Mr. David Young Growth Management Director 205 N. Marion Ave Lake City, Fl 32055

RE: Lake City Buick GMC Service Department Expansion - Project Narrative

Dear Mr. Young,

The purpose of this application is to construct a 15,753 SF automobile service facility on vacant land adjacent to the Lake City Buick GMC Dealership. The building will consist of 15 service bays and three (3) tire and alignment bays to serve the existing car dealership. There will be a small waiting area, office, locker rooms, and restroom facilities included as well.

Stormwater management will be provided via underground exfiltration chambers sized to provide water quality and attenuation volumes required by Suwannee River Water Management District. The exfiltration system will discharge to a City curb inlet on the northwest corner of the site.

City utilities will supply potable water, fire service, and sanitary sewer to the building. There is gravity sewer on SE Nassau Street along with a water distribution pipe (size not provided by City). Connections are proposed in accordance with FDEP regulations.

The Site Plan application and supporting documentation is contained herein. We look forward to working with you on this project.

If you have any questions, please call me.

Sincerely,

DEWBERRY

William A. Menadier, P. E.
