ORDINANCE NO. 2022-

AN ORDINANCE OF THE VILLAGE COUNCIL OF THE VILLAGE OF NORTH PALM BEACH, FLORIDA, AMENDING ARTICLE III, "DISTRICT REGULATIONS," OF APPENDIX C (CHAPTER 45) OF THE VILLAGE CODE OF ORDINANCES BY AMENDING SECTION 45-34.1 TO REVISE THE ZONING REGULATIONS FOR THE C-3 REGIONAL BUSINESS DISTRICT TO FACILITATE REDEVELOPMENT AND PROVIDE FOR A NEW PLANNED UNIT DEVELOPMENT PROCEDURE; AMENDING SECTION 45-35.1, "PLANNED UNIT DEVELOPMENT," TO ALLOW FOR USE BY PROPERTIES WITHIN THE C-3 ZONING DISTRICT UNDER SPECIFIED CIRCUMSTANCES; PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; PROVIDING FOR AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

 WHEREAS, through the adoption of Resolution No. 2016-73, the Village Council formally adopted the Citizens' Master Plan Report prepared by the Treasure Coast Regional Planning Council ("Master Plan"), including the recommendations contained therein, as setting forth the guiding principles for future development within the Village; and

WHEREAS, the Master Plan recognized the redevelopment potential of the old Twin City Mall site, the development of which is governed by the Village's C-3 Regional Business District zoning regulations; and

WHEREAS, the Master Plan expressed a preference for a lifestyle center, like CityPlace or Mizner Park, within the C-3 District that would provide "shopping, entertainment, restaurant uses within the form of an urban neighborhood that incorporates residential as an integral use;" and

WHEREAS, as noted in the Master Plan, the site is large enough to accommodate a significant project with buildings tall enough to afford water views and could incorporate the following qualities: (1) an interconnected system of walkable blocks and small streets; (2) buildings lining streets and facing parks and open spaces; (3) a mix of building types such as townhouses, low-rise multi-family, high-rise multi-family, retail and mixed use; and (4) parking provided on-street, in garages and behind buildings; and

WHEREAS, the Village shares the Twin City Mall site with the Town of Lake Park, and the Town has already adopted new zoning regulations with increased density and intensity to facilitate redevelopment as well as a Regulating Plan to maintain interconnectivity; and

WHEREAS, the Village wishes to amend the zoning regulations for the C-3 Regional Business Zoning District to facilitate the type of large-scale development or lifestyle center contemplated by the Master Plan through the use of a new Planned Unit Development process that provides added flexibility and intensity; and

WHEREAS, the Planning Commission, sitting as the Local Planning Agency, conducted a public hearing to review this Ordinance and provide a recommendation to the Village Council; and

- f. Personal services typically offered in conjunction with shopping facilities, such as laundromats, dry cleaners, barber and beauty shops, child care facilities, health clubs, and shops for the repair, cleaning, or rental of items weighing less than one hundred (100) pounds.
- g. Restaurants and other establishments where food and/or beverages are prepared and served.
- h. Retail sale of new or antique merchandise that is displayed indoors only, whether in freestanding buildings or in a centrally managed shopping center or enclosed mall.
- i. Theaters and other entertainment facilities including nightclubs, game rooms, bowling alleys, and similar establishments, provided they are fully enclosed and provided such uses shall not include adult entertainment establishments.

1 See section 10 for additional PUD requirements

(2) Off-street parking. All proposed land uses shall provide a sufficient number of parking spaces to accommodate the number of vehicles that can be expected to be attracted to that use. Individual land uses can provide at least the number of spaces listed below on the same parcel of land as the principal building (or on an adjoining parcel under identical ownership) in lieu of using the parking space standards found elsewhere in this Code. However, certain land uses may require less parking; and combinations of land uses may be able to reduce the total number of spaces by sharing those spaces during differing peak hours or because of pedestrian traffic or multi-purpose trips. Modified standards may be approved if fewer spaces will accommodate the number of vehicles that can be expected to be attracted to that use (or combination of uses) at the proposed location. Such a modification may be made on individual parcels of land (or adjoining parcels under identical ownership) by the building official when permitted by consensus national codes or standards or after submission of persuasive technical evidence (such as publications of the Institute of Transportation Engineers (ITE)). Modifications that involve shared parking on parcels of land that are not under identical ownership, or parking in a different municipality than the principal building regardless of ownership, may be approved through the special C-3 PUD procedures found below in section 45-34.1(10).

a. Auditoriums of any kind — 1 space per 3 seats.

^{2.} Subject to the same requirements as apply in the R-2 zoning district

1 2 2		b.	Banks and other financial institutions — 3 spaces per 1,000 square feet.
3 4 5 6 7		c.	Hotels and motels — 1 space per guest room plus 1 space per 2 employees during the peak period; parking for restaurants and other guest facilities to be calculated separately.
, 8 9		d.	Offices, medical/dental — 5 spaces per 1,000 square feet.
10 11		e.	Offices, all other — 3 spaces per 1,000 square feet.
12 13		f.	Residential — 2 spaces per dwelling unit.
14 15 16		g.	Restaurants and nightclubs — 12 spaces per 1,000 square feet, except 6 spaces per 1000 square feet for restaurants offering takeout service.
17 18 19 20		h.	Retail uses and personal services — 4 spaces per 1,000 square feet, except 1.5 spaces per 1,000 square feet for furniture sales.
21 22		i.	Shopping centers — 4 spaces per 1,000 square feet.
23 24 25 26		j.	Uses not listed above to be determined by the building official using standards found elsewhere in this Code or upon submission of persuasive technical evidence about the number of vehicles that can be expected to be attracted.
27 28			NOTES:
29 30 31			1. All areas are measured as gross floor area except multi- tenant shopping centers and office complexes, which are measured as gross leasable area.
32 33 34			 Fractional spaces can be disregarded. Wherever the term "identical ownership" is used, the land parcels in question must be contiguous and must be owned
35 36			by or under the unified control of the applicant.
37 38 39	(3)	loadin	reet loading and internal circulation. Requirements for off-street g, parking lot aisles, accessways, and general internal circulation shall ne as would apply in the C-S zoning district.
40 41 42 43 44 45		a.	Lighting: Parking lots shall be fully illuminated during hours of business operation with a minimum standard of illumination from closing to dawn per the Palm Beach County Code or ITE, whichever is more stringent.

(4) Landscaping. Landscaping shall be required along the outer boundary of the C-3 zoning district (irrespective of any municipal boundary) and also in unroofed parking areas whenever a parking area is constructed, reconstructed, or reconfigured. In addition to the other provisions of Chapter 27 of this Code, the following landscaping requirements shall be met:

- a. Required landscaping adjacent to public rights-of-way: The required landscaped strip between a public right-of-way and an off-street parking area shall be at least fifteen (15) feet wide and shall contain at least five (5) trees and eighteen (18) shrubs for each one hundred (100) lineal feet.
- b. Parking area interior landscaping for unroofed parking areas: At least ten (10) percent of the total paved surface area shall be devoted to landscaped areas. Each area counting toward the ten (10) percent total shall have an average minimum dimension of ten (10) feet. At least one (1) tree shall be planted for every two hundred fifty (250) square feet of required internal planting area. No parking space shall be more than one hundred (100) feet from a tree planted in a permeable island, peninsula, or median having a ten-foot minimum width.
- c. *Indigenous native vegetation:* To reduce maintenance and water consumption, required landscaping shall include at least seventy-five (75) percent indigenous native trees and fifty (50) percent indigenous native shrubs.
- d. *Installation:* All required landscaping shall be installed using xeriscape principles including water conservation through the appropriate use of drought-tolerant plants, mulching, and the reduction of turn areas. Irrigation systems shall be designed to operate only when needed and only in those areas that require irrigation.
- e. *Maintenance:* The property owner shall be responsible for the maintenance of all required landscaped areas in a healthy and vigorous condition at all times. Required trees shall not be trimmed or pruned in such a way as to alter or limit their normal mature height or crown spread. If required plants die, they shall be replaced within sixty (60) days.
- (5) Setbacks and height. The following setback, height, and spacing regulations apply in the C-3 zoning district:

- a. *Perimeter setbacks*: All buildings and structures shall be set back a minimum of thirty (30) feet from the outer boundary of the C-3 zoning district, except an interior common municipal boundary. For buildings in excess of two (2) stories or thirty (30) feet in height, one (1) foot shall be added to the required perimeter setback for each extra foot of height over thirty (30) feet.
- b. Additional setbacks to internal property lines: The need for building setbacks to property lines adjoining other land zoned C-3 is related to the existing or proposed uses of those properties. Unless modified through the special C-3 PUD procedures found below in section 45-34.1(10), all new buildings and structures shall be set back a minimum of twenty-five (25) feet from each of its property lines.
- c. *Maximum building height:* The maximum height of any building shall be fifty (50) feet.
- d. *Spacing between buildings:* The minimum spacing between individual buildings on the same or adjoining C-3 properties shall be as required by applicable fire and building codes.
- (6) *Maximum lot coverage*. There is no fixed cap on lot coverage or floor area ratio. Maximum intensity will be governed by the application of the parking, loading, setback, building height, and surface water management standards found herein.
- (7) Signs. In addition to the other provisions of sections 6-111 through 6-117 of this Code, but notwithstanding any conflicting standards found therein, signs in the C-3 zoning district shall comply with the following regulations unless modified through the special C-3 PUD procedures.
 - a. *Ground signs* are mounted on a monolithic base and are independent of any building for support. They are permitted only when the sign and base are monolithic and have essentially the same contour from grade to top. Ground signs that meet the following regulations are permitted in the C-3 district only along U.S. Route 1 and Northlake Boulevard:
 - 1. *Maximum number of ground signs:* One (1) ground sign along U.S. Route 1 and one (1) ground sign along Northlake Boulevard, regardless of jurisdiction, North Palm Beach or Lake Park.
 - 2. *Maximum height of ground sign base:* Three (3) feet.

- 3. *Maximum height of ground signs:* Thirteen (13) feet including the base, measured from the finished grade nearest the base (excluding berms).
- 4. *Maximum size of ground signs:* One hundred (100) square feet; copy may be placed on two (2) sides of a ground sign without counting the area twice.
- b. *Pole signs* are not attached to any building and are supported upon the ground by poles or braces. Pole signs are not permitted in the C-3 district.
- c. Wall signs are those that are attached to the exterior of a building or structure in such a manner that the wall becomes the supporting structure, and may form the background surface, of the sign. Wall signs are permitted in the C-3 district provided they meet the following regulations:
 - 1. *Maximum depth of wall signs:* Wall signs may not be painted directly on the wall and may not project more than two (2) feet from the building to which they are fastened.
 - 2. Allowable slope of wall signs: Wall signs may not be attached to walls that slope more than forty-five (45) degrees from a vertical plane.
 - 3. *Maximum height of wall signs:* Eighteen (18) feet measured from the finished grade nearest the wall, except that on a building of more than two (2) stories, a single wall sign is allowed above eighteen (18) feet. No wall sign may extend above the top of the wall to which it is attached.
 - 4. *Maximum number of wall signs:* One (1) permanent wall sign is permitted for each business which has direct ground level walk-in access from a public or private roadway or sidewalk, and one additional permanent wall sign identifying the building is permitted for each multiple occupancy complex.
 - 5. *Maximum size of wall signs:* Five (5) percent of the area of the wall to which it is attached; or seven (7) percent if the front building setback is greater than seventy (70) feet; or ten (10) percent if the front building setback is greater than one hundred (100) feet. However, in no case shall a wall sign exceed one hundred (100) square feet in size.

