### 2. PROJECT DESCRIPTION:

The Town of Lake Park has been awarded Twelve Million, Seven Hundred Sixty-Seven Thousand, Six Hundred Thirty-Five Dollars and Zero Cents (\$12,767,635.00) in CDBG-MIT (Community Development Block Grant-Mitigation) funding for mitigation efforts to retrofit the existing Southern Outfall consisting of a four-phase project designed to replace or enhance significant segments of the Town of Lake Park's underground storm-water infrastructure. The infrastructure has reduced capacity and has largely exceeded its service-life. This project will satisfy the Urgent Need National Objective by providing relief to a system responsible addressing the storm-water drainage requirements of forty-eight percent of the town's 930-acre area. The existing Southern Outfall drains 446 acres (30.3%) of the town's area and discharges untreated runoff toward the Lake Worth Lagoon, an impaired waterbody in the EPA's 303d list. This project will also address the current recurring risk of flooding of the upper and middle areas of the watershed characterized by residential neighborhoods of low-to-moderate income population. Lake Park is composed of residential areas on the town's eastern boundary and an industrial area to the west along 10<sup>th</sup> Street and Dixie Highway. It is located on the southeast coast of Florida in Palm Beach County. The town is bordered on the east by the Intracoastal Waterway. Palm Beach Gardens lies to the west, Rivera Beach is to the South, and the Village of North Palm Beach to the North. The Town of Lake Park is a minority majority community that, according to the US Census, has an average per capita income of \$23,162 and a 15.6% poverty rate. Both have significant difference compared to the state's average of \$34,103 income and 10.5% poverty rate. The Town of Lake Park has leveraged \$415,842.64 for this project for a total cost of \$13,183,477.64.
