re: Real Terrace Concurrency Impact Analysis

The site is currently vacant. A 146,000 sf discount club was used for these calculations. The proposed commercial site will utilize City sewer and water. There is not enough information to estimate water or sewer use. A traffic study will need to be conducted with the site plan.

Criteria for analyses:

- Trip generation was calculated per the ITE Trip Generation Manual, 9th edition, ITE code 820
- Potable Water Analysis per Chapter 64E-6.008 Florida Administrative Code, Table 1
- Sanitary Sewer Analysis Chapter 64E-6.008 Florida Administrative Code, Table 1
- Environmental Engineering: Tampa Typical Solid Waste Generation Rates

Summary of analyses:

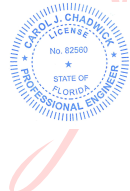

- Trip generation: 6103 ADT & 619 Peak PM trips
- Potable Water: ? gallons per day
- Potable Water: ? gallons per day
- Solid Waste: 292 tons per year

See attached Concurrency Worksheet.

Please contact me at 307.680.1772 if you have any questions.

re: Real Terrace Comprehensive Plan Consistency Analysis

The Real Terrace proposed site consistent with Lake City's Comprehensive Plan.

Future Land Use Element

GOAL 1 - IN RECOGNITION OF THE IMPORTANCE OF CONSERVING THE NATURAL RESOURCES AND ENHANCING THE QUALITY OF LIFE, THE CITY SHALL DIRECT DEVELOPMENT TO THOSE AREAS WHICH HAVE IN PLACE, OR HAVE AGREEMENTS TO PROVIDE, THE LAND AND WATER RESOURCES, FISCAL ABILITIES AND SERVICE CAPACITY TO ACCOMMODATE GROWTH IN AN ENVIRONMENTALLY ACCEPTABLE MANNER.

- Objective 1.1 The City shall continue to direct future population growth and associated urban development to urban development areas as established within this comprehensive plan.

Consistency: The subject property is located at the intersection of SW Bascom Norris Drive and SW Faith Road and only one block southeast of Highway 247. The properties adjacent to SW Bascom Norris Drive are currently zoned CI in Columbia County.

- Policy 1.1.1 The City shall limit the location of higher density residential and high intensity commercial and industrial uses to areas adjacent to arterial or collector roads where public facilities are available to support such higher density or intensity. In addition, the City shall enable private subregional centralized potable water and sanitary sewer systems to connect to public regional facilities, in accordance with the objective and policies for the urban and rural areas within this future land use element of the comprehensive plan.

Consistency: The subject property is located at the intersection of SW Bascom Norris Drive and SW Faith Road and only one block southeast of Highway 247.

- Policy 1.1.2 The City's future land use plan map shall allocate amounts and mixes of land uses for residential, commercial, industrial, public and recreation to meet the needs of the existing and projected future populations and to locate urban land uses in a manner where public facilities may be provided to serve such urban land uses. Urban land uses shall be herein defined as residential, commercial and industrial land use categories.

Consistency: The properties adjacent to SW Bascom Norris Drive are currently zoned CI in Columbia County.

- Policy 1.1.3 The City's future land use plan map shall base the designation of residential, commercial and industrial lands depicted on the future land use plan map upon acreage which can be reasonable expected to develop by the year 2024.

Consistency: The owners would like to start development as soon as possible after all permits are obtained.

- Policy I.1.4 The City shall continue to maintain standards for the coordination and siting of proposed urban development near agricultural or forested areas, or environmentally sensitive areas (including but not limited to wetlands and floodplain areas) to avoid adverse impact upon existing land uses.

Consistency: Stormwater management permits will be obtained prior to the commencement of any construction activities so the site will not have any adverse environmental impacts on the existing land uses.

- Policy I.1.5 The City shall continue to regulate and govern future urban development within designated urban development areas in conformance with the land topography and soil conditions, and within an area which is or will be served by public facilities and services.

Consistency: No impacts to adjacent land topography or soil conditions will result due to a zoning or land use change of the subject property.

- Policy I.1.6 The City's land development regulations shall be based on and be consistent with the following land use classifications and corresponding standards for densities and intensities within the designated urban development areas of the City. For the purpose of this policy and comprehensive plan, the phrase "other similar uses compatible with" shall mean land uses that can co-exist in relative proximity to other uses in a stable fashion over time such that no other uses within the same land use classification are negatively impacted directly or indirectly by the use.

Consistency: This proposed changes are consistent with the properties adjacent to SW Bascom Norris Drive and SW Real Terrace.
