321 **EXHIBIT A** 322 323 Chapter 23 324 LAND DEVELOPMENT REGULATIONS ARTICLE 1 "GENERAL PROVISIONS" 325 326 327 Article 1, "General Provisions," Division 2, "Definitions" 328 329 Sec. 23.1-12. - Definitions. 330 331 Accessory use: A use customarily incidental and subordinate to the principal use and located 332 on the same lot with such principal use. For non-residential or mixed-use properties, an accessory 333 use shall not exceed thirty (30) percent of the total use area. 334 335 336 337 Build-to line: A line on a parcel, measured parallel from the front and/or side lot line, where the structure must be located. The building facade must be located on the build-to line. 338 339 340 341 Dark sky lighting: Lighting products and designs that comply with Dark Sky International's Five Lighting Principles for Responsible Outdoor Lighting to minimize glare, reduce light trespass. 342 and reduce light pollution. 343 344 345 346 Green roof: A vegetated roofing system which is functionally integrated onto a roof area. Green roofs may be considered extensive, semi-intensive, or intensive, depending on the depth 347 348 of the growing medium and diversity of plant selection. A green roof may count either as a semipermeable surface or as a qualifying sustainability feature for the Sustainable Bonus Incentive 349 350 Program. 351 352 353 Impermeable/impervious surface: All surfaces on a lot incapable of being penetrated by 354 water under normal circumstances, wherein moisture runs off the surface instead of penetrating the material to be absorbed in the underlying soil. Impermeable materials include, but are not 355 limited to, asphalt, concrete, pavers and compacted shell rock and roofs. Impermeable surfaces 356 357 shall have a minimum eighteen (18) inch of a one-foot setback from the side property lines and rear property lines, unless the surfaces are used to access parking. 358 359 360 361 Independent senior living Retirement center/facility: Public or private institution, building, residence, private home, or other place including independent living units, whether operated for 362 profit or not, including a place operated by a county or municipality, providing living 363 accommodations and recreational services for retired individuals including accessory uses 364 incidental to such use but not inclusive of medical care, supervision, diagnosis, treatment or 365 366 prevention of diseases, illness, injury or other physical or mental impairments. 367 368 369 Medium-intensity institutional uses: These are institutional uses that typically generate moderate volumes of customer traffic, to include the following and those that are substantially

370 371

similar or related:

Botanical research and education. Colleges and universities (satellite campus). Day care center. Marine research and education. Museums. Nursing homes/assisted living facilities/retirement homes. Places of worship. Welcome centers.

Residential uses: Uses such as single-family, two-family, and multi-family providing living accommodations to households including but not limited to the following types of structures: single-family dwelling/residence, duplex dwelling/residence, apartment building, condominium, assisted living center and/or nursing/retirement home and independent senior living.

Semi-pervious surface: A surface covered by materials with a percolation rate of at least fifty (50) percent relative to the ground percolation rate. Semi-pervious surface may include but are not limited to permeable paving material and other semi-pervious materials such as gravel, small stone, and other substantially similar materials. For semi-pervious surfaces, two (2) square feet of semi-pervious surface shall be equivalent to one (1) square foot of impervious surface for the purpose of calculating development regulations. The semi-pervious surface credit shall not reduce the required open space and landscape area requirements. Semi-pervious surfaces shall have a

minimum <u>eighteen (18) inch</u> <u>of a one-foot</u> setback from the side property lines. <u>Semi-pervious</u> <u>surfaces shall also have a minimum one-foot setback from the and rear property line, unless the surfaces are used to access parking.</u>

Shed: A one-story accessory structure used primarily for storage purposes. Sheds are not designed to be served by plumbing. A permit shall not be required for a shed under 121 square feet that does not require a concrete pad; this exemption shall only apply to one (1) shed on a property and the shed must still comply with requirements for setbacks and accessory structure location established in the associated zoning district regulations. If a shed is placed on a concrete pad/foundation, is larger than 121 square feet, or the property has more than one shed in total, a permit shall be required.

410 **EXHIBIT B** 411 412 Chapter 23 413 414 LAND DEVELOPMENT REGULATIONS ARTICLE 2 "ADMINISTRATION" 415 416 Article 2, "Administration," Division 1, "Decisionmakers" 417 418 Sec. 23.2-6 - Site Plan Review Team. 419 420 (a) Powers and duties. The site plan review team reviews and makes technical recommendations to the development review official comments for the following 421 applications: annexation, abandonment, site plan approvals, planned developments, 422 and text amendments, administrative use permits, conditional use permits, rezoning, 423 and future land use map amendments. Each member of the site plan review team 424 425 reviews and comments on the application as to that member's area of expertise and 426 compliance with the Comprehensive Plan and these LDRs. Comments are provided in a collective response from the site plan review team to the applicant. 427 428 (b) Membership. The site plan review team members shall be members of the 429 430 department for community sustainability and members of other departments and 431 agencies as deemed appropriate by the city manager or the director for community sustainability, including but not limited to, the public works services department, the 432 utilities departments, the community redevelopment agency, the Lake Worth 433 434 Drainage District, the city attorney, and the police and fire agencyies of the county city. 435 436 (c) Meetings. The site plan review team shall meet on an as-needed basis to process 437 applications within the time required by these LDRs and without undue delay. 438 439 Special meetings may be called by the director for community sustainability. The meetings shall be noticed. 440 441

442 **EXHIBIT C** 443 444 Chapter 23 445 LAND DEVELOPMENT REGULATIONS ARTICLE 2 "ADMINISTRATION" 446 447 448 Article 2, "Administration," Division 3, "Permits" 449 450 Sec. 23.2-28 – Administrative Adjustments/Administrative Use Permits. 451 452 a) Administrative adjustments. The development review official may administratively 453 adjust Code provisions and regulations for setbacks, landscape placement, driveway access, lot area, lot coverage for buildings, floor area ratio, and 454 455 impermeable surface ratio by no more than five (5) percent, and parking by no more 456 than ten (10) percent, where the development review official determines that a literal enforcement will result in unnecessary hardship and where additional amenities will 457 458 be provided that will offset any deficiency. A deficiency includes, but is not limited 459 to, addressing accessibility, meeting minimum housing standards, providing 460 additional essential living space due to changes in familial status or affording 461 substantially similar improvements to comply with Florida Building Code 462 requirements. 463 464 1. All existing structures that exceed the development regulations for building lot 465 coverage, impermeable lot coverage, or floor area ratio (F.A.R.) may be 466 expanded by right no more than ten (10) percent of the existing overall square footage. The up to ten (10) percent expansion by right shall be granted only 467 once; any additional expansions shall have to meet the established standards 468 469 for the granting of a formal variance and be reviewed by the appropriate 470 decision-making authority. 471 2. The development review official may administratively adjust Code provisions and 472 regulations for establishing the front yard for all corner and multi-frontage lots, and to adjust setback, height, and location of fences fronting public rights-of-way 473 to conform to the orientation of the structure in all residential zoning districts. 474 475 b) Administrative use permits. Administrative use permits are required for certain uses 476 477 that are generally compatible with other uses permitted in a district, but that require verification that all development-related standards and regulations have been met. In 478 479 addition, any change of use shall be approved by administrative use permit. This paragraph sets forth findings for review and approval of administrative use permits. 480 481 These findings are adopted to provide guidelines for the reviewing authority to follow 482 in arriving at a final decision. 483 484 1. Approval authority. The development review official, in accordance with the 485 procedures, standards and limitations of this section, shall approve or deny an 486 application for an administrative use permit after review and comment by the site 487 plan review team (if applicable). The development review official's decision on an 488 administrative use permit is final, but may be appealed to the appropriate 489 regulatory board by the applicant or affected party, pursuant to section 23.2-17. 490 2. General procedures. In accordance with sections 23.2-10 through 23.2-13, an 491 application for an administrative use permit shall be made in writing upon an

application form approved by the department for community sustainability, and

The department for community sustainability shall review the application in accordance with these LDRs and prepare a result letter that summarizes the application and the effect of the proposed use, including whether the application complies with each of the findings for granting an administrative use permit stated below, and approve or deny the application as submitted.
- 3. General findings relating to adherence with LDRs and comprehensive plan. Prior to approving any administrative use permit, the development review official shall find based on competent and substantial evidence that:
 - a) The proposed use or development conforms to the applicable provisions of the comprehensive plan.
 - b) The proposed use or development conforms to the applicable provisions of these LDRs.
 - c) The subject property is in compliance with all laws, regulations, and rules pertaining to uses, subdivision, and any other applicable provisions of the City Code, or can demonstrate previous approval of the existing nonconformity.
 - d) The proposed use or development will not generate traffic to a level higher than that of a use permitted by right for the site.
 - e) The required landscape buffering has been provided for project sites that are adjacent to properties that are zoned for residential use.
 - f) All activities of the use occur on site, or as permitted by separate permit as provided by code, such as but not limited to right of way permit or sidewalk café permit.
 - g) The proposed use makes adequate provisions for adverse impacts on protected land uses as defined in section 23.1-12.
- 4. Additional requirements. Prior to approving any administrative use permit, the development review official shall ensure that the following requirements have been met:
 - a) Any and all outstanding code enforcement fees and fines related to the project site have been paid to the city.
 - b) Any previously imposed conditions of approval for the use at the site have been met, if applicable.

542	Administrative use are those uses that are generally compatible with other uses permitted
543	in a district, but that require verification that all development-related standards and
544	regulations have been met. In addition, any change of use shall be reviewed by
545	administrative use permit.
546	
547	Conditional uses are those uses that are generally compatible with the other uses
548	permitted in a district, but that require individual review of their location, design, structure,
549	configuration, density and intensity of use, and may require the imposition of conditions
550	pertinent thereto in order to ensure the appropriateness and compatibility of the use at a
551	particular location and to prevent or minimize potential adverse impacts to the surrounding
552	area.
553	
554	This section sets forth findings for review, approval, approval with conditions, or denial of
555	conditional use permits. These findings are adopted to provide guidelines for the reviewing
556	authority to follow in arriving at any conditional use decision.
557	
558	Conditional uses set forth in these LDRs shall be deemed to carry the potential for adverse
559	impacts to the public interest, thus requiring individual review and findings of fact before approval
560	can be granted. In those instances when the decision-making authority determines that all findings
561	for approval of a particular conditional use at a specific location have been met, then the decision

577	pursuant to section 23.2-17.

c) General procedures. An application for an administrative or conditional use permit shall be made in writing upon an application form approved by the department for community sustainability, and shall be accompanied by applicable fees. If applicable, nNotice shall be by publication, mail and posting pursuant to the provisions in section 23.2-15.

The development review official, in collaboration with the site plan review team, shall review the administrative use permit application in accordance with these LDRs and prepare a result letter that summarizes the application and the effect of the proposed use, including whether the application complies with each of the findings for granting an administrative use permit stated below, and approve, approve with conditions, or deny the application as submitted.

The department for community sustainability development review official, in collaboration with the site plan review team, shall review the conditional use permit application in accordance with these LDRs and prepare a report that summarizes the application and the effect of the proposed conditional use, including whether the application complies with each of the findings for granting conditional uses stated below and provide a recommendation for whether the application should be approved, approved with conditions, or denied. Once the report is complete, the applicant will be notified and furnished a copy of the report, and the application shall be scheduled for hearing before the planning and zoning board or historic resources preservation board, as applicable.

- i) <u>d)</u> Development regulations and site plan review standards. All <u>administrative and</u> conditional uses shall be subject to the development regulations applicable to the district in which they are located, except when specific provisions of Article 4 establish different standards or when higher standards are set by these LDRs. All conditional uses shall be subject to the site design qualitative development standards set forth for site plan review in this article.
- h) e) Conditions. The decision-making authority may impose such conditions in a development order for an administrative or conditional use that are necessary to accomplish the purposes of the comprehensive plan and the code of ordinances these LDRs to prevent or minimize adverse impacts upon the public, the environment and neighborhoods, and to ensure compatibility, including but not limited to function, size, bulk and location of improvements and buildings, standards for landscaping, buffering, lighting, adequate ingress and egress, site circulation, and hours of operation. Conditions shall be included if conventional standards are inadequate to protect the public interest, surrounding land uses or if additional improvements are needed to facilitate a more thoughtful transition between different uses. The placement of conditions on the approval of a development order shall be the minimum conditions necessary in order for the proposed use to meet all necessary findings, as set forth in this section.
- <u>i)-f)</u> Adherence to required conditions and safeguards. Conditions and requirements stated as part of the approval of an administrative or conditional use shall be a continuing obligation of the property owner unless and until the <u>administrative or conditional</u> use shall expire. All plans, specifications and statements submitted with the application for an <u>administrative or conditional</u> use approval shall become, with any changes ordered by the decision-making authority, a part of the conditions of any approval. The development review official shall make periodic investigations of developments authorized as <u>administrative or conditional</u> uses to determine compliance with all requirements.

629	
630	

The development review official may deny permission to continue an administrative or conditional use approval upon his determination that the conditions prescribed in the issuance of the original approval, including the requirement that the use be discontinued after a specified time period, are no longer met and that:

1. Violations of conditions continue to exist more than thirty (30) days after an order to correct has been issued; or

2. Violations of conditions have recurred after an order to correct has been issued and the violations have been corrected.

g) Amendment to use approval. An administrative use permit may be administratively amended if the use area is expanded by no more than ten (10) percent of the previously-approved use area or a new accessory use is proposed. Approval of new principal uses shall require a new use permit. Amendments to administrative use permits shall be subject to staff review, SPRT review as applicable, approval by the development review official, and applicable fees.

A conditional use permit may be administratively amended if the use area is expanded by no more than twenty-five (25) percent of the previously-approved use area or a new accessory use is proposed which does not, by itself, require a conditional use approval. Approval of new principal uses shall require a new use permit. Amendments to conditional use permits shall be subject to staff review including SPRT review, approval by the development review official, and applicable fees.

k)-h) Expiration of use approval. Any approval of an administrative or conditional use granted by the <u>development review official</u>, planning and zoning board, the historic resources preservation board, or the city commission shall be subject to the time limits set forth in section 23.1-11 regarding building permits and section 23.2-37 regarding the expiration of development orders.

i) General findings relating to adherence with code of ordinances and comprehensive plan
 administrative use permits. Prior to approving any administrative use permit, the development review official shall find based on competent and substantial evidence that:

1. The proposed use or development conforms to the applicable provisions of the comprehensive plan.

2. The proposed use or development conforms to the applicable provisions of the code of ordinances.

3. The subject property is in compliance with all laws, regulations, and rules pertaining to uses, subdivision, and any other applicable provisions of the City Code, or can demonstrate previous approval of the existing nonconformity.

4. The proposed use or development will not generate traffic to a level higher than that of a use permitted by right for the site.

5. The required landscape buffering has been provided for project sites that are adjacent to properties that are zoned for residential use.

 6. All activities of the use occur on site, or as permitted by separate permit as provided by code, such as but not limited to right of way permit or sidewalk café permit.

7. The proposed use makes adequate provisions for adverse impacts on protected land uses as defined in section 23.1-12.

- (4)-i) General findings relating to harmony with LDRs and protection of public interest conditional use permits. Prior to approving any conditional use permit, the decisionmaking authority shall find based on competent and substantial evidence that:
 - 1. The conditional use exactly as proposed at the location where proposed will be in harmony with the uses which, under these LDRs and the future land use element, are most likely to occur in the immediate area where located.
 - 2. The conditional use exactly as proposed at the location where proposed will be in harmony with existing uses in the immediate area where located.
 - 3. The conditional use exactly as proposed will not result in substantially less public benefit or greater harm than would result from use of the site for some use permitted by right or some other administrative or conditional use permitted on the site.
 - 4. The conditional use exactly as proposed will not result in more intensive development in advance of when such development is approved by the future land use element of the comprehensive plan.
- e)-k) Specific findings for all conditional uses. Prior to approving any conditional use, the decision-making authority shall find that:
 - 1. The proposed conditional use will not generate traffic volumes or movements which will result in a significant adverse impact or reduce the level of service provided on any street to a level lower than would result from a development permitted by right.
 - 2. The proposed conditional use will not result in a significantly greater amount of through traffic on local streets than would result from a development permitted by right and is appropriately located with respect to collector and arterial streets.
 - 3. The proposed conditional use will not produce significant air pollution emissions, or will appropriately mitigate anticipated emissions to a level compatible with that which would result from a development permitted by right.
 - 4. The proposed conditional use will be so located in relation to the thoroughfare system that neither extension nor enlargement nor any other alteration of that system in a manner resulting in higher net public cost or earlier incursion of public cost than would result from development permitted by right.
 - 5. The proposed conditional use will be so located in relation to water lines, sanitary sewers, storm sewers, surface drainage systems and other utility systems that neither extension nor enlargement nor any other alteration of such systems in a manner resulting in higher net public cost or earlier incursion of public cost than would result from development permitted by right.
 - 6. The proposed conditional use will not place a demand on municipal police or fire protection service beyond the capacity of those services, except that the proposed facility may place a demand on municipal police or fire protection services which does not exceed that likely to result from a development permitted by right.
 - 7. The proposed conditional use will not generate significant noise, or will appropriately mitigate anticipated noise to a level compatible with that which would result from a development permitted by right. Any proposed use must meet all the requirements and stipulations set forth in section 15.24, Noise control.

731	8. The proposed conditional use will not generate light or glare which encroaches
732	onto any residential property in excess of that allowed in section 23.4-310,
733	Exterior lighting.
734	
735	f)-l)_Findings for nonresidential conditional uses in residential districts. Prior to approving
736	any nonresidential conditional use in any residential district and prior to approving any
737	more intensive residential conditional use in a less intensive residential district, the
738	decision-making authority shall find based on competent substantial evidence that:
739	
740	1. The location of the conditional use will not be hazardous nor inconvenient to
741	the predominantly residential character of the area in which it is to be located, nor
742	to the long range development of the district for the residential purposes
743	intended.
744	2. The size of the conditional use and the nature and intensity of the operations
745	involved will not be hazardous nor inconvenient to the predominantly residential
746	character of the area in which it is to be located, nor to the long range
747	development of the district for the residential purposes intended.
748	3. The location of the conditional use will not result in a small existing or planned
749	residential area being isolated from other residential development by being
750	completely or largely surrounded by arterial streets and nonresidential land uses.
751	4. The design of buildings for commercial and office conditional uses in
752	residential districts shall be in a manner similar to residential structures in the
753	same general area or neighborhood. Such a finding shall be based on a
754	consideration of the building mass, height, materials, window arrangement, yards
755	and any other pertinent considerations.
756	, ,
757	g)-m) Additional requirements. Prior to approving any administrative or conditional use
758	permit, the decision-making authority shall ensure that the following requirements have
759	been met:
760	
761	1. Any and all outstanding code enforcement fees and fines related to the project
762	site have been paid to the city, unless this use approval is required to address
763	code citations on the project site.
764	2. Any previously imposed conditions of approval for the use at the site have been
765	met, if applicable, unless a request for amendment of conditions is part of the
766	current conditional use permit application.

LAND DEVELOPMENT REGULATIONS ARTICLE 2 "ADMINISTRATION"

Article 2, "Administration," Division 3, "Permits"

Sec. 23.2-30 - Site Plan Review.

- a) Intent. The intent of the site plan review provisions is to establish standards for development and provide review procedures which ensure compliance with these qualitative standards and with other regulations of the code of ordinances these LDRs. Site plans shall be prepared in accordance with the qualitative site design requirements in section 23.2-31. Site plan review and approval shall be required for the following:
 - Construction of all new structures, except principal and accessory structures
 associated with the use of a lot or parcel for single-family detached or two-family
 dwelling units.
 - 2. Modification of existing structures, except principal and accessory structures associated with the use of a lot or parcel for single-family detached or two-family dwelling units...
 - 3. Occupancy of an existing structure, where a change of occupancy requires additional parking, a site plan shall be required. Where a change of use does not require additional parking, an application so stating and signed by the development review official must be attached to the certificate of occupancy application file prior to the issuance of a certificate of occupancy.
 - 4. Modifications to parking, landscaping, open space, and impervious area that impact greater than five (5) percent of the site, except principal and accessory structures associated with the use of a lot or parcel for single-family detached or two-family dwelling units.
 - 5. Reconfiguration or modification of on-site circulation, except principal and accessory structures associated with the use of a lot or parcel for single-family detached or two-family dwelling units.

