**D. ATTACHMENT/SUBMITTAL REQUIREMENTS**

1. Boundary Sketch or Survey with bearings and dimensions.
2. Aerial Photo (can be obtained via the Columbia County Property Appraiser's Office).
3. Concurrency Impact Analysis: Concurrency Impact Analysis of impacts to public facilities, including but not limited to Transportation, Potable Water, Sanitary Sewer, and Solid Waste impacts. For residential land use amendments, an analysis of the impacts to Public Schools is required.
4. Comprehensive Plan Consistency Analysis: An analysis of the application's consistency with the Comprehensive Plan (analysis must identify specific Goals, Objectives, and Policies of the Comprehensive Plan and detail how the application complies with said Goals, Objectives, and Policies). For text amendments to the Comprehensive Plan, the proposed text amendment in strike-thru and underline format.
5. Legal Description with Tax Parcel Number (In Microsoft Word Format).
6. Proof of Ownership (i.e. deed).
7. Agent Authorization Form (signed and notarized).
8. Proof of Payment of Taxes (can be obtained online via the Columbia County Tax Collector's Office).
9. Fee. The application fee for a Comprehensive Plan Amendment is as follows:
  - a. Small Scale Comprehensive Plan Amendment (10 Acres or less) = \$750.00
  - b. Large Scale Comprehensive Plan Amendment (More Than 10 Acres) = \$1,500.00 or actual city cost
  - c. Text Amendment to the Comprehensive Plan = \$750

10. All property owners within three hundred (300) feet be notified by certified mail by the proponent and proof of the receipt of these notices be submitted as part of the application package submittal.  
The Growth Management Department shall supply the name and addresses of the property Owners, the notification letters and the envelopes to the proponent.

No application shall be accepted or processed until the required application fee has been paid.

### NOTICE TO APPLICANT

**All ten (10) attachments are required for a complete application. Once an application is submitted and paid for, a completeness review will be done to ensure all the requirements for a complete application have been met. If there are any deficiencies, the applicant will be notified in writing. If an application is deemed to be incomplete, it may cause a delay in the scheduling of the application before the Planning & Zoning Board.**

**A total of two (2) paper copies of proposed Comprehensive Plan Amendment Application and support material and a PDF copy on a CD are required at the time of submittal.**

**THE APPLICANT ACKNOWLEDGES THAT THE APPLICANT OR AGENT MUST BE PRESENT AT THE PUBLIC HEARING BEFORE THE PLANNING AND ZONING BOARD, AS ADOPTED IN THE BOARD RULES AND PROCEDURES. OTHERWISE THE REQUEST MAY BE CONTINUED TO A FUTURE HEARING DATE.**

I hereby certify that all of the above statements and statements contained in any documents or plans submitted herewith are true and accurate to the best of my knowledge and belief.

Subject: Odom Moses & Company Zoning Amendment Concurrency Impact Analysis

The subject application is for an expansion to the existing Odom Moses & Company office building on a +/- 1.99 acres parcel.

Criteria for analyses (Concurrency impact analysis performed for expansion of 3662 square feet of office space):

- Trip generation was calculated per the ITE Trip Generation, 9<sup>th</sup> Edition, ITE Code 710 General Office.
- Potable water analysis for **Office Building (a) per employee per 8 hour shift or (b) per 100 square feet of floor space, whichever is greater** per 64E-6.008 Florida Administrative Code, Table 1.
- Sanitary sewer analysis for **Office Building (a) per employee per 8 hour shift or (b) per 100 square feet of floor space, whichever is greater** per 64E-6.008 Florida Administrative Code, Table 1.
- Solid waste analysis based on standard of 5.5 lbs per 1000 square feet of gross floor area per day.

Summary of analyses:

- Trip generation report: 40.37 Total ADT and 5.71 Peak Hour Trips
- Potable water: 550 gpd
- Sanitary sewer: 550 gpd
- Solid Waste: 20.13 lbs/day

Please see attached concurrency worksheets for analyses.

Please contact me if you have any questions.

Best Regards,

A handwritten signature in black ink, appearing to read "Lance Jones", written in a cursive style.

Lance Jones, P.E.

