### Summary Explanation/Background:

Adam Swaney, the Town's consultant engineer, is presenting a status update on the proposed septic to sewer conversion project, including current status and next steps. This project impacts a total of 42 properties along Old Dixie Highway and Silver Beach Road in the Town's industrial districts. The project objective is to retrofit sanitary sewer service for these properties to replace the septic tanks on which they currently rely with an environmentally cleaner, safer alternative. Adam Swaney will provide a status overview of the project and be available to answer any questions.

**Recommended Motion:** None, for informational purposes only.
