

I would like to thank you for the opportunity afforded United Special Patrol, Inc. to provide the enclosed information on our company and the various security services and products we provide.

Whether your goal is access control, loss prevention, shrinkage reduction or after-hours security, it is imperative that the security service provider you choose be able to stand behind their guarantee of qualified, trained and reliable security officers, as well as being able to provide cutting edge electronics. For well over 40 years our founder and President, Iva Wummer, has done just that!

Headquartered in Royal Palm Beach, Florida, United K-9 has a proven track record of successfully serving private and public sector clients throughout the State of Florida.

United K-9 was the first firm to provide K-9 services in Palm Beach to police departments, and drug sniffing dogs to the sheriff's department as well as guards dogs to local businesses. This ability to have *vision* of the future of the security industry and to adapt to, and embrace our constantly evolving society, is a major contributor to our reputation for disruption-free start-ups and adaptable, reliable security service programs at compelling value – and our reputation for excellent client service.

We have consistently exhibited our commitment to the idea that security is a service business. We are there when our clients call. We respond to concerns immediately and effectively. Operationally and administratively, the local Point of Contact is always a phone call away. With a 24/7 dispatch center, a diligent and caring operations team and a thorough hiring process we understand that and provide an unsurpassed level of excellence.

Sincerely,

Iva .P Wummer, President

### **WHY WE ARE THE RIGHT TEAM FOR THE JOB**

The reason we believe that United K9 Special Patrol, Inc. is the best to partner with the Town of Lake Park is as follows:

United K9 Special Patrol has been in Service since 1973 to present. Offering unarmed, armed guards, Private Investigators and K9 Units.

Robert Wummer, which works with United K9 Special Patrol has lived on the Marina for over 30 Years and is available 24/7. His qualifications are:

1. Military Police
2. Police Officer with K-9 Unit
3. Owner and Operated Security Companies for the last 49 Years.
4. Been a boater for most of his life and is alert to a boat that could be listing or have a fuel leak, etc.

Mr. Wummer assisted with a car accident at the Marina where a Woman almost lost her life after driving at a high rate of speed and crashing through concrete filled post at the Marina.

Mr. Wummer personally over sees the security guards and will decide if the Police and or the Marina Manager needs to be called when there is an incident.

## PROPOSAL SUBMITTAL SIGNATURE PAGE

By signing this Proposal, the Proposer certifies that it satisfies all legal requirements as an entity to do business with the Town, including all Conflict of Interest and Code of Ethics provisions.

Firm Name:

United Special Patrol, Inc.

Street Address:

535 Royal Palm Beach Boulevard, Royal Palm Beach, Florida 33411

Mailing Address (if different from Street Address):

Same

Telephone Number(s): 561-848-2600

Fax Number (s): 561-848-8752

Email Address: bwummer@bellsouth.net

Federal Employer Identification Number: 20-1964735

Signature: William Wummer

(Signature of authorized agent)

Print Name: William Wummer

Title: Vice President

Date: October 7, 2022

*By signing this document, the Proposer agrees to all terms and conditions of this Solicitation and the resulting contract/agreement.*

**THE EXECUTION OF THIS FORM CONSTITUTES THE UNEQUIVOCAL OFFER OF THE PROPOSER TO BE BOUND BY THE TERMS OF ITS PROPOSAL. FAILURE TO SIGN THIS SOLICIATION WHERE INDICATED ABOVE BY AN AUTHORIZED REPRESENTATIVE SHALL RENDER THE PROPOSAL NON-RESPONSIVE. THE TOWN MAY, HOWEVER, IN ITS SOLE DISCRETION, ACCEPT ANY PROPOSAL THAT INCLUDES AN EXECUTED DOCUMENT THAT UNEQUIVOACLLY BINDS THE PROPOSER TO THE TERMS OF ITS PROPOSAL.**

## CONFLICT OF INTEREST DISCLOSURE FORM

The award of this contract is subject to the provisions of Chapter 112, Florida Statutes. All Proposers must disclose within their Proposal: the name of any officer, director, or agent who is also an employee of the Town of Lake Park.

