RFP# 23-200 / Housing Emergency Study and Rent Control Ordinance Analysis

SCOPE OF WORK/SERVICES

The City Commission is requesting proposals for the preparation of a housing emergency study and a rent control ordinance analysis (collectively, the "Study") as set forth below.

A housing crisis consisting of greatly increased house purchase prices and sharply increased monthly rents has been observed and formally recognized in the City of Lake Worth Beach. The City Commission ("the Commission") of Lake Worth Beach ("the City") recognizes that both sale prices and rental rates are set by the market and as such are generally beyond legislative control. Nevertheless, the Commission is alarmed at the steepness of the increases, and further alarmed that the rental and sales price increases are much steeper than local wage or income increases. These disproportionate increases in housing costs relative to income increases can be expected to lead to both increased housing insecurity and a substantial shift in the income distribution of city residents.

Lake Worth Beach has been known within the South Florida metropolis as an unusual community: a relaxed, creative, diverse beach town that has been welcoming to a diversity of cultures and incomes: artists, musicians, diverse ethnicities, and the LGBTQ+ community, including LGBTQ+ youth. That diversity, the city's history, and the income range present over the last several decades have likely all contributed to Lake Worth Beach's reputation for authenticity, for "realness." Many also believe that this city character or "flavor" is a key economic engine for the city, drawing in exceptionally creative businesses and residents, as well as attracting visitors from other parts of Palm Beach County and beyond.

It is therefore the Commission's desire to use all available means to protect the ability of people and families of income ranges historically present within Lake Worth Beach to find reasonable, healthy and positive housing here. While the need for a range of incomes is certainly acknowledged, it is explicitly not the desire of the Commission to create a bedroom community only available to those with substantial incomes.

The above focusses on a long-term vision for Lake Worth Beach. On a more immediate time scale, verbal testimony as well as interactions with Legal Aid of Palm Beach County suggest that there is an ongoing crisis among many renters in our city, with renters of a wide range of incomes being suddenly presented with rental increases of \$200 and \$300 per month, even \$600 and \$700 or more.

Other factors influencing or perceived to be influencing the higher costs of providing housing are the proliferation of short-term rentals, rising property insurance costs, property taxes, escalating cost of new construction and renovation, location of housing and its age, lack of housing options, scarcity of housing and in migration of new Florida residents. The root causes of the crisis are many but having a qualitative and quantitative understanding of their impacts is necessary in order to attempt to solve the problem.

The legislative steps that the City has recently taken (for example Ordinances 2022-12, -13, and -14) will help with the construction of new and alternate forms of housing, and are likely to increase the availability of housing affordable at various levels. That said, the Commission wishes to additionally pursue any other avenues that might provide more immediate relief from these types of rent increases.

This RFP is intended to gather the necessary data to form a defensible, quantitative picture of our community and its housing needs. We see an accurately and quantitatively constructed picture as the necessary foundation for the Commission to take informed action. Ideally, the data, analysis, and resulting picture additionally would be strong enough to provide a legal basis for asserting the presence of a "housing emergency so grave as to constitute a serious menace to the general public." While the Commission recognizes that the relevant state statute from which this is drawn raises a very high and possibly unattainable legal bar, the Commission nevertheless feels that framing the study in this context is an approach that is likely to yield a strong and complete picture of our current situation. Therefore, the City Commission seeks, as part of the study and pursuant to Section 166.043, Florida Statutes, to secure the necessary data specific to the City of Lake Worth Beach (e.g., vacancy rates, rising rents, shortage of housing, increase in cost of living, inflation, etc.) and the opinion of a qualified professional to firmly establish, at a minimum, the following: (4a) whether there exists within the City of Lake Worth Beach a "housing emergency so grave as to constitute a serious menace to the general public" (including an explanation of how the statistics and other data gathered establishes a "grave housing emergency"); (2b) what impacts/effects the housing emergency is having on the general public's health, safety and welfare (i.e., "serious menace to the general public") (e.g., distress, extortion, increase of rents without legal process, evictions, homelessness, overcrowding, etc.); and (3c) whether and how a rent control ordinance is "necessary and proper to eliminate such grave housing emergency" and the details/requirements of such an ordinance. For additional information on the Section 166.043, Florida Statutes, criteria analysis, the following Fifth District Court of Appeal Opinion may be found at the following link: <file:///G:/Clients/Lake%20Worth/Research/Rent%20Control%20Ordinance/Opinion%20-%205th%20DCA.pdf>. For additional information, the following documents are available from the City Clerk upon request: Orange County Attorney's Memorandum regarding the legal history of rent control ordinances and the legal analysis of the same under the current statute, Orange County Rent Control Ordinance, and the Complaint challenging the Orange County Ordinance (without attachments).

The services may also include, as needed, advice and expert testimony of the successful Respondent in preparation for or as otherwise needed for the City's defense of potential litigation based upon challenges to a rent control ordinance. Such testimony may include, but not be limited to, the factual basis to support the professional opinion that a rent control ordinance was warranted.

Goals. Overall, the Commission's goals for this study are to:

- 1) Characterize the extent, scope and nature of housing crisis specifically in our city;
- 2) Characterize the secondary problems caused by the housing crisis;
- 3) Characterize the possible factors contributing to the crisis;

- 4) Provide appropriate data and opinions on Section 166.043, Florida Statutes' criteria (set forth in (a)-(c) above):
- 5) Suggest a range of possible solutions, along with timelines for providing relief; and
- 6) Gather and analyze sufficient data for the City to apply for external resources.

