

Mr. Helfenberger,

Distribution & Collections budgeted \$50,000 for sewer piping for the orthopedic lift station, however due to the increasing rise in price for piping the quote received (\$73,715.60) for the piping came up over budget. D&C would like to pull the extra \$22,311.50 from the orthopedic lift station upgrades in account 63 and \$1,404.50 from pressure recorders in account 64 to cover the difference.

Thank you,

X 

Brian Scott, Director of D&C
