

### **Visioning Exercise**

- "In 10 years, Lake City will be known for..."
- "The three biggest opportunities for Lake City are..."
- "The three most critical challenges we must address are..."

### **Discussion Questions**

- How can we better position Lake City as a premier transportation and logistics hub?
- What incentives or programs would be most effective in attracting target industries?
- How should we prioritize infrastructure investments to support business growth?
- What policy changes would help accelerate affordable housing development?
- How can we ensure new housing developments align with our mixed-use neighborhood goals?
- What zoning or regulatory changes would support our community development objectives?
- How can we better leverage our natural assets like Ichetucknee Springs and Osceola National Forest?

- What policies would help support expansion of cultural events and festivals?
- What metrics should we use to measure progress on our strategic initiatives?
- How can we improve transparency and communication with residents?
- What framework should we use for prioritizing competing needs and projects?
- Anything else you'd like to share?
