<b>Summary Explanation &amp; Background:</b> Orange County, FL did RFP Y24-1021 for Supervisory Control and Data Acquisition (SCADA) Services. Contract was awarded to DSI Innovations and is in effect until October 31, 2029. The Water Treatment Plant is in need of updating the controls for the West Booster Pump Station. This is a budgeted project for FY2026. DSI Innovations has successfully completed numerous SCADA projects for the City therefore being very familiar with our existing infrastructure. DSI is able to procure required materials at a lower cost than the City can obtain independently. Given the significant increase in cybersecurity, timely update of our SCADA systems is essential.