Furthermore, all Proposers must disclose the name of any Town employee who owns, directly, or indirectly, an interest of more than five percent (5%) in the Proposer's firm or any of its branches.

The purpose of this disclosure form is to give the Town the information needed to identify potential conflicts of interest for evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal consideration may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any Town duty or responsibility in administration, management, instruction, research, or other professional activities.

Please check one of the following statements and attach additional documentation if necessary:

  X   To the best of my knowledge, the undersigned firm has no potential conflict of interest due to any other Cities, Counties, contracts, or property interest for the Proposal.

       The undersigned firm, by attachment to this form, submits information that may be a potential conflict of interest due to other Cities, Counties, contracts, or property interest for this Proposal.

## NON-COLLUSION AFFIDAVIT

STATE OF Florida

COUNTY OF Palm Beach

Before me, the undersigned authority, personally appeared William Wummer, who after being by me first duly sworn, deposes and says of his/her personal knowledge that:

- a. He/She is William Wummer of United Special Patrol, Inc., the Proposer that has submitted a Proposal to perform work for the following:

RFQ No.: (RFP) No. 107-2022 Title: Lake Park Harbor Marina Security Services

- b. He/She is fully informed respecting the preparation and contents of the attached Request for Qualifications, and of all pertinent circumstances respecting such Solicitation.

Such Proposal is genuine and is not a collusive or sham Proposal.

- c. Neither the said Proposer nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including this affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly, with any other Proposer, firm or person to submit a collusive or sham Proposal in connection with the Solicitation and contract for which the attached Proposal has been submitted or to refrain from proposing in connection with such Solicitation and contract, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer, firm, or person to fix the price or prices in the attached Proposal or any other Proposer, or to fix any overhead, profit or cost element of the Proposal price or the Proposal price of any other Proposer, or to secure through any collusion, conspiracy, connivance, or unlawful agreement any advantage against the City or any person interested in the proposed contract.

- d. The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the Proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

William Wummer

## Our Services

United Special Patrol can assist you in augmenting your physical security by providing you with the latest in electronic solutions. These integrations are an integral component to any security program.

### Guest Verification Software

United Entry Software Suite is the proven solution for fast, secure guest verification used by Residential Communities. Our user friendly software uses the latest technologies yet is affordable and easily integrated into your community.

### ProxiGuard Tour System

It works by installing a series of RFID Tags (each with its own unique global identification number) along patrol routes and having patrol personnel perform readings on the tags using a hand held reader. The recorded tag numbers along with each associated time stamps are later uploaded via communication adapters to computers for processing and verification. The results are displayed on the screen, printed or emailed so that managers can review at once job performance data of the patrolling personnel (attendance, locations patrolled, timeliness, incidents and etc).

### OCR technology

OCR Technology Optical Character Recognition, OCR, is the process of converting data from scanned documents into computer-editable text that can be populated into other applications.

## What is GPS Fleet Tracking?

The Global Positioning System (GPS) network was developed in the 1970's by the US military and was declassified in 1982 for commercial use. It includes multiple satellites orbiting the earth at a distance of approximately 20,000 miles. The satellites provide detailed time and positioning information. GPS vehicle

tracking and fleet management systems use a GPS transmitter/receiver and a small antenna on each vehicle that links it to the GPS network which can then monitor each vehicle's activity 24 X 7 X 365. The vehicle data is then downloaded into the user's master database, providing a permanent history of the entire fleet operation.

## **Company Strengths**

- **Uniforms Provided at NO cost to officer**
- **Site Director in full uniform not civilian clothing**
- **All officers CPR trained**
- **No Smoking allowed on client premises**
- **All concerns addressed by owner not mid level managers or supervisors**
- **Work with Client to formulate site specific post orders and additional rules and regulations**
- **High morale amongst staff**
- **Service, Service, Service...**

## *Employee Training*

The state of Florida like many other states has certain requirements that must be met prior to working as an unarmed security guard. In order to obtain the unarmed security guard license in this

State a specific class must be taken to qualify for the Class D License, which qualifies a person in the state of Florida to work as an unarmed security guard.

The training for an unarmed security guard includes learning to observe, writing detailed reports.

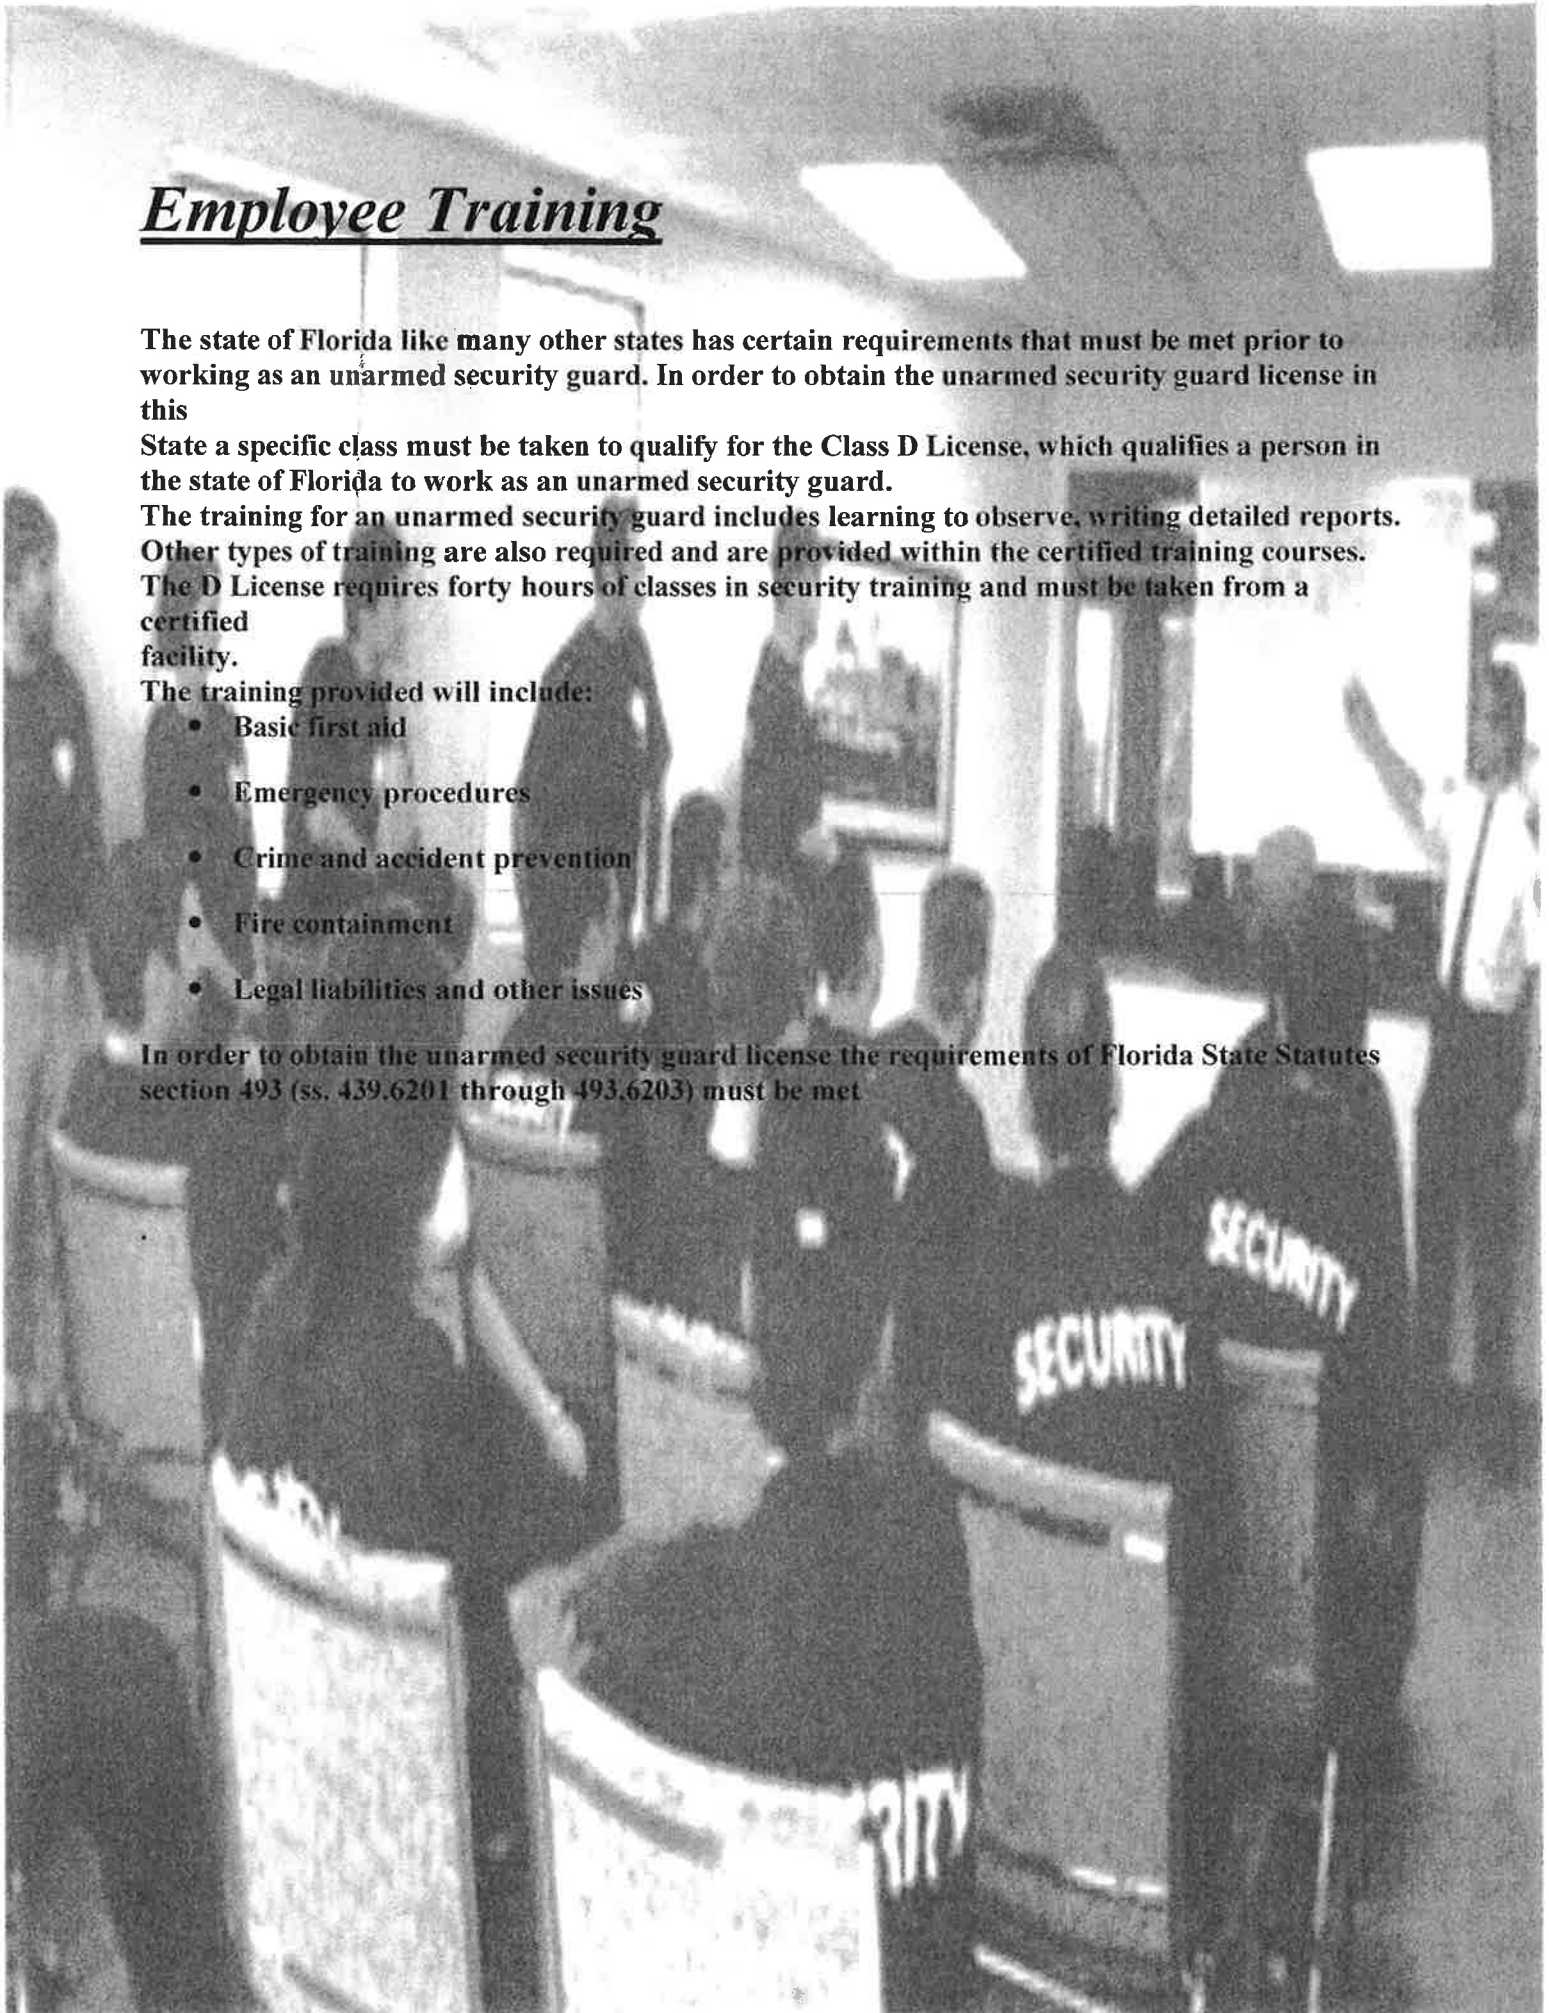

Other types of training are also required and are provided within the certified training courses.

The D License requires forty hours of classes in security training and must be taken from a certified facility.

The training provided will include:

- Basic first aid
- Emergency procedures
- Crime and accident prevention
- Fire containment
- Legal liabilities and other issues

In order to obtain the unarmed security guard license the requirements of Florida State Statutes section 493 (ss. 439.6201 through 493.6203) must be met