- d. *Roof signs* are erected and constructed wholly on and over the roof of a building, and are supported by the roof structure or are an integral part of the roof. Roof signs are not permitted in the C-3 district.
- e. *Size computations:* When these regulations establish the maximum size of a sign, it shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign any backdrop or structure against which it is placed.
- f. *Allowable colors:* Notwithstanding the regulations in Chapter 6 of this Code, color tones utilized for all signs complying with these regulations shall be compatible with surrounding area.
- g. *Lighting:* Signs containing illumination shall be turned off by 12:00 a.m. (midnight) each night, or when the business closes, whichever is later.
- h. *Appeals:* Notwithstanding conflicting appeal procedures found elsewhere in this Code, all requests for modifications to sign regulations in the C-3 zoning district shall be made through the special C-3 PUD procedures found below in 45-34.1(10).
- (8) Surface water management. A complete surface water management system shall be provided to current standards of the South Florida Water Management District whenever a building or parking area is substantially redeveloped.
- (9) Location of business for retail sales of alcoholic beverages.
 - a. No licensed retail sales of alcoholic beverages shall be carried on where the proposed place of business is within five hundred (500) feet of a church, synagogue, temple or other place of worship.
 - b. The method of measurement provided for above shall be made or taken from the main front entrance of such church to the main front entrance of the applicants proposed place of business along the route of ordinary pedestrian traffic.
 - c. The restrictions of section 45-34.1(9), (1)[a.] shall not apply to the retail sale of beer, ale or wine for off-premises consumption.

d. The restrictions of section 45-34.1(9), (1)[a.] shall not apply to any bona fide restaurant as defined and licensed under Florida Statutes as a restaurant with full kitchen facilities, regardless of size or seating capacity, where alcoholic beverages are served solely as an accessory use to the restaurant and only when such restaurant is open for the sale and service of food.

- (10)Special C-3 Planned Unit Development (PUD) provisions. Land in a C-3 zoning district may have fragmented ownership or may adjoin a municipal boundary. Despite these complications, the Village of North Palm Beach desires to provide for an added degree of flexibility in the placement and interrelationship of the buildings and land uses in this district. One (1) or more landowners in the C-3 district may elect to use these special PUD procedures to seek approval of a site development plan that resolves ownership or boundary complications and/or which differs from the literal terms of these zoning and land development regulations. These procedures may also be used to seek approval for certain land uses that are not permitted by right in the C-3 district (see section 45-34.1(1) above) or to request a specific modification to the sign regulations. However, any PUD approval under these procedures must be consistent with the spirit and intent of the C-3 zoning district and must also be consistent with the Comprehensive Plan. It is the intention of the village to provide a mechanism and process to promote the redevelopment of the obsolete and underutilized areas of the C-3 zoning district with large-scale, master-planned projects that promote: a mix of uses; connectivity; pedestrian-oriented development; removal of surface parking; creation of public/civic gathering spaces; and shopping, entertainment and restaurant uses within the form of an urban neighborhood incorporating residential development as an integral use. These projects promote the economic and redevelopment goals of the village, and the village has created these planned unit development (PUD) provisions to facilitate these goals. Properties in the C-3 zoning district that do not meet the threshold criteria set forth below may utilize the general PUD provisions of section 45-35.1 of this code as set forth in section 45-35.1(D). Properties in the C-3 zoning district that do meet the threshold criteria below may, at the option of the property owner, utilize the following special PUD regulations:
 - <u>a.</u> The threshold criteria for use of these special provisions are as <u>follows:</u>
 - 1. The development parcel includes a minimum of at least five
 (5) contiguous acres of land that will be initially reviewed
 and approved as one overall development project. Any
 subsequent amendments to such plan or individual phases of
 such plan shall also be subject to these special provisions.

- 2. The project provides a minimum of one-half (1/2) acre (including all adjacent pedestrian amenities, including sidewalks, of the total project site area) for a civic space within the project site. "Civic space" shall be defined as an open space that is available for public use. The civic space may be owned, maintained and/or operated either publicly or privately.
- 3. To achieve a mixed-use project, a minimum of 50,000 square feet of the total project development shall be allocated to non-residential uses.
- <u>b.</u> Additional land uses: The following land uses are not permitted by right but may be approved in response to a specific PUD application:
 - 1. Automobile, truck, or motorcycle dealers (new or used).
 - 2. Cultural, civic, educational, health care, and religious facilities.
 - 3. Nursing or convalescent homes.
 - 4. Offices for non-profit, religious, or governmental activities.
 - 5. Automobile service stations, not involving automobile repairs or maintenance, including ancillary uses of convenience store and car wash.
- a b. Allowable changes to existing regulations: No PUD approval can permit any development that is inconsistent with the Comprehensive Plan. Subject to this limitation, changes may be considered through this process to any other zoning and land development regulation that the village council finds would unduly constrain desirable reuse and/or redevelopment of land in the C-3 zoning district. After any such changes are made by the village council, those changes shall govern to the extent of conflict with these regulations.
- c. Minimum PUD requirements Unified control: There is no minimum parcel size for PUD applications. However, most favorable consideration will be given to applications that encompass the largest possible land area, and no parcel that is smaller than its size when this section was adopted (March, 1995) may be submitted unless it was properly platted through the provisions of these land development regulations. All parcels submitted in a single PUD application must be contiguous and must be owned by or be under the unified control of the applicant. All common areas shall be

subject to joint maintenance by all of the property owners within the PUD, and the unified control documents shall provide for reciprocal easements over all driveways, parking areas and pedestrian areas in favor of all properties within the PUD. While the village shall always treat the PUD as one project, portions of the PUD may be conveyed to third parties by metes and bounds once the unified control documents have been approved by the village attorney and recorded in the public records.

- d. *Application procedures:* PUD applications made under this section shall be accompanied by the applicable fee and shall contain the following:
 - 1. Satisfactory evidence of unified control of the entire area within the proposed PUD; agreement to abide by the conditions of approval, if granted; and ability to bind successors in title to these conditions if the proposed development is built.
 - 2. A proposed <u>master</u> site development plan in sufficient detail to show the approximate locations of buildings, parking areas, and stormwater management facilities. This plan shall also show the exact locations of all access points to public streets and to any abutting land zoned C-3, whether in Lake Park or North Palm Beach. <u>The master plan shall also include intensity of each use, floor area ratio (FAR), and building heights. The master plan may include phased development.</u>
 - 3. Unless clearly shown directly on the site development plan, an explicit list of zoning and land development regulations for which changes are sought, and the proposed alternate standards. An application and justification statement describing land uses proposed, waivers required, and volunteered limiting conditions to further the intent of the C-3 district.
 - 4. A specific list describing any of the additional land uses listed in section 45-34.1(10)b. for which the applicant is requesting approval. Vehicular circulation plan and traffic impact study completed by a certified transportation engineer.
 - 5. Any volunteered limiting conditions that could provide assurances that the development as proposed would further the intent and spirit of the C 3 district and the

Comprehensive Plan. Conceptual drainage plan and statement by a certified civil engineer.

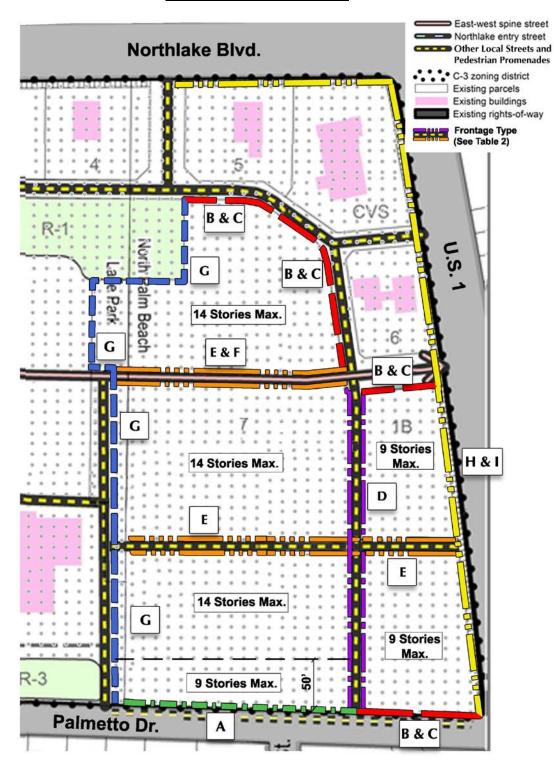

<u>6.</u> Conceptual landscape design completed by a registered landscape architect.

The site development plan, lists of alternate standards and additional land uses, and volunteered conditions should be submitted in a format suitable for attachment to an ordinance approving the requests.

- e. Approval process: PUD applications under this section shall be forwarded along with recommendations from staff to the planning commission, which after holding a public hearing shall make a formal recommendation to the village council of approval, partial approval, or disapproval. The village council shall also hold a public hearing and decide whether to approve, partially approve, or disapprove the PUD application. to take final action on the application. Unless the application is disapproved in full, this action shall be by ordinance. The applicant may then proceed to obtain final site plan and appearance approval for specific phases of the project (if applicable) as indicated in the approved master plan. all other needed development permits in accordance with the village's regulations.
- f. Application review procedures abutting or crossing a municipal boundary: Any PUD application for property abutting or crossing the Lake Park town boundary shall meet all of the above requirements. In addition, to protect the interests of other C-3 landowners and the town, a decision on the PUD application shall be made by the village council only at a joint meeting with the Lake Park Town Commission. Regardless of the final governing body approving the project, joint municipal staff review and a joint meeting of the North Palm Beach planning commission and the Lake Park planning and zoning board shall be required for approval. Both municipalities shall review the master plan and subsequent site plan and appearance approvals, unless otherwise provided for as part of the master plan approval process. For projects proposed within the jurisdictional boundaries of both Lake Park and North Palm Beach, the project shall be reviewed in accordance with the governing standards of whichever jurisdiction contains 80% or more of the project area. The governing body of the same jurisdiction, instead of both governing bodies, shall make final approval, with recommendations from both advisory planning boards.

g. Regulating Plan. Figure 1, Regulating Plan, identifies the properties, frontage types and street locations for properties developing under the special PUD regulations.

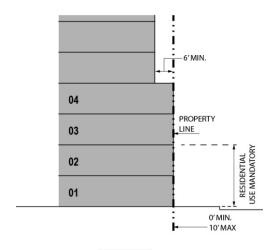

Figure 1 – Regulating Plan

23 24

- i. <u>Building Frontage percentage</u>: The building frontage percentage is calculated by dividing the width of the building or building lying within the build-to-zone by the width of the lot along the same street frontage. All buildings shall have a minimum frontage of seventy (70) percent.
- Development Intensities: Master site development plans <u>j.</u> proposed through this process shall have a maximum Floor Area Ratio (FAR) of 2.75. The FAR is calculated by the total gross area of the property, including existing and proposed easements and proposed public and private streets and alleys multiplied by the FAR. The maximum building area is limited by the maximum allowable FAR. "Building Area" means the total air-conditioned leasable or saleable floor area of a building, excluding fully enclosed storage spaces, non-habitable enclosed areas on the rooftop, stairs and elevator areas, and external unenclosed circulation areas. The building area does not include: parking areas; unenclosed colonnades, porches and balconies; mechanical and electrical spaces; and trash rooms. Storage spaces without windows and enclosed by surfaces that allow for natural ventilation or outside air circulation shall not be

included. The building area shall be measured from the center of exterior walls.

k. Building Height: Buildings meeting the criteria of these special PUD provisions may have buildings up to fourteen (14) stories in height, and a maximum of two hundred feet (200'), not including roof-top amenities. Buildings fronting U.S. Highway One and Palmetto Drive shall not exceed nine (9) stories within fifty (50) feet of the right-of-way.

For the purposes of calculating the number of stories in a building, stories shall be defined as the space between finished floor and the top of the structural slab and adjusted as follows:

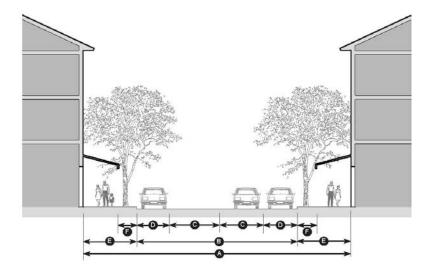

- 1. Each level devoted to parking is considered as an individual story when calculating the number of stories in a building except where parking levels are screened by a liner building that is a minimum of twenty feet (20') deep and at least two (2) stories tall or an architectural feature that screens the parking.
- 2. When parking levels are constructed on a slope or are connected by sloping or circular ramps, the number of stories will be based on the non-sloped areas. If there are no non-sloped areas, the number of stories will be counted as the highest parking level plus each parking level below.
- 3. A mezzanine will not count towards the number of stories provided the total area of the mezzanine level is less than forty percent (40%) of the floor area of the main story below.
- 4. Rooftop amenities shall not count as a story so long as no more than forty percent (40%) of the rooftop shall be fully enclosed, air-conditioned space. None of the space is habitable for residential purposes.
- 1. <u>Floor to Floor Heights:</u> Development may use the following standards for the elevation of ground-floors and minimum/maximum dimensions for floor heights. These standards are measured as follows in Table 3.

		<u> 1 a</u>	DIC 3	riour to riour Standards

20				
21		<u>1.</u>	<u>Main</u>	Entrances:
22				
23			<u>i.</u>	Main entrances for all buildings in these
24				special provisions is its principal point of
25				access for pedestrians. Main entrances must
26				face a street, alley, or civic space.
27				
28			<u>ii.</u>	Buildings fronting on two streets may have a
29				pedestrian entrance on both streets.
30				
31		<u>2.</u>	Facad	e Transparency:
32				
33			<u>i.</u>	Transparency means the amount of
34				transparent window glass or other openings
35				in a building's façade along a street frontage.
36				The transparency ratio requirement is
37				expressed as the percentage of the transparent
38				area divided by the entire façade area. It is
39				calculated separately for the ground story of
40				a façade and all upper story floors above the
41				first floor.

1 2 3 4 5 6 7			<u>ii.</u>	A minimum of sixty percent (60%) transparency shall be provided for all ground floor non-residential building frontage and all non-residential uses above the ground floor, with the exception of garage structures and floors above the ground floor that are part of a parking structure which are exempt from this requirement.
9				uns requirement.
10			iii.	Glazed windows and doors with tinted glass
11			<u> </u>	or applied films will be considered
12				transparent if they transmit at least fifty
13				percent (50%) of visible daylight.
14				
15			<u>iv.</u>	The transparent area of windows and doors
16				include rails and stiles as well as muntin bars
17				and other separators within primarily glazed
18				areas; however, the transparent area excludes
19				outer solid areas such as jambs, sills and trim.
20				
21	<u>n.</u>	Street	and Sid	lewalk Standards:

- 2. Parking space adjustments. The number of on-site parking spaces calculated in accordance with Table 4 shall be adjusted under any one or more of the following circumstances:
 - i. Mixed-use developments qualify for the shared-parking percentage reductions specified in Table 5 provided the development includes at least ten percent (10%) of its gross floor area in a second category of Figure 4 (residential, lodging, office, business, and civic/education uses).
 - ii. Each on-street parking space provided by the developer within one-quarter (1/4) mile of the on-site parking area will be counted as two (2) required parking spaces.
 - iii. No on-site parking spaces are required for an office, business, or civic/education use that occupies less than one thousand five hundred (1,500) square feet (up to three (3) such uses per acre).
 - iv. Up to half of the required spaces may be located up to five hundred (500) feet off-site in a dedicated or joint-use parking lot provided that permission to use those spaces is specified in a binding agreement that is reviewed and approved during the site plan and appearance review process.
 - v. Golf cart parking spaces may be counted as one (1) space, provided they meet the minimum dimensions of five (5) feet wide by ten (10) feet long. Up to ten (10) percent of a development's required parking spaces may be met by golf cart parking spaces.
 - vi. The required number of on-site parking spaces may also be reduced through the waiver process (see section 45-51) or may be increased by a special condition applied during the site plan and appearance review process (see sections 6-30 through 6-60).

Table 5 - Shared Parking Reductions

- 3. A deferred parking plan may be approved by the village if a parking study is provided that demonstrates the need for parking is less than what is required by code, or the owner has demonstrated that an alternative means of access to the uses on the site justifies the deferral of the construction of a portion of the required parking spaces. The deferred parking plan shall:
 - i. Be designed to contain sufficient space to meet the full parking requirements of the code. The plan shall illustrate the layout for the full number of parking spaces, and shall designate which parking spaces are to be deferred.
 - ii. Be designed so that the deferred parking spaces are not located in areas required for landscaping, buffer zones, or areas that would otherwise be unsuitable for parking spaces because of the physical characteristics of the land or other requirements of this code.
- 4. Physical standards for parking lots, driveways, and loading: Physical standards for outdoor parking lots, driveways and loading are contained herein or as maybe modified by a request through the PUD process.

- 5. Standards for parking garages: Parking spaces may be provided under or in buildings or in dedicated parking garages instead of being provided in uncovered surface parking lots. Such parking spaces need not comply with the minimum setbacks for surface parking lots. These parking spaces must be screened from view from all streets. Screening may be provided by rooms in the same building or with a liner building that is at least two (2) stories tall with space at least twenty feet (20') feet deep or an architectural feature screening the same two (2) stories.
- q. Sign Standards: All projects shall provide a master sign plan that shall be reviewed and approved by the village during site plan approval. Any deviations from the subsection (7) of this section shall be addressed through the waiver process.

<u>Section 3.</u> The Village Council hereby amends Article III, "District Regulations," of Appendix C (Chapter 45) of the Village Code of Ordinances by amending Section 45-35.1 to read as follows (additional language <u>underlined</u> and deleted language <u>stricken through</u>):

Sec. 45-35.1. - Planned unit development.

6 7

24

25

26

The intent of this section is to provide, in the case of a Α. commercial planned unit development consisting of one (1.0) or more acres, in the case of an industrial planned unit development consisting of one (1.0) or more acres, and in the case of a residential planned unit development, an added degree of flexibility in the placement and interrelationship of the buildings and uses within the planned unit development, together with the implementation of new design concepts. At the same time the intensity of land use, density of population and amounts of light, air, access and required open space will be maintained for the zoning district in which the proposed project is to be located, except as may be permitted for key redevelopment sites through subsection 45-35.1.VIII. Nothing herein should be construed as allowing deviation for uses other than those specified as permitted uses, nor any greater intensity of use or density of population nor any less required open space than that which is specified in this chapter for the zoning district in which a proposed project is

1			located, except as may be permitted through subsection 45-35.1.VIII.
3			
4 5 6 7 8 9		В.	Subject to the foregoing statement of intent, the village council may, in the case of commercial, industrial and residential planned unit developments, allow for minor modification of the provisions of this chapter or other land development regulations in accordance with the procedure set forth in subsections II, III, IV and V.
10 11		C.	The Planned Unit Development procedures in section 45-
12 13 14		C.	35.1 may not be used in the following zoning districts which provide a different process for considering minor modifications:
15			
16 17			1. C-MU the C-MU zoning district allows waivers (see the C-MU zoning district and section 45-51).
18			
19			2. C-3 the C-3 zoning district contains special PUD
20			procedures that apply only to that district (see
21			subsection 45-34.1.K).
22 23			3 2. C-NB the C-NB zoning district allows waivers (see
23 24			the C-NB zoning district and section 45-51).
25			the C 142 Zoming district and section 15 51).
26		<u>D.</u>	The Planned Unit Development procedures in section 45-
27			35.1 may be used in the C-3 zoning district where the
28			property does not meet the threshold criteria for use of the
29			special Planned Unit Development procedure set forth in
30			section 45-34.1(10) of this code. The minimum size
31			requirement set forth in subsection A above shall not be
32			applicable to such Planned Unit Developments within the C-
33 34			3 zoning district.
35	Section 4.	The provision	as of this Ordinance shall become and be made a part of the Code of
36		North Palm Be	<u> </u>
37 38	Section 5.	If any section	, paragraph, sentence, clause, phrase or word of this Ordinance is for
39	any reason held by a court of competent jurisdiction to be unconstitutional, inoperative or void		
40			the remainder of this Ordinance.
41 42	Section 6.	All ordinance	es or parts of ordinances and resolutions or parts of resolutions in
+2 43 44			repealed to the extent of such conflict.
+4 45	Section 7.	This Ordinand	ce shall take effect upon the effective date of Ordinance No.
