Concurrency Impact Analysis 34-3S-16-02463-147

This proposed development will not have a negative impact on public facilities. The property is already zoned Commercial General which would allow for multiple businesses that would generate substantially more motor vehicle trips per day than the allowed 8 dwelling units (du) per acre multi-family complex on 1.63 acres (13 du max). As part of the commercial development, the subdivision is connected to the City of Lake City water system and sanitary sewer system. The solid waste impact for multiple businesses versus approximately 13du should not be substantially different, and/ may or be less, depending upon the type of commercial businesses allowed in the commercial general designation. Due to the size of the project, the impact on the public school system is minimal.

Comprehensive Plan Consistency Analysis 34-3S-16-02463-147

The following analysis identifies how this application is consistent with the County's Comprehensive Plan. Language from the comprehensive plan is provided in normal font, and the consistency statements are provided in bold and italics font.

Proposed Site Plan

The property is 1.63 acres and is located along NW Hall of Fame Drive and NW Huntsboro Street in Columbia County. The proposed development is to be rezoned from Commercial General to Residential- Multi-Family.
(34-3S-16-02463-147)

1. An Analysis of the Requirements of Section 16.2 of the Land Development Regulations:
(a.) Whether the proposed change would be in conformance with the county's comprehensive plan and would have an adverse effect on the county's comprehensive plan.

The rezoning would have no adverse effect on the comprehensive plan. The surrounding areas have the same residential zoning.

(b.) The existing land use pattern.

The existing land use pattern is Commercial General.

(c.) Possible creation of an isolated district unrelated to adjacent and nearby districts.

There is no possible creation of an isolated district as the property surrounding the subject property is zoned Residential Multi-Family.

(d.) The population density pattern and possible increase or overtaxing of the load on public facilities such as schools, utilities, streets, etc.

There is no expected significant change in the population density pattern

(e.) Whether existing district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.

The existing district boundaries are consistent with the surrounding property and the existing conditions on the subject property.

(f.) Whether changed or changing conditions make the passage of the proposed amendment necessary.

The proposed future use of the property will be Residential Multi-Family.

(g.) Whether the proposed change will adversely influence living conditions in the neighborhood.

There is no negative influence to the living conditions expected.

(h.) Whether the proposed change will create or excessively increase traffic congestion or otherwise affect public safety.

No expected significant increase in traffic.

(i.) Whether the proposed change will create a drainage problem.

All excessive runoff created onsite with development will be supported by a proposed stormwater management facility.

(j.) Whether the proposed change will seriously reduce light and air to adjacent areas.

Any proposed development on the site will have no effect on lighting and/or air to the adjacent areas.

(k.) Whether the proposed change will adversely affect property values in the adjacent area.

There is no foreseen affects to property values in the area.

(l.) Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accord with existing regulations.

There is no foreseen reason why the proposed use would have any effect on the development of the adjacent properties.

(m.) Whether the proposed change will constitute a grant of special privilege to an individual owner as contrasted with the public welfare.

The proposed rezoning is consistent with the current zoning in the area and the current characteristics of the NW Hall of Fame Drive and NW Huntsboro Street corridor.

(n.) Whether there are substantial reasons why the property cannot be used in accord with existing zoning.

The current zoning does not allow for residential use.

(o.) Whether the change suggested is out of scale with the needs of the neighborhood or the county.

The rezoning is in line with the current conditions surrounding the subject property and the NW Hall of Fame Drive and NW Huntsboro Street corridor.

(p.) Whether it is impossible to find other adequate sites in the county for the proposed use in districts already permitting such use. When pertaining to other proposed amendments of these land development regulations. The planning and zoning board shall consider and study:

(i.) The need and justification for the change.

Along that section of NW Hall of Fame Drive and NW Huntsboro Street, there is many residential multi-family homes. The subject property is residential site and the proposed construction will be similar to what is already constructed within the area.

(ii.) The relationship of the proposed amendment to the purposes and objectives of the comprehensive planning program and to the county's comprehensive plan, with appropriate consideration as to whether the proposed change will further the purposes of these land development regulations and other ordinances, regulations, and actions designed to implement the county's comprehensive plan.

Rezoning the subject property to Residential Multi-family is consistent with the surrounding zoning and the current makeup of the NW Hall of Fame DR and NW Huntboro corridor. It is also consistent with the current Comprehensive Land Use.