## **Employee Training**

***United Special Patrol training above and beyond State Of Florida mandates:***

- **16 Hours of Marina Training**
- **8 Hours of Patrol Techniques**
- **Site Specific Written Test after 60 days**
- **Conflict Management**
- **Interpersonal skills**
- **Customer Service**
- **Crime Prevention**
- **Report Writing**
- **Observation Skills**
- **Safe Driving**
- **Supervisor Training**
- **Time Management and Organizational skills**

## **Drug Testing**

United Special Patrol, Inc. is a drug-free work place in accordance to the Drug-Free Workplace Act of 1988

Candidates are given 10 Panel drug tests to screen for the following drugs:

- Marijuana
- Cocaine
- Amphetamines
- Methamphetamines
- Methadone
- Opiates
- Barbiturates
- Benzodiazepines
- Tricyclic antidepressant
- Phencyclidine

According to the Division of Workplace Programs, the results of a 10-panel drug test are often determined by a laboratory. This type of test typically detects if the following drugs are found in the urine sample: cocaine, amphetamine, methamphetamine (Ecstasy, crystal meth), tetrahydrocannabinol (marijuana), methadone, opiates (heroin), phencyclidine (PCP), barbiturates, benzodiazepines (Xanax, Valium) and tricyclic antidepressant. In addition to the drugs, the 10-panel drug test can also measure characteristics of the urine sample, such as the pH level. Testing the characteristics of the sample can show if the urine has been altered to cheat the test.

