by the United States Department of Housing and Urban Development, which does not meet the definition of a Residential Design Manufactured Home.

Dwelling, Two Family or Duplex. Two (2) family or duplex dwelling means one (1) building under one (1) roof containing only two (2) dwelling units.

Dwelling, Multiple. Multiple-family dwelling means one (1) building under one roof containing three (3) or more dwelling units. Housing for the aged, which does not provide for routine nursing and/or medical care, shall be construed to be a multiple family dwelling.

Dwelling, Multiple Dwelling Use. For purposes of determining whether a lot is in multiple dwelling use, the following considerations shall apply:

1. Multiple dwelling uses may involve dwelling units intended to be rented and maintained under central ownership and management or cooperative apartments, condominiums, and the like.
2. Where an undivided lot contains more than one (1) building and the buildings are not so located that lots and yards conforming to requirements for single or two (2) family dwellings in the district could be provided, the lot shall be considered to be in multiple dwelling use if there are three (3) or more dwelling units on the lot, even though the individual buildings may each contain less than three (3) dwelling units.
3. Guest houses and servant's quarters in connection with single family residences shall not be considered as dwelling units in the computation of (2) above.
4. Any multiple dwelling in which dwelling units are available for rental for periods of less than one (1) week shall be considered a tourist home, a motel, motor hotel, or hotel as the case may be.

Easement. An easement is any strip of land created by a subdivider for public or private utilities, drainage, sanitation, or other specified uses having limitations, the title to which shall remain in the name of the property owner, subject to the right of use designated in the reservation of the servitude.

4.2.30 SPECIAL SEPTIC TANK REQUIREMENTS

Existing septic tanks shall be allowed to remain in service until such time as a centralized sanitary sewer service is accessible, conditioned on the following requirements:

1. A building permit shall not be issued for construction of a building or facility where sanitary sewage is proposed to be disposed using an onsite sewage disposal system in an area zoned industrial on the City's official zoning atlas, or used for industrial or manufacturing purposes, or its equivalent, where the City's centralized sanitary sewer system is available within one-quarter (1/4) mile of the area used or zoned industrial or manufacturing, or where a likelihood exists that the onsite sewage disposal system may receive toxic, hazardous or industrial waste;
2. An occupational license shall not be issued to the owner or tenant of a building located in an area zoned industrial on the City's official zoning atlas, or used for industrial or manufacturing purposes, or its equivalent, when such site is served by an onsite sewage disposal system without first obtaining an annual operating permit from the County Health Department; and
3. A certificate of land development regulation compliance shall not be issued to a new owner or tenant of a building located in an area zoned industrial on the City's official zoning atlas, or used for industrial or manufacturing purposes, or its equivalent, or who operates a business which has the potential to generate toxic, hazardous or industrial wastewater, when such site is served by an onsite sewage disposal system without first obtaining an annual operating permit for an onsite sewage disposal system from the County Health Department.

4.2.31 PROVISIONS FOR RESIDENTIAL DESIGN MANUFACTURED HOUSING

Residential Design Manufactured Homes as defined in Section 2.1 shall be installed in accordance with the following:

1. A permanent foundation and anchoring according to Chapter 15c - 1.10 of the Florida Administrative Code;
2. Underfloor area of the home shall be permanently enclosed and termite proofed; and
3. All transportation equipment shall be removed.

4.2.32 SPECIAL COMMUNITY RESIDENTIAL HOME REQUIREMENTS

Homes of six (6) or fewer residents which otherwise meet the definition of a "community residential home" and community residential homes as defined in Section 2.1 shall be located in accordance with the following:

- 4.2.32.1 The City shall not permit homes of six (6) or fewer residents which otherwise meet the definition of a community residential home to be located within a radius of one thousand (1,000) feet of an existing home of six (6) or fewer residents which otherwise meets the definition of a community residential home.
- 4.2.32.2 The City shall permit the siting of a community residential home, unless the City determines that the site selected meets the following criteria:
 1. The site selected does not meet applicable licensing criteria established and determined by the Florida Department of Health and Rehabilitative Services, including requirements that the home be located to assure the safe care and supervision of all clients in the home.
