Nadia D. Tommaso  
Community of Development Director, Town of Lake Park  
Community Development Department  
535 Park Avenue,  
Lake Park, FL 33403

Dear Ms. Tommaso,

We are respectfully requesting approval from the Town of Lake Park for quiet work on Sunday, May 21st, 2023 for the Nautilus 220 project. The three tower cranes onsite are being "jumped" to increase their height in order to be moved further up the building.

The tower crane company will be starting this work on Friday, May 19th. They are hoping to complete work on Saturday, May 20th. However, should additional time be required, they are requesting to be able to work during normal hours on Sunday, May 21st, 2023. This work is not noisy; however, it will involve closing off the areas around the tower cranes to provide for proper safety. KAST and their subcontractor are coordinating these lane closures with the Palm Beach Sheriff's Office.

We would appreciate your kind consideration. If you have any questions, feel free to call me.

Sincerely,  
Larry Zabik