## **Emergency Plans**

**Plan, Prepare & Mitigate**

Telephone (561) 848-2600

Facsimile (561) 848-8752

State of Florida License #B-0000845

## **Emergency Plans**

- Step 1: From the start, communities should focus on the resources needed for a successful mitigation planning process. Essential steps include identifying and organizing interested members of the community as well as the technical expertise required during the planning process.
- Step 2: Next, communities need to identify the characteristics and potential consequences of hazards. It is important to understand how much of the community can be affected by specific hazards and what the impacts would be on important community assets.
- Step 3: Armed with an understanding of the risks posed by hazards, communities need to determine what their priorities should be and then look at possible ways to avoid or minimize the undesired effects. The result is a hazard mitigation plan and strategy for implementation.
- Step 4: Communities can bring the plan to life in a variety of ways, ranging from implementing specific mitigation projects to changes in day-to-day organizational operations. To ensure the success of an ongoing program, it is critical that the plan remains relevant. Thus, it is important to conduct periodic evaluations and make revisions as needed.

### **Ability to Provide Service in the Aftermath of a Hurricane**

Hurricanes are serious storms that can cause massive destruction and loss of life. Some hurricanes are stronger than others, but any hurricane is dangerous. To survive a hurricane safely, you must prepare and use common sense. After hurricane Wilma United Special Patrol, like many other companies, made an assessment of its preparedness to mitigate man-made and natural disasters. We wanted to make sure that we could provide service to our clients as quickly as possible after an event. We will happy to provide, for your review, our hurricane manual, policy and procedure upon execution of contract.

**For Informational Purposes Only**  
**Marina Safety**

Tens of thousands of waterfront communities around the world depend upon local marinas to serve as safe, family-friendly gateways to the boating experience. In 1928, the word "marina" was used for the first time in the U. S. by the National Association of Engine and Boat Manufacturers to define a recreational boating facility. Ever since then, marinas have been an integral part not only of American recreation, but also of the worldwide boating community at large. And at the same time, marinas have an increased responsibility to maintain clean and safe facilities for the boating public.

**Florida's Waters**

Florida has over 8,000 miles of coastline and 4,500 square miles of inland waterways, making it a paradise for boaters! From mega-yachts to wooden skiffs, having a boat is as normal as having a car for some Floridians.

Also known as "the ditch," the Intracoastal Waterway (ICW) is a natural but dredged channel that extends 500 miles down the east coast of Florida to the tip of the Keys. It's a very popular boating route that runs through rivers, creeks and dredged canals. It is maintained by the Florida Inland Navigation District.

The 135-mile Okeechobee Waterway, which cuts through the state, is another popular boating route, especially during the summer. It runs along the St. Lucie Canal from Stuart, across Lake Okeechobee and then on to Sanibel Island via the Caloosahatchee River.

**Florida Marine Patrol**

The Florida Marine Patrol is now known as the Fish and Wildlife Commission (FWC). Their main phone number is: 850-488-4676

**Regional Offices:**

## **Marina Fire Prevention, Theft and General Safety Tips**

Marine theft is on an increase, and is usually done by relatively unskilled, young amateurs who strike where they find an easy opportunity. We can defend ourselves against this type of crime by becoming security conscious and by practicing the following common sense crime prevention measures, keeping in mind three factors which discourage thieves everywhere:

### **Time | Noise | Visibility**

In considering boat security, try to think like a criminal. What factors about your boat or moorage would make it an easy target for a thief? Store your vessel so that it is not easily accessed.

