

EXECUTIVE BRIEF ELECTRIC UTILITY MEETING

AGENDA DATE: November 30, 2021

TITLE:

Resolution No. 75-2021 -- establishing an In Community Solar Program (tabled from October 26, 2021)

SUMMARY:

By establishing this program, the resolution will (1) create a highly visible presence of renewable energy production and storage within the Lake Worth Beach community and (2) offer Lake Worth Beach Electric Utility customers the option of sourcing their electricity from 100% renewable energy through a special rate class or program subscription.

BACKGROUND AND JUSTIFICATION:

The competitive procurement program proposed in this resolution builds upon recent Lake Worth Beach Electric Utility advances toward clean energy. The proposed procurement program builds upon these advances through increasing visible clean energy generation within the city, through education, and by offering ratepayers of all incomes a fee-supported 100% solar option.

The resolution was tabled at the October 26, 2021 Electric Utility Meeting. Commissioner McVoy was asked to bring a presentation about Community Solar Programs to the November 30 meeting and the resolution was tabled to that date.

MOTION:

Move to approve/disapprove Resolution No. 75-2021 establishing an In Community Solar Program.