Office Building	5.50	3.66	20.13

\*5.5 lbs per 1000 square feet of gross floor area per day

February 11, 2025

Mr. Robert Angelo  
Planning and Zoning Tech  
City of Lake City Growth Management  
205 North Marion Avenue  
Lake City, FL 32055

**SUBJECT: Comp Plan Consistency Analysis for Odom, Moses & Company Phase II**

Dear Mr. Angelo:

Jones Engineering and Consulting, LLC (JEC) is representing the owner of the subject project. In support of the enclosed application please find the following:

**4. Comprehensive Plan Consistency Analysis: An analysis of the application's consistency with the Comprehensive Plan (analysis must identify specific Goals, Objectives, and Policies of the Comprehensive Plan and detail how the application complies with said Goals, Objectives, and Policies). For text amendments to the Comprehensive Plan, include the proposed text amendment in strike-thru and underline format.**

#### **FUTURE LAND USE GOAL, OBJECTIVES AND POLICIES**

**GOAL I - IN RECOGNITION OF THE IMPORTANCE OF ENHANCING THE QUALITY OF LIFE IN THE CITY, DIRECT DEVELOPMENT TO THOSE AREAS WHICH HAVE IN PLACE, OR HAVE AGREEMENTS TO PROVIDE, SERVICE CAPACITY TO ACCOMMODATE GROWTH IN AN ENVIRONMENTALLY ACCEPTABLE MANNER.**

- **Objective I.1 The City Concurrency Management System shall make available or schedule for availability the public facilities for future growth and urban development as development occurs in order to provide for urban densities and intensities within the City.**
- **Policy I.1.1 The location of higher density residential, high intensity commercial and heavy industrial uses shall be directed to areas adjacent to arterial or collector roads, identified on the Future Traffic Circulation Map, where public facilities are available to support such higher density or intensity.**

*Consistency: The property is located on US Hwy 90 near Interstate 75 with utilities available to support the proposed use.*

- **Policy I.1.2 The land development regulations of the City shall be based on and be consistent with the following land use classifications and corresponding standards for densities and intensities and shall establish the following floor area ratio(s) to be applied to each classification of land use:**

*Consistency: Floor area ratio(s) shall be maintained per the land development regulations.*

- **Policy I.1.3 The City shall continue to allocate amounts and types of land uses for residential, commercial, industrial, public, and recreation to meet the needs of the existing and projected future populations and to locate urban land uses in a manner where public facilities may be provided to serve such urban land uses. (Urban land uses shall be herein defined as residential, commercial and industrial land use categories).**

*Consistency: Public facilities are available at the site with an acceptable level of service to serve the proposed use.*

"Keeping It Civil"

- **Policy I.1.4** The City shall continue to limit the designation of residential, commercial and industrial lands depicted on the Future Land Use Plan map to acreage which can be reasonably expected to develop by the year 2025.

*Consistency: It is reasonable to expect the property to commence construction in 2025.*

- **Objective I.2** The City shall adopt performance standards which regulate the location of land development consistent with topography and soil conditions and the availability of facilities and services.
- **Policy I.2.1** The City shall restrict development within unsuitable areas due to flooding, improper drainage, steep slopes, rock formations and adverse earth formations by the following design standards for arrangement of development:

1. Streets shall be related appropriately to the topography. All streets shall be arranged so as to obtain as many as possible building sites at or above the grades of the streets. Grades of streets shall conform as closely as possible to the original topography. A combination of steep grades and curves shall be avoided.

2. Local streets shall be laid out to discourage use by through traffic, to permit efficient drainage and utility systems and to require the minimum number of streets necessary to provide convenient and safe access to property.

3. The rigid rectangular gridiron street pattern need not necessarily be adhered to, and the use of curvilinear streets, cul-de-sacs, or U-shaped streets shall be encouraged where such use will result in a more desirable layout.

4. Proposed streets shall be extended to the boundary lines of the tract to be subdivided, unless prevented by topography or other physical conditions, or unless, in the opinion of the City Council, such extension is not necessary or desirable for the coordination of the layout or the most advantageous future development of adjacent tracts..

*Consistency: The property is not located in a flood area and would not include steep slopes or rock formations that would be adverse to the arrangement of development in accordance with the comprehensive plan.*

- **Objective I.3** The City shall require that all proposed development be approved only where the public facilities meet or exceed the adopted level of service standard.
- **Policy I.3.1** The City shall limit the issuance of development orders and permits to areas where the adopted level of service standards for the provision of public facilities found within the Comprehensive Plan are maintained. This provision also includes areas where development orders were issued prior to the adoption of the Comprehensive Plan.