In the case of a site plan that is part of a master development plan for a planned development district, the procedures in section 23.3-25 shall apply.

- b) Determination if site plan review required. Site plan review and approval shall be required for the following: Prior to issuance of a building permit or a certificate of occupancy, the development review official shall determine if site plan review pursuant to the provisions of this section is required. If site plan review is required, the development review official shall notify the applicant of this determination.
 - 1. Construction of all new structures outside of the single-family residential or single-family and two-family residential zoning districts. Site plan review shall not be required for residential properties with fewer than three (3) total dwelling units.
 - 2. Modification of existing structures outside of the single-family residential or single-family and two-family residential zoning districts. Site plan review shall not be required for residential properties with fewer than three (3) total dwelling units.

- 3. Occupancy of an existing structure, where a change of use and occupancy requires additional parking.
- 4. Modifications to parking, landscaping, open space, and impervious area for properties outside of the single-family residential or single-family and two-family residential zoning districts. Site plan review shall not be required for residential properties with fewer than three (3) total dwelling units.
- 5. Reconfiguration or modification of on-site circulation for properties outside of the single-family residential or single-family and two-family residential zoning districts. Site plan review shall not be required for residential properties with fewer than three (3) total dwelling units.
- c) Determination of type of site plan review procedure application. Applications shall be submitted to the department for community sustainability. The development review official shall review development applications to determine if they require site plan review or approval as minor or major developments. If the application constitutes a major development, notice of the review by the appropriate board shall be given by publication, posting and courtesy mailing in accordance with the notice provision of this article.
 - 1. Major review: If an application requires a major review per the criteria listed in this section, the application shall be forwarded to the site plan review team for review and determination as to whether the application complies with applicable regulations. Once the development review officer has made a determination of compliance, the application will be scheduled for action by the planning and zoning board or the historic resources preservation board, as applicable. The board shall consider and act on site plan review applications for major developments. For all applications, the board may approve the application as submitted; approve the application with any reasonable conditions, limitations, or requirements; deny the application for specific reason(s); or postpone consideration of any application pending submittal of additional information which may be required to make a determination.

The board shall issue a written decision which shall be attached to the application for site plan approval. Each consideration substantiating the action of the board shall be included in the decision. The decision shall also include a citation to the legal authority on which a denial is based. The decision of the board shall be final unless appealed to the city commission, as provided in section 23.2-17.

Major development shall include one or more of the following:

- a. All development including new structure(s) or use area having more than seven thousand five hundred (7,500) square feet of floor area.
- b. An increase of more than twenty-five (25) percent of existing or approved parking spaces, or more than ten (10) parking spaces.
- c. Amendments to existing development or site plans, previously approved as a minor development, where the combined total of all site development (existing and proposed) meets or exceeds the thresholds for review as a major development.
- d. Amendments to existing development or site plans, previously approved as a major development, that change a phasing plan or developer control that would substantially impact the approval.
- e. Amendments to existing development or site plans, previously approved as a major development, that significantly change the approved building design

as determined by the development review official, increase the building height of a structure by one or more stories, er-modify the approved site plan by more than ten percent (10%) for density or intensity (FAR), or modify the approved site plan by twenty-five percent (25%) or more for impervious surface, parking area, or landscape area. one or more of the following:

- 1) Density,
- 2) Intensity (FAR),
- 3) Impervious surface or parking area, or
- 4) Landscape area.
- 2. Minor review: The development review official shall consider and act on site plan review applications for minor developments following review by the city's site plan review team. The development review official may either approve; approve with any reasonable conditions, limitations or requirements; deny; or postpone consideration of any application pending submittal of additional information which may be required to make a determination. The development review official shall issue a written decision which shall be attached to the application for site plan approval. Each consideration substantiating the action of the development review official shall be included in the decision. The decision shall also include a citation to the legal authority on which a denial is based.