#### **Remove Equipment & Tackle**

The best way to keep thieves from stealing property from boats is to not leave valuables aboard. Most thefts occur because boat owners simply fail to remove items from boats, making them easy targets. Remove marine electronics, fishing tackle, and equipment from boats would eliminate the majority of thefts that occur in the marine environment. Or secure electronics with theft-resistant hardware such as security bolts or screws.

#### **Equipment Identification**

Boat owners and fishermen should mark all equipment, including rods, reels, and tackle boxes. Engrave the owner's social security number and the state's abbreviation in a concealed area (on reel seat of fishing rods and under the reel seat on fishing reels). These identification numbers will assist law enforcement officers in tracing stolen merchandise back to the owner.

#### **Photograph It**

Photograph or videotape the interior and exterior of your vessel showing all installed equipment and additional gear/equipment. Open drawers and lockers and photograph interiors and contents. Date and sign the photographs and add any clarifying or identifying messages. Store the photographs in a safe place, not in the boat.

#### **Record It**

Make a complete inventory of your equipment, boat, motors, and trailer and record the serial numbers. Remember that most marine electronics, fish locators, depth finders, GPS devices, VHF radios, stereo systems, battery chargers, and expensive reels also have serial numbers. When provided to law enforcement, these serial numbers can then be listed on the National Crime Information Center stolen list. In the event of any type of loss, this information will prove invaluable in making a prompt, accurate report for law enforcement and insurance personnel.

Telephone (561) 848-2600

Facsimile (561) 848-8752

State of Florida License #B-0000845

### Outboard Motor

Remove small outboard motors from boats that will be left unattended for an extended period of time. An alternative to removing these motors would be to add an outboard motor lock, which can make them somewhat more secure. While these devices can be pried off, the time and noise involved will make it more trouble than it is worth for many thieves.

### Personal Watercraft

Personal watercraft have become another popular target of boat thieves. They are relatively easy to transport or tow from a dock and are becoming the most popular boats for resale. Owners of these boats should use heavy vinyl-coated cable or log chains and shielded locks to secure them to a support post or other stationary fixture on the dock. Always remove the kill switch when left unattended.

### Trailerable Boats

- Trailerable boats are the most frequent targets of marine theft. Stealing a boat is much easier if a thief can hitch up to your boat and trailer and drive away. These tips may help: If possible, store the boat and trailer in a locked garage, secured boat-storage facility or mini-storage stall. If the boat is stored at home, put it in the back or side yard out of sight.
- Store it with the trailer tongue not easily accessible.
- If storing a boat in an open driveway, carport, or open side lot, park another vehicle or other large object in front of the trailer.
- An effective, preventive measure for outside storage is to remove one trailer wheel.
- Store the spare tire in an automobile, truck, or secure it to the trailer with a chain and lock.
- Secure the boat and trailer to a secure object with a good quality chain and lock.
- Purchase a good quality trailer hitch lock and use it – even if stored inside.

Telephone (561) 848-2600

Facsimile (561) 848-8752

State of Florida License #B-0000845

### Vessel Security

There may be some equipment that must be left on the vessel. Secure these items only in lockable storage areas. Keep in mind that many times the storage area locks installed by the boat manufacturer are not adequate to deter thieves. Boat dealerships and marinas offer special after-market security devices, such as Loc-R-Bar for bass boats, which can be used to better secure boat storage compartments. Remember: **out of sight – out of mind.**

Houseboats, cruisers, and boats with cuddy cabins are not generally constructed with security in mind. However, there are several things that can be done to reduce the risk of vessel theft in these types of boats.

**Marine Hatch** – Marine dealers carry special exterior hatch locks. When fastened with a quality padlock, one of these improves security. Hinges and hatches are another weak point. Depending on the type of boat, it may be possible to add or substitute hinges for improved security. **Windows** – For sliding windows, place a length of doweling in the track to prevent the window from being forced open. Locksmiths and hardware dealers also carry a variety of special, small locks and fasteners, which can be used to increase the security of other types of windows. There are many systems that can be installed on boats. Care should be taken to select one designed for marine use – one that is resistant to water, salt, and humidity and has a reset function.

## **Marina Fire Prevention, Theft and General Safety Tips**

- When choosing a marina, check around for fire protective measures such as stand pipes, fire extinguishers, cleanliness, clear dock passageways, security, good lighting, surveillance cameras, uniformed guards, coded entry gates, a neighborhood watch program, and other accident and theft prevention measures. If you get a bad feeling, take your boat and your business elsewhere.
- Wear PFD's while on the docks and working around your boat. ESPECIALLY make sure that children are wearing properly-fitted PFD's.
- Don't swim in marina waters. Boat maneuvering and movement is tough enough without having swimmers in the water, and there can also be dangerous stray currents in the water from improperly bonded electrical systems.
- Make sure you, your family members, and guests are wearing non-slip shoes anywhere on the marina premises, but especially around the docks and on your boat.
- Don't leave loose items lying around on the dock or in visible areas of your boat. They could get kicked into the water, stolen, or present a tripping hazard.
- Be proactive about regular maintenance of your vessel, especially electrical and fuel systems.
- Use bio-degradable cleaning products when you wash your boat.
- If you leave your boat for any reason, turn off any portable heaters you may have on board.
- Never leave engine parts or oily rags around dock areas, and ventilate thoroughly before performing any work on your boat.
- You and your family are the eyes and ears of your marina neighborhood. Don't be shy about telling marina staff about potential problems or hazards, such as weatherworn wiring or fixtures, spilled or leaking fuel, or lack of safety equipment like fire extinguishers, proper signage, and life rings.
- Gasolines generators on board can leak fuel, short out, overheat, and can represent a significant carbon monoxide risk if not properly used and maintained.
- Practice a safe egress from your boat and from the dock in the event of fire.

### **ELECTRICAL**

- Use only UL marine approved cord sets and connectors. Don't use extension cords at the dock. Turn off all electrical loads before connecting cords.
- Don't hook up if you see burn marks or if your cord set won't firmly connect to the power pedestal.
- View cord sets as a preventive maintenance item that are routinely replaced.
- Install an easy-to-use battery disconnect if your boat is stored in a dry rack - - don't trust your battery selector switch.
- Cords connecting your boat and the power pedestal should be arranged so that there is slack to allow for boat movement, and placed so that cords can't be crushed or chafed.
- If you find a cord set strained or damaged in any way, replace it immediately.
- Things you bring from home to use on your boat are not always suitable for boat use. The movement of the boat, the marine environment, and the fact that some appliances are intended for unattended, extended use can make home appliances risky. Space heaters, microwave ovens, vacuum cleaners, home battery chargers, and even lava lamps have been the cause of boat fires. If you use them, make sure they are unplugged or shore power is shut off when you're not around.

Telephone (561) 848-2600

Facsimile (561) 848-8752

State of Florida License #B-0000845

- Make sure the marina is supplying you with the proper voltage, particularly if everyone on your dock is drawing a heavy load. Low voltage can cause AC appliances like refrigerators and air conditioners to overheat. Use a voltage input meter on your AC panel.
- It's a good idea to have double pole breakers and a polarity meter in your AC panel. If the marina does have the polarity reversed, you'll know it and juice will be cut off in the event of any shorts you might have in any appliances. If you have older style single pole breakers, turning off the breaker won't stop the flow of electricity if the polarity is reversed.
- When connecting or disconnecting power at your boat, always make sure the power is first disconnected at the dock pedestal.

#### FUEL

- Fuel portable tanks on the dock, not on or in the boat.
- Don't try to clean up gasoline spills by yourself - - inform the marina staff if you cause or see a spill.
- Before fueling, close all compartments, hatches, and covers. After fueling, open everything up and ventilate thoroughly. Use your nose to see if you can detect any fumes. Then run your blower for at least five minutes.
- When fueling, keep the nozzle of the pump in contact with the fill pipe.