Collectively, it is hoped that a study meeting these goals will provide a strong, accurate and complete picture of the housing crisis present in Lake Worth Beach, and its effects. The Commission envisions a study that produces a complementary mix of qualitative and quantitative data. We envision qualitative descriptions or accounts that capture a representative variety of the housing problems encountered in our community, accompanied by quantitative measures that estimate how widespread these problems are, as well as the parts of the community affected.

Some example quantitative measures might include:

- Income distribution
- Income distribution in comparison to Palm Beach County
- Family size distribution
- Age distribution
- Distribution of Lake Worth Beach housing options
- Quantification and impact of short-term rentals, time trends in same
- Housing sales, including types of buyers, price increases
- Average and median rents compared to average and median incomes
- Average and median cost burdens of both rentals and home ownership
- Percentage of households spending more than 30% of gross income on housing broken out into percentiles of 5%
- Rental stress
- Jump in price during sale (with resultant effects on rent)
- Owner-occupied purchases vs. small investor purchases vs. corporate investor purchases
- Overall housing condition and quality
- Impacts of increasing property insurance and property taxes Impediments to production of new housing stock
- Impediments to renovation and expansion of existing housing stock

The Commission welcomes additional or alternative suggestions for how best to successfully understand and characterize the crisis.

~~**Part I of the Study.** Section 166.043, Florida Statutes (attached), authorizes the adoption of a rent control ordinance only when the local government “makes and recites in such measure its findings establishing the existence in fact of a housing emergency so grave as to constitute a serious menace to the general public and that such controls are necessary and proper to eliminate such grave housing emergency.” See §166.043(5), Fla. Stat. Presently, the median household income for the City of Lake Worth Beach at roughly \$40,000 for a household of four (4) is less than half of that for Palm Beach County, which stands at nearly \$90,000. Rental rates have increased and vacancies decreased across the County with no appreciation for current housing issue. In addition, the cost to construct new residential units has risen consistently and rather dramatically over the past few years. With the household incomes in Lake Worth Beach at the very low end for the County, the rental rate increases due to lack of supply and the rents~~

necessary to cover the cost of new construction, housing costs far exceed the ability of most residents to afford a home. Data regarding how this disparity has worsened over the past several years would need to be provided. ~~., The statute exempts the following categories of residential accommodations from a rent control ordinance: (1) seasonal or tourist unit; (2) second housing unit; and (3) luxury apartment buildings.” §166.043(4), Fla. Stat. Therefore, the City Commission seeks~~

It is uncertain what factual findings and data would be considered adequate today to establish “a housing emergency so grave as to constitute a serious menace to the general public” because the statute has not yet been interpreted by the courts in Florida since its adoption. However, the United States Supreme Court has upheld the finding that a New York rent control ordinance was warranted to address a housing emergency “so grave that it constituted a serious menace to the health, morality, comfort, and even to the peace of a large part of the people of the state.” This housing emergency was based upon findings of fact “That there was a very great shortage in dwelling house accommodations in the cities of the state to which the acts apply; that this condition was causing widespread distress; that extortion in most oppressive forms was flagrant in rent profiteering; that, for the purpose of increasing rents, legal process was being abused and eviction was being resorted to as never before; and that unreasonable and extortionate increases of rent had frequently resulted in two or more families being obliged to occupy an apartment adequate only for one family, with a consequent overcrowding, which was resulting in insanitary conditions, disease, immorality, discomfort, and widespread social discontent.” See *Edgar A. Levy Leasing Co. V. Siegel*, 258 U.S. 242, 246 (1922).

Part I of the Study must be completed and presented to the City on or before **November 28, 2022**. The successful Respondent shall present the written Study to the Commission at its Commission meeting on **December 6, 2022**. This date is subject to change at the discretion of the City.

Part I of the Study For additional information, the following document is attached: Orange County Attorney’s Memorandum regarding the legal history of rent control ordinances and the legal analysis of the same under the current statute. Further, the following additional documents are available from the City Clerk upon request: (1) Orange County Rent Control Ordinance; and (2) Complaint challenging the Orange County Ordinance (without attachments).

Part II of the Study. The Study will also include an assessment of existing housing conditions, demographic and market demands, and identify critical housing gaps and issues. It should identify any current and anticipated unmet housing needs and provide an outlook towards anticipated housing demands over the next 10 years. This should be a data driven study that identifies citywide and neighborhood focused housing priorities and provides policy alternatives and strategies to guide the City in decision making for addressing current and future housing needs.

Part II of the Study must be completed and presented to the City on or before **February 6, 2023**. The successful Respondent shall present the written Part II of the Study to the Commission at its Commission meeting on **February 21, 2023**. This date is subject to change in the discretion of the City.

Potential Additional Services. After Part I and Part II of the Study are completed, the City Commission may request additional consulting services from the Respondent to address a

~~broader sociological study and analysis of the effects of housing issues on the community. A detailed scope of services will be provided to the Respondent if the Commission chooses to move forward with these additional services and the price for such services shall be based upon the hourly rates established in the Agreement.~~