Minor development shall include all development that is not determined to be major development, which may include but is not limited to the following:

- a. Addition of awnings, canopies or ornamental structures; a Addition or modification of pool location or size;
- <u>b.</u> a Addition or modification of landscape areas or impervious areas <u>greater than</u> ten (10) percent but less than twenty-five (25%) of the existing areas;
- c. Addition or modification of less than ten percent (10%) of existing and/or previously approved density, intensity, or height, which does not add additional stories to a structure or require changes to incentive approvals granted by a board or city commission;
- d. Addition of parking spaces and drives and driveways;
- <u>e. m Modifications in stairs or elevations of decks, porches, and terraces that occupy twenty five (25) percent or more of the property's linear frontage and fencing; or similar types of improvements;</u>
- f. Addition or modification of fencing that affects site circulation or ingress/egress;
- b-g. An increase of up to twenty-five (25) percent of existing or approved parking spaces, or <u>no</u> more than ten (10) parking spaces; <u>or reconfiguration of drive</u> aisles, driveways, and on-site circulation;
- e<u>h</u>. All development including new structure(s) or use area less than seven thousand five hundred (7,500) square feet in total, which are not determined to be major development by the development review official because it does not have the potential to negatively impact the surrounding neighborhood.
- 3. Modification review: Planning, zoning, and historic preservation staff shall consider and act on site plan modification applications concurrently with the associated building permit review. Staff may either approve; approve with any reasonable conditions, limitations or requirements; deny; or postpone consideration of any application pending submittal of additional information which may be required to make a determination. Staff shall issue a written decision which shall be attached

923	citation to the legal authority on which a denial is based.
924	
925	Site plan modifications shall include all development that is not determined to be major
926	or minor development, which may include but is not limited to the following:
927	a. Addition of awnings, canopies or ornamental structures;
928	 b. Modification of up to ten (10) percent of existing landscape areas or
929	impervious areas;
930	c. Addition or modification of stairs, decks, porches, and terraces that occupy
931	less than twenty five (25) percent of the property's linear frontage;
932	d. Addition or modification of fencing that does not affect site circulation or
933	ingress/egress.
934	
935	d) Site plan review procedures for minor developments. The development review official
936	shall consider and act on site plan review applications for minor developments following
937	review by the city's site plan review team. The development review official may either
938	approve; approve with any reasonable conditions, limitations or requirements; deny; or
939	postpone consideration of any application pending submittal of additional information
940	which may be required to make a determination. The development review official shall
941	issue a written decision which shall be attached to the application for site plan approval.
942	Each consideration substantiating the action of the development review official shall be
943	included in the decision. The decision shall also include a citation to the legal authority
944	on which a denial is based.
945	
946	e) Site plan review procedures for major developments. If the development review official
947	determines that the application requires a major review, the application shall be
948	forwarded to the site plan review team for review and, determination as to whether the
949	application complies with applicable regulations. Once the development review officer
950	has made a determination of compliance, the application will be scheduled for action by
951	the planning and zoning board or the historic resources preservation board, as
952	applicable. The board shall consider and act on site plan review applications for major
953	developments. For all applications, the board may:
954	
955	1. Approve the application as submitted;
956	2. Approve the application with any reasonable conditions, limitations, or requirements;
957	3. Deny the application for specific reason(s); or
958	4. Postpone consideration of any application pending submittal of additional
959	information which may be required to make a determination.
960	, , ,
961	The board shall issue a written decision which shall be attached to the application for site

structures on such adjacent properties, means of ingress and egress to such properties, off-street parking, loading and service areas, if any, for or on such

