Attachments: PowerPoint Presentation Materials

Please initial one:

_____ Yes, I have notified everyone.

XX _____ Not applicable in this case

Summary Explanation/Background:

The 10th Street Road and Green Infrastructure (Stormwater) Improvements Project has advanced to approximately 70% design, representing a key decision point before the project moves into the next phase of design development.

The Public Works Department is presenting the current design framework for the Tree Board review and comment of the proposed side-street landscape and storm-system bioswale landscape.

Following Tree Board comment, town staff and the project design team from Baxter & Woodman Engineers will advance the project design.