*Consistency: The level of service standards will not be adversely affected from existing conditions by the development.*

- **Objective I.4** The City shall continue to include provisions for Planned Residential Development regulations. A Planned Residential Development (PRD) is:

*Consistency: Does not apply, this is not a PRD application.*

- **Objective I.5** The City shall continue to limit the extension of public facility geographic service areas to the adjacent urban development area, except that water line extensions may be made outside such designated urban development area to address public health and safety concerns associated with groundwater contamination and water and sewer line extensions may be made to public land uses located

outside such designated urban development area. The boundary of this designated urban development area is depicted within the Future Land Use Map Series of this Comprehensive Plan.

*Consistency: No extension of public utilities are required as the site has direct access to public utilities.*

- Objective I.6 The City shall continue to include within the portion regarding the report and recommendation of the Planning and Zoning Board on amendments to such regulations, that such report shall address whether the proposed amendment will be a deterrent to the improvement or development of adjacent land uses and it shall be concluded by the local governing body, based upon such report and prior to approval of the amendment, that the granting of the amendment will not adversely impact adjacent land uses.

*Consistency: The project will not be a deterrent to the improvement or development of adjacent land uses as it will have the same classification of adjacent land uses. Concurrency impacts are minimal in comparison to existing land use.*

- Objective I.7 The City shall identify and designate blighted areas which are feasible for redevelopment or renewal, through the updating of the housing condition survey based upon information as available from the University of Florida, Shimberg Center for Affordable Housing.

*Consistency: Does not apply, this is not a blighted area.*

- Objective I.8 The City shall reduce inconsistencies in land uses with the provisions of this Comprehensive Plan through the establishment of such inconsistencies as non-conforming land uses.

*Consistency: The proposed use is consistent with existing land uses.*

- Objective I.9 The City shall continue to use a Historic Preservation Agency appointed by the City Council to assist the City Council with the designation of historic landmarks and landmark sites or historic districts within the City based upon criteria utilized for the National Register of Historic Places and the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings. The Historic Preservation Agency shall review applications for historic designation and after conducting a duly noticed public hearing shall make a recommendation to the City Council based upon the criteria stated in the maintenance and reuses of historical structures policy contained within the Future Land Use Element of the Comprehensive Plan.

*Consistency: The proposed use is not located in a Historical Preservation area.*

- Objective I.10 The City shall protect natural resources and environmentally sensitive lands (including but not limited to wetlands and floodplains). For the purposes of this Comprehensive Plan "wetlands" means those areas that are inundated or saturated by surface water or groundwater at a frequency and a duration sufficient to support, and under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soils. Soils present in wetlands generally are classified as hydric or alluvial, or possess characteristics that are associated with reducing soil conditions. The prevalent vegetation in wetlands generally consists of facultative or obligate hydrophytic macrophytes that are typically adapted to areas having soil conditions described above. These species, due to morphological, physiological or reproductive adaptations, have the ability to grow, reproduce or persist in aquatic environments or anaerobic soil conditions. Florida wetlands generally include swamps, marshes, bayheads, bogs, cypress domes and strands, sloughs, wet prairies, riverine swamps and marshes, hydric seepage slopes, tidal marshes, mangrove swamps and other similar areas. Florida wetlands generally do not include longleaf or slash pine flatwoods with an understory dominated by saw palmetto.

*Consistency: The proposed use is not located in an environmentally sensitive area, including but not limited to wetlands or floodplains.*

- **Objective I.11** The City shall establish a process for coordination with agencies responsible for the implementation of any regional resource planning and management plan prepared pursuant to Chapter 380, Florida Statutes, as amended.

*Consistency: This item will be completed in the City of Lake City Growth Management application review process.*

- **Objective I.12** The City shall coordinate review of all proposed subdivision plats with the Water Management District for subdivisions proposed within the drainage basin of any designated priority water body to provide the Water Management District an opportunity to review such subdivision to determine if the plat is consistent with any approved management plans within that basin.

*Consistency: This project will be designed to meet the SRWMD permitted conditions.*

Please contact me at 386-965-9000 if you have any questions.

Respectfully,

A handwritten signature in black ink, appearing to read "Lance Jones", with a stylized flourish at the end.

Lance Jones, P.E.