- 6. Location and dimensions of off-street parking, loading and service areas:
- 7. A drainage plan for the entire site:
- 8. Location and dimensions of areas for service to the property and for refuse disposal and recyclable material collection and storage:
- 9. Location of all utilities and easements:
- 10. Landscape plans;
- 11. Location and dimensions of all signs and exterior lighting facilities to be placed on the site, including photometric plans:
- 12. Samples of all paint colors and photographs of the subject site as well as adjacent and surrounding properties; shall be submitted in seven (7) copies as well as an electronic version as specified in these LDRs, when the plan proceeds to the planning and zoning board or the historic resources preservation board, as applicable.
- 13. Any other information necessary to review the proposed development, as determined by the development review official or designee.
- d) Minor development site plan requirements. Minor development site plans shall meet all the requirements and specifications of a major site plan this section except where such information is determined not to be required by the development review official.
- e) Site plan modification requirements. Site plan modification applications shall be submitted as part of a permit application and shall include, but not necessarily be limited to, the following:
 - 1. A survey that accurately reflects the current property and all existing easements:
 - 2. Annotated copy of the survey that clearly shows the proposed alterations. including dimensions and setbacks;
 - 3. All other information as required for the concurrent permit as determined by the development review official or designee.
- e) Plans and specifications required.
 - 1. Preliminary review plans and specifications required. In accordance with this article, plans and specifications as required therein shall be submitted to the development review official for preliminary review to determine that said plans and specifications appear to be in compliance with code requirements. The development review official shall determine if a particular project shall require site plan review. If it is determined that site plan review is required, then review in accordance with community appearance criteria shall also be required. Said plans

- and specifications shall be submitted for review in accordance with this section to determine whether aesthetic qualities of the structure are acceptable for the placement of the structure in the proposed area.
 - 2. Application requirements. Plans shall depict exterior elevations, designate construction materials, façade and roof treatments and the colors of each. Walls, lighting and other permanent structures and fixtures shall be designated. Landscaping materials shall be specified by name, together with information specifying height and spacing at time of planting. In addition to the above requirements, the applicant shall submit color renderings of the site plan and building elevations, complete with actual samples of the color treatments to be applied. Applicant shall submit photographs depicting the subject site as well as adjacent and surrounding properties, sufficient to enable the planning and zoning board or the historic resources preservation board to determine that the proposed structure would be appropriate to surrounding buildings and open areas, and in conformity with the existing as well as evolving atmosphere of the area. If, in the opinion of the development review official, the plans submitted do not furnish sufficient information to show the scope of the planned construction for which a permit has been requested, then there shall be furnished seven (7) sets of detailed plans and specifications for such proposed work as well as one (1) electronic copy of all application materials. Both the plans and specifications shall be prepared by a registered architect or registered engineer, qualified under the laws of the State of Florida to prepare such plans and specifications and no permit for the project shall be issued until such plans (and specifications when required) have been approved by all required entities.
 - 3. Review procedure, general requirements. The general requirements outlined in this section are minimum aesthetic standards for all site developments, buildings, structures, or alterations within the corporate limits of the city, except single-family residences. However, additions shall be subject to development review official review and determination regarding submission to community appearance review. It is required that all site development, structures, buildings or alterations to site development, structures or buildings show proper design concepts, express honest design construction and be appropriate to surroundings. Proper design concepts refers to architectural planning and to the analysis of the whole structure in terms of form and function as it relates to aesthetics and composition, color, materials and surface decorations. It includes scale in relationship to scale of adjacent buildings and landscape. It applies to the inner character of an individual project. It applies in the same manner to alterations and advertising on a project or building. The excuse that the area contains other unsightly buildings shall not be considered a valid defense. Honest design construction concerns proper design of all work and its details, the use of weather-resistant materials, and materials appropriate to the south Florida environment. The concept applies equally to advertising. Poorly designed work must be discouraged. Appropriate to surroundings does not mean uniformity in style or subordination to existing buildings, but rather bringing new buildings into an orderly relationship with landscape and nature, surrounding buildings and open areas. Scale and composition play an important role, as related to adjacent properties. Surroundings encompass not only the buildings within a neighborhood, but shall be considered the total "picture" of the neighborhood as a whole. Future surroundings must also be weighed. Advertising signs on buildings must be appropriate to the surroundings in the same way.
