#### Warning

If the owner of property which is subject to an enforcement proceeding before the enforcement board, or court transfers ownership of such property between the time the initial pleading was served and the time of the hearing, such owner shall:

- (1) Disclose in writing the existence and the nature of the proceedings to the prospective transferee;
- (2) Deliver to the prospective transferee a copy of the pleadings, notices, and other materials relating to the code enforcement proceedings received by the transferor;
- (3) Disclose, in writing, to the prospective transferee that the new owner will be responsible for compliance with the applicable code and with orders issued in the code enforcement proceedings;
- (4) File a notice with the code enforcement official of the transfer of the property, with the identity and address of the new owner and copies of the disclosures made to the new owner within five days after the date of the transfer.

A failure to make the disclosures described in paragraphs (1), (2) and (3) above before the transfer creates a rebuttal presumption of fraud. If the property is transferred before the hearing, the proceeding shall not be dismissed, but the new owner shall be provided a reasonable period to correct the violation before the hearing is heard.

MAILED 11/18/25

On Wednesday November 12, 2025, I stopped by to follow up on a request to perform a fire and life safety inspection at the Knights Inn at 339 SW Commerce Dr. I originally spoke with the manager on October 17, 2025, and explained I was inspecting all the hotels inside the city limits and that I would like to schedule with them within two weeks. After I had not had an inspection scheduled, I stopped by to get an update. The manager stated we had not gotten anywhere on getting anything scheduled. In turn I asked if I could walk the building with her if she had free time so she could make a list of any violations that need to be corrected if any were present. She stated that it would be fine and we began checking the first-floor area of the hotel.

The first thing that was inspected was the emergency lighting of the hallways and stairwells. Only two sets of emergency lighting were found to be operable. NFPA 101 Chapter 29 states, **29.2.9 Emergency Lighting.**

**29.2.9.1**

Emergency lighting in accordance with Section **7.9** shall be provided in all buildings with more than 25 rooms.

While looking at emergency lighting, multiple illuminated exit signs, marking proper exit paths were not working properly and or did not have power back up in the case of loss of power to the building. NFPA 101 Chapter 29 states: **29.2.10 Marking of Means of Egress.**

Means of egress shall have signs in accordance with Section **7.10**

Close

**7.10**

**7.10 Marking of Means of Egress.**

**7.10.1 General.**

**7.10.1.1 Where Required.**

Means of egress shall be marked in accordance with Section **7.10** where required in Chapters 11 through 43.

**7.10.1.2 Exits.**

**7.10.1.2.1 \***

Exits, other than main exterior exit doors that obviously and clearly are identifiable as exits, shall be marked by an approved sign that is readily visible from any direction of exit access.

Following this I checked the fire extinguisher and found all of them to be over 16 months out of date from the last maintenance inspection they had received. NFPA 10 Chapter 7 states: NFPA 10 Chapter **7.3.1.1**

Fire extinguishers shall be subjected to maintenance at intervals of not more than 1 year, at the time of hydrostatic test, or when specifically indicated by an inspection discrepancy or electronic notification.

I then inspected the sprinkler system for the building. On the main riser of the system was a red tag label from Cox Fire, indicating the system has severe deficiencies. The backflow

preventer outside of the building beside the roadway/parking lot also has a red tag on it. It was also found these tags were from 2023 and no service or inspection had been done on the system since then. NFPA 13R Chapter 11 states: NFPA 13R Chapter 11

#### **11.2 \* Owner's Responsibility.**

The owner shall be responsible for the condition of a sprinkler system and shall keep the system in normal operating condition.

#### **11.3 Inspection, Testing, and Maintenance.**

Sprinkler systems shall be inspected, tested, and maintained in accordance with [NFPA 25](#).

With the sprinkler system, it was also found in each riser room, around the riser and sprinkler system that there was excessive storage. The upstairs room had the riser and sprinkler system completely blocked from being accessed. It states in NFPA 25 Chapter 4:

#### **4.1.3 \* Accessibility.**

The property owner or designated representative shall provide ready accessibility to components of water-based fire protection systems that require inspection, testing, and maintenance.

It was also found in the stairwells of the building that one of the doors would not fully close and one of the doors was propped open. In the same stairwells there were various items such as plywood, lumber, and office chairs stored in the lower portion of the stairwell.

NFPA 101 Chapter 7 states: **7.1.3.2.3 \***

An exit enclosure shall not be used for any purpose that has the potential to interfere with its use as an exit and, if so designated, as an area of refuge. (See also [7.2.2.5.3](#).)

#### **7.1.10.1 \* Maintenance.**

Means of egress shall be continuously maintained free of all obstructions or impediments to full instant use in the case of fire or other emergency.

#### **7.2.1.8.1 \***

A door leaf normally required to be kept closed shall not be secured in the open position at any time and shall be self-closing or automatic-closing in accordance with [7.2.1.8.2](#), unless otherwise permitted by [7.2.1.8.3](#).

After completing my walk-through and going over the findings with management, I notified the building and code enforcement departments, as the findings of the walk through prove to find significant threats to the safety of the occupants of the building, along with causing unsafe fire or potential fire conditions. It is my stance that immediate attention be brought to all the above listed items to provide a safer environment.
