RE: SM WWTF Rehabilitation

Request for Time Extension

The current date of Substantial Completion is February 2, 2024, with a Final Completion date of March 3, 2024.

Change Order #2 was recently authorized to incorporate modifications to the existing centrifuge feed pump equipment and the replacement of a failing in-plant booster pump station. Subsequent to the issuance of this Change Order, the vendor for the new pump station notified us that the lead time for the equipment is approximately fourteen (14) weeks after the date of submittal approval. We expect to receive the submittals the week of January 15, 2024 and to receive approval no more than two (2) weeks thereafter. The work will require a minor effort after being received for installation and performance testing.

In consideration of the dates above, we would like to request a NO COST time extension of 112 calendar days, thus adjusting the date of Substantial Completion to May 24, 2024.

Regards, Seth G Simmons President
