Section 3: It is the City's intention to maintain Phase I (3 days per week) water restrictions within the City's service area. However, in the event that a Phase II or IV mandatory water restriction is declared by the South Florida Water Management District or other authority having jurisdiction upon the City to reduce water production, the Volume Charge listed in Section 2 above will be adjusted upwards by fifteen percent (15%). The application of the water restriction surcharge is to maintain net revenue margins of the utility system, which may be eroded due to reduced sales resulting from the imposed water restrictions, to meet debt service covenants on any outstanding indebtedness allocable to utility system and to promote water conservation. The water consumption rates will be adjusted and will be applicable to all water use above the first consumption block usage range as referenced in Section 1 – General Service – Schedule No. 1 for the commercial, industrial and governmental use and Section 2 – Residential – Schedule No. 2 for individually metered single-family and multiple-family residential, as well as master metered multiple-family residential use.

The water restriction surcharge will not be applied to the base facility charge, unmetered fire line charge or the wastewater rates for service. The water restriction surcharge shall be applied by the City beginning with the first billing cycle following the declared mandatory Phase IV water restrictions as imposed by the South Florida Water Management District or other authority having jurisdiction.

The mandatory water restriction surcharge shall be discontinued by the City beginning at the first billing cycle following the removal or lifting of the Phase IV water restrictions by the South Florida Water Management District or other authority having jurisdiction.

Section 4: Average Billing Calculation: The average billing process will establish a monthly bill, which will be based on the average water bill for the preceding 12 calendar months. If the residence or apartment has been occupied for the last 12 months and the customer can qualify as an existing customer, the previous tenant or owner's bill may be used to estimate the average monthly billing.

The average billing calculation will be reviewed and adjustments made to correct for changes in rates, usage, or other factors to be implemented on the bills issued during June and December of each year.

Section 5: With respect to any premises or users situated outside the corporate limits of the City of Lake Worth Beach, which premises or users now or hereafter have active connections with the water system of the City, there shall be charged a rate equal to the

charges established for service to residents of the City, plus a surcharge equal to twenty-five percent (25%) of such charge as outlined in the Policies & Procedures Manual. The foregoing surcharge shall not apply to users with whom the City has now or shall hereafter contract for services at charges established in such contracts unless the contract provides for surcharges.

Section 6: If any provision of this resolution, or the application thereof any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of the resolution, which can be given effect without the invalid provision or applications, and to this end, the provisions of this resolution are declared severable.

Section 7: All resolutions or parts of resolutions in conflict herewith are hereby repealed.

Section 8: This resolution shall be in effect for billings issued on or after the 1st day of October 2022.

The passage of this resolution was moved by Commissioner _____, seconded by Commissioner _____, and upon being put to a vote, the vote was as follows:
