Section B

This section with the business impact estimate must be completed if the proposed ordinance does not meet any of the exemptions in Section A.

1. A summary of the proposed ordinance which must include a statement of the public purpose (e.g., public health, safety, morals and welfare).

Pursuant to the recommendations of the Kimley Horn study of the Park Avenue Downtown District, staff is proposing to move forward select recommended changes to the use table to allow for greater flexibility. Specifically, the study had recommended that the Town “focus on fill and redevelopment; encourage incremental growth and adaptive reuse of code compliant buildings.” While not all of the Kimley Horn proposed text amendments can be enacted currently due to the ongoing restrictions of Senate Bill 180, aspects which are less “restrictive or burdensome” may be advanced. These text amendments, meeting this criteria, are therefore being recommended, and include generally changing a number of the special exception uses to become uses permitted by right. Affected uses include: live-work units, gyms, parking structures, craft distilleries, hotels, microbreweries, restaurants, small scale food and beverage production, indoor entertainment, theaters, and train stations. The intended impact is to be more business-friendly to new business owners coming into the Park Avenue Downtown District.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the Town, if any:

- a) An estimate of direct compliance costs that businesses may reasonably incur.

None. This will reduce compliance costs by eliminating the special exception process for the proposed uses and allow them to proceed directly with the business tax receipt process. Those businesses no longer required to go through the special exception process will save a minimum of \$1,600 for the application fee and \$1,500 in escrow fees per applicant.

- b) Any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

N/A

3. An estimate of the Town's regulatory costs, including an estimate of revenues from any new charges or fees to cover such costs.

None. Town costs will only be those costs normally borne for review of zoning certificate and business tax receipt applications (I.E., staff time).

4. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

Given past interest in the types of uses that are becoming permitted, staff estimates 5-10 may take advantage of these reduced restrictions over the course of the next 5 years.

5. Additional information/methodology for preparation, if any:
