#	RESPONSES	DATE
1	Keep hole #3 a par 4	8/7/2025 2:48 PM
2	Need some gators. Iguanas are good but gators are better.	8/7/2025 1:26 PM
3	Just move the tee box farther east and return to a Par 4 hole.	8/7/2025 1:23 PM
4	This will become an Executive course if this is allowed. Very undesirable! The cost of this change will be an expensive mess. All of the years this course has existed, cry babies should not be appeased. No alteration for people who have no real stake in the golf course.	8/7/2025 12:47 PM
5	If you live on a golf course you are going to get golf balls in your yard!	8/7/2025 12:38 PM
6	It's been this way for 75 years. Surely you know when you buy on a golf course that golf balls are involved. Why not reconfigure the hole leftward, keeping it a par 4? Possibly build a screen or net?	8/7/2025 12:20 PM
7	Property owners could install nets. The course has always operated with the original layout.	8/7/2025 12:16 PM
8	Houses on golf course should expect golf balls. have trees and shrubs planted in your yard	8/7/2025 12:14 PM
9	Please do not change the course rating by changing par 4 to a par 3. This moves the course into a different catagory	8/7/2025 12:10 PM
10	We already have 3 par threes on the front side	8/7/2025 11:48 AM
11	The course is already short....doesnt make sense to make it shorter	8/7/2025 8:53 AM
12	Key thing is condition of fairways, greens, traps. What makes a course highly desirable to play	8/7/2025 12:03 AM
13	This will make our league an executive course which ruins everything for our league	8/6/2025 8:26 PM
14	Great staff! My home course once a week. Happy to see the work being done.	8/6/2025 12:24 PM
15	Great staff. Course has mostly been well maintained.	8/6/2025 9:17 AM
16	I and my guests enjoy playing the LWB Public Golf Course for its beauty and convenience. It's particularly fun when the greens and fairways are well kept. We've all seen balls veer off toward the residential areas or hit a house or item on personal property. It can be a bit nerve wracking. As leisure/amateur golfers, we like the nearby destination for its low fees, ease of play, and Beach Club offerings. The safer the environment, the more enjoyable the experience.	8/6/2025 8:38 AM
17	If you buy a house on a golf course, you have to expect the golf ball here and there	8/6/2025 6:56 AM
18	Great course. Nice people.	8/5/2025 7:05 PM
19	There are already a number of par threes on the course; are you looking to add another one? Personally, I think hole number 3 is a fun wide open par 4 and should not be changed	8/5/2025 2:49 PM
20	YES!! Course already has 6 par 3s. T make it 7 brings you down to an Executive Course and not a legit golf course. Invest in high screening from neighbors, otherwise you will lose big\$\$\$\$.	8/5/2025 2:12 PM
21	Don't live on a golf course if you're going to complain about golf balls hitting your house. It's common sense. The fact this is even a topic of discussion is insane. Just move if you don't like it.	8/5/2025 1:39 PM
22	No	8/5/2025 11:32 AM
23	This is a premier piece of waterfront property. It deserves premier treatment from the owners. Make is a great course, charge appropriately (\$100) and discount to the taxpayers. Palm Beach does exactly that.	8/5/2025 10:22 AM

24	The course needs to be upgraded. With all the interest in golf LWBGC should invest the money. Charge a bit more but provide a better golfing experience. There is plenty of competition out there.	8/5/2025 8:40 AM
25	Buying a house on a golf coarse comes with risk of balls in your property. Maybe clever landscaping can help deflect errant balls	8/4/2025 5:55 PM
26	Change hole 3 back to a par 4.	8/4/2025 5:24 PM
27	In my opinion, if you purchase a house on a golf course, you should have known there would be golf balls in play around your property. A 100 year old golf course should not have to redirect there course for the property.	8/4/2025 3:36 PM
28	Let's start paving the way for an overhaul rather than just patching areas that have deteriorated. Let Lake Worth Grow! Mimic the park. Great opportunity	8/4/2025 2:20 PM
29	This course should not for many reasons be reduced to an Executive course. It devalues the very status of this now 100 year old Lakeworth Beach Golf Course. Explore others options, please.	8/4/2025 1:24 PM
30	Hole #3 has been a par 4 forever, so I do not see the need for a change. Reducing the front nine to a par 34 diminishes the attractiveness of the whole golf experience here.	8/4/2025 1:00 PM
31	Improve drainage	8/4/2025 12:22 PM
32	Know one wants to play and Executive size course and be charged Full size course prices. This starts a precedent that will allow any home owner along the course to demand no stray golf balls land in their yard. This course has been here for 100 years and only now do we have residents that can't be good neighbors to the course, but they enjoy the increased value of their property located on a golf course! There are over 140 golf courses that have real estate bordering them in Palm Beach County, there have been no reports of a course being modified to address a home owners concerns.	8/4/2025 10:35 AM
33	This change will negatively affect our Ladies Golf Association League which brings a large number of golfers to the course. And also results in many of us playing extra rounds at the course. Please do NOT make this change!	8/4/2025 10:26 AM
34	It's a beautiful course and a great restaurant. Course could use some maintenance to improve play.	8/4/2025 10:04 AM
35	Learned the game as a boy @LWGC in 60's. Have been playing there for 60+ yrs. Need to keep @ USGA regs@6k+ par 70	8/4/2025 8:16 AM
36	Not that big of a deal, but three somewhat equidistant par 3s in a 4 hole stretch is kind of a bummer	8/3/2025 11:24 PM
37	The golf course was built before the majority of the houses. So why does the golf course have to make changes?	8/3/2025 9:19 PM
38	I am a golf writer. I'm the writer that wrote the story about the golf course which appears on the wall in Lake Worth Beach City Hall. I'd love to come out again to play a few rounds as the foundation of a 100-year anniversary story!	8/3/2025 9:17 PM
39	Until something is done about drainage and the quality of the fairways, the course is not one of my destination plays.	8/3/2025 6:37 PM
40	My wife and I moved in College Park, five years ago and I have played off and on. I have started bringing guests and my sons to play lately and will increase my time on the course. We bought the the Tracey home, who we knew loved the course and he has a bench in his name. Thank you for offering a survey and hope you will continue to do so in the future. We also enjoy the clubhouse and eat there from time to time. This may sound crazy, but providing a time for walkers in the evening might be good to offer visibility to the entire course and even increase traffic to the area and restaurant. People love to walk, ride bikes and walk thier pups in the early evening. Maybe just one evening per week where the course is clear of flying golf balls! Sincerely, Alan Miller, Ph.D.	8/3/2025 3:54 PM
41	Love Lw golf course and I'm happy about all the upgrades DE DE in the pro shop is wonderful	8/3/2025 1:53 PM
42	When the residents moved there they knew they were moving onto or next to a golf course. And with that they're are advantages and disadvantages. Advantages. A beautiful extension of	8/3/2025 10:54 AM

they're backyard. Water views . I even see many people walking they're pet's on the fairways. Which is fine by me because I would do the same .The only disadvantage is the occasional beginner golfer's  stray ball. So with that being said I would always prefer a chance to pull out the big dog and let him eat. Because hitting a ball 300+ well it just feels really good. And taking that opportunity away just diminishes the all around feel of the course. Especially if we now have to play back to back par 3's. Just a local guy's point of view. Thank you .

43	I have been playing this course for years. I do not see any difference from the change to a par 3. In fact, I enjoy it	8/3/2025 10:06 AM
44	I understand the change but I don't agree with it, I have seen just as many golfer slice or go ob on a par 3 as I have on a par 4. I personally see lake work golf course as a value course or a lower end golf course in the greater palm beach county. Golf in south Florida is just flat out over priced and come season time the locals get priced out almost completely. With the cheaper rates at lake worth golf club you get golfers that are new to the game, working to get better or just out there having a good time and don't really care. I get that balls are going ob and things are getting hit but that's part of the game (we are not paid professionals). I know it sucks to have your house hit or a window broken but that is a risk you take with owning a house on a golf course or surrounding a golf course. You as the home owner knew the risk of what could happen before buying that the house that sits along the golf course & let face it the average armature never breaks 100 so balls fly everywhere. Im a 10 handicap that plays 2-3 times a week and I shank balls or slice ob hitting things I don't plan on from time to time, it happens, its golf!!! if I see the person I appoligize	8/3/2025 9:57 AM
45	These people complaining bought a house on a golf course, They should have expected they may get hit with golf balls sometime. How about the house on the right at the end of the new par 3 are they going to get hit with golf balls now?? Then what? Are we going to eliminate hole number 3? I'm not in favor of this. Thank you	8/3/2025 6:01 AM
46	Will the yardage on that hole change?	8/2/2025 10:41 PM
47	New designs in golf balls seem to allow them to go farther and end up breaking window and damaging cars on N Lakeside Drive across from hole 3.	8/2/2025 10:33 PM
48	The views are nice. The change does not make a difference with the course at all	8/2/2025 9:10 PM
49	The golf course is in need of a new maintenance company. There is no accountability for how the course is maintained. The sand traps are a disgrace-they are mostly filled with muddy dirt. The maintenance supervisor has shrunk the greens without authorization. Cup holes on the greens are all crowned meaning they are installed improperly. Tee markers are lined up wrong and rarely moved which leads to tee boxes being torn up. The maintenance supervisor has sprayed for weeds so much that the outside walls of sand traps are collapsing and the rough areas around the greens are filled with patches of dirt. The maintenance supervisor does not check his employees work or properly instruct the how to set up the course. The maintenance crew leaves at 9 or 10 am in the morning on Fridays and by Saturday the course is in terrible shape. Weekends are the busiest time for the course and it is a poor reflection on the city to have it in such poor condition. The irrigation system around the greens needs to be fixed. The sprinklers water the sand traps as much as the greens which is why they are full of mud. The oleanders around the course are extremely overgrown and encroaching on fairways everywhere. The director of golf needs to inspect the course at the start of everyday to make sure the course it set up properly. Again, accountability starts at the top and there is currently none as related to the set up and condition of the course. As the president of the Men's Association and the Dogfighters it is extremely disappointing to see the course in this condition and they city paying for services that are not up to par. I am a retired City of Lake Worth employee who feels that the maintenance company or the supervisor needs to be replaced. I have had a membership at the course for over 20 years and would like to see the 3rd hole restores to a par 4. By changing it you will now everyone hole on the golf course which has homes on it to have the course changed. These people bought a home on a golf course, did they not expect to find golf courses in their yards? What's next, will the trains be forced to stop for people that live by the tracks? Where does it end? There are other solutions for the 3rd hole. What about hedges or trees down the right side? I implore the city to find a different solution and not pander to the wants of a few at the expense of many. As for the condition of the course, I cannot in good conscience recommend this course to anyone due to its current condition.	8/2/2025 8:04 PM
50	Leave the course as is.	8/2/2025 5:26 PM

51	No	8/2/2025 5:24 PM
52	There is plenty of room to shorten the hole but keep it as a Par 4 really could just move everything over to the left, the green as well and play around the lake more. Just make the tee shot easier and have another short par 4	8/2/2025 4:31 PM
53	Water drainage issues and quality of the fairways are most important.	8/2/2025 3:27 PM
54	Lake Worth Beach residents are very fortunate to have a municipal golf course. In the near future with opening of the Gulfstream Hotel improvements to the course will go along way in improving our quality of life. Any and all improvements will pay large dividends!	8/2/2025 1:50 PM
55	Beautiful course	8/2/2025 1:47 PM
56	Of course during rains the drainage on back nine can make it a difficult go.have gone to other courses until LWGC dries out.LWGC is a very enjoyable destination!	8/2/2025 1:26 PM
57	No	8/2/2025 1:22 PM
58	Hole #3 (the former #12) was one of the longest holes on the front (back). I understand residents don't like having their home in the slice zone and also don't want their view blocked by vegetation, but it would be unfortunate if a few homeowners ruined a classic palm beach county golf course enjoyed by thousands. When you buy a home on a golf course you should know what you are getting yourself into. If you can't afford a house on tee box and don't want balls in your yard then you probably shouldn't buy the house in the slice zone.	8/2/2025 12:06 PM
59	Major mistake to change the 3 hole because of one person who doesn't live on the course the course was there long before him	8/2/2025 11:50 AM
60	Nice layout but does need upgrades	8/2/2025 11:15 AM
61	I understand trying to be a friendly neighbor but they know what they bought when they moved into their houses and think it's unfair for the course to change what it is	8/2/2025 10:38 AM
62	Hole #3 was one of the best holes on the golf course not anymore people who choose to live on a golf course should not complain if a golf ball lands in their yard.	8/2/2025 9:25 AM
63	First just golf having 3 par 3's in a 4 hole stretch is an issue. I lived on this course in the area affected for over 30 years. A simple shift of the t box to the left side of the fairway and up 100 yards from the past placement would keep it a par 4 and take most of the problem out of play. You're never going to take everything out just move the houses in range down the hole if keeping the hole as a par 3.	8/2/2025 8:51 AM
64	We don't want (3) par 3's in 4 holes	8/2/2025 8:40 AM
65	Nice cour	8/2/2025 8:36 AM
66	I enjoy the course because of its short length and I can finish within three hours when I don't have 4 to 5 hours to play. One stroke less is not gonna make a difference. The course is unique on the intercoastal and this is why I like to play it and bring my out-of-town visitors there to enjoy a true Florida experience.	8/2/2025 8:27 AM
67	The hole should absolutely remain a par 4! It cannot be a par 3!!	8/2/2025 7:45 AM
68	Thanks for improving the course	8/1/2025 10:25 PM
69	Changing hole #3 to a par 3 means the front 9 now has 4 par 3's. That's ridiculous.	8/1/2025 8:36 PM
70	Why change it?!?	8/1/2025 8:07 PM
71	It's redickulous to even think about changing it to a par three. Look at all the Courses in palm beach county. Do you think any of the other courses would even consider changing a hole because the people don't like balls coming in their yard. Don't mess up the Course. You will have to have alot of changes to do.	8/1/2025 8:05 PM
72	I would like the golf course to be maintained and in good condition.	8/1/2025 7:17 PM
73	I have always enjoyed the Lake Worth Beach Golf course. Have lived in PBC for 29 years and love this jewel in the county. Tried to buy Annual memberships but live in unincorporated Lake Worth.	8/1/2025 6:32 PM
74	Can you make it a shorter par 4 and put up a fence	8/1/2025 6:19 PM

75	yes, I have written Teana McKay extensively on the subject and the bottom line is, "the city's attempt to solve errant golf balls off the tee on the Third hole does nothing to stop errant slices, it merely changes to parties affected to those who bought homes close to the green years ago where discrete chips, bumps and runs and short approach shots were what they expected and now they live on ground zero where errant slices off the tee box brings their homes into play. It is now an unsightly hole with a gap in the fairway wasting valuable land and looking silly. Two par threes in a row is also awkward and makes the course a so-called Executive Course. Go back to the "old par four" and get out those old signs, "AIM LEFT FOR HOME SAFETY " that worked so well.	8/1/2025 6:00 PM
76	N/A	8/1/2025 5:19 PM
77	For 90 years residents living along the golf course have understood stray golf balls can occasionally go into their yard. To change the character of the third hole by shortening it is outrageous. Better to realign the hole as a par four. Put more trees along the right side of the hole from the par four tee, and if necessary trim the large tree to the left to allow tee shots to travel further away from out of bounds on the right. Most definitely LEAVE THE WHOLE AS A PAR FOUR!	8/1/2025 4:26 PM
78	As president of the Lake Worth Beach Women's Golf Association I strongly request that hole #3 remain a par 4 for many reasons. The main one being we will lose membership. We have 60 members from Lake Worth Beach and surrounding communities. We bring a lot of business to the course that may be lost because of this change. As I understand it this change could affect our course rating along with the expense for all the changes. There are many good alternatives to help alleviate balls landing in residential yards. Why haven't we been made aware of those considerations. It really seems unusual for people who buy on a golf course don't expect the occasional ball in there yard. Netting or plant walls could be installed for the few residents living on the course instead of affecting the hundreds of people who enjoy the Lake Worth Beach Municipal Golf Course. Thank you for your attention and giving us an opportunity to voice our opinions.	8/1/2025 4:15 PM
79	The course needs a lot of work. Besides the par 4 change, most of the fairways are beat up and need assistance.	8/1/2025 4:13 PM
80	I appreciate your making #16 a par 5 from a par 4, but I do not favor changing pars lower.	8/1/2025 4:12 PM
81	The course has been there 100 years. People have built, and then others subsequently bought, houses along that fairway. Errant golf balls are a part of the game. I'm sure that people in the houses in question saved some money when buying them because of that location... It's like buying a house next to a pig farm, then complaining about the smell! ;) For reference, my first house in Florida was a brand-new home in Wellington along Wellington Country Club's executive course. I know of what I speak.	8/1/2025 3:32 PM
82	I think it was kind to want to accommodate the needs of neighbors. Kind, but short sighted. The homeowners knew there was a golf course adjacent to their property when they purchased. The home owners can make what ever adjustments they need on their side of the fence. They can put up hedges, screens, etc. If golf balls are a problem, it is their problem. Seems like no one in our society wanted to own their decisions. If these complainers lived near a baseball stadium, would they complain about the noise, the traffic, the lights? Are these complainers golfers? My guess is no. They want the scenery, but not what comes with it. Please put whatever limited resources the golf course has into repairing the course which was in terrible condition this year. Suggest the homeowners build barriers on their property. Thank you	8/1/2025 3:23 PM
83	need to clean the outside water cooler that most golfers use to fill their containers.	8/1/2025 2:48 PM
84	I'm hearing that there's a plan to sell the golf course. No one in my neighborhood wants that. No one.	8/1/2025 1:55 PM
85	Love lake with golf club. Everyone is so nice. I'd like to hear more about Thursdays with the gals and any ways to play more, k	8/1/2025 1:21 PM
86	Better green and bunker care. Tee boxes need work also.	8/1/2025 12:51 PM
87	It was the 1st time I played the course. I own a residence in PB and will more than likely play again. Great service and a fair price.	8/1/2025 12:48 PM
88	Conditions have been slipping in the past 2 years. Cleanliness in the clubhouse has also gone	8/1/2025 12:37 PM

	down	
89	Reverse the 9's . Never had this problem when number 3 was number 12. Golfers had warmed up by the time they had reached 12 and were less prone to slice into the home. Wont' play until you reverse 9's or at least make it a par 4.	8/1/2025 12:09 PM
90	You're taking away one the challenging holes on the course. That's the risk they take living next to a golf course.	8/1/2025 12:01 PM
91	The course is a good and could be excellent - just needs some upgrades - some of which are going on. Location is great. Drainage MUST be improved. Take good care of greens. Fairways need some grass improvements. Better define each hole (bushes/fencing/mounding) for separation. Layout is solid. Staff are friendly. Food is good. View is awesome - love those breezes. Prices are reasonable.	8/1/2025 11:53 AM
92	All improvements will help the course. Needs some TLC.	8/1/2025 11:35 AM
93	Love this place!	8/1/2025 11:21 AM
94	Please maintain the forward tee boxes as well as the back and middle tees. Thank you.	8/1/2025 11:19 AM
95	I would play LWBC more but I avoid it when it rains because the course does not drain well. Hole #3's change is unfortunate. I would wonder did the course consider netting or slight hole redesign before moving to a shorter Par 70.	8/1/2025 11:15 AM
96	Love the course	8/1/2025 11:07 AM
97	keep it three, but move rear two boxes back, keep the challenge.	8/1/2025 11:02 AM
98	Your email invitation reads: To ensure future changes reflect the needs and preferences of our golfers and residents, we are conducting a survey to gather your valuable feedback. Your survey is 90% information gathering and 10% feedback. The only item you ask for feedback on is hole 3, which you already changed. You do not ask for any feedback in the survey for anything to potentially change in the future.	8/1/2025 10:28 AM
99	Kill all of the iguanas	8/1/2025 10:19 AM
100	We have 5 par 3 holes, so we don't need anymore. Why would anyone buy a house on a golf course if they are worried about golf balls in their yard? The golf course has been there 100 years. Most golf communities have houses on their courses.	8/1/2025 10:18 AM
101	I could never really "PAR" hole number 3 anyway, and now I have a chance.....I was a member for over 10 years and I remember when it was hole #12.....I am so happy to see you making improvements to the course.....The new format for the restaurant and bar is also an improvement from what it was..... JOHN DAHL	8/1/2025 10:00 AM
102	The 3 hole is one of the most challenging holes of this golf course. The integrity is now compromised because of some one who payed more money for a house on a golf course, the golf course was here before him and god willing, it will be there forever.	8/1/2025 9:46 AM
103	If you want to change the course go back to the original designs And return it to the course it was when they completed it 100 years ago.	8/1/2025 9:43 AM
104	no	8/1/2025 9:28 AM
105	Not sure why hole #3 is any different than some of the other holes that border residential homes? As you say, next year will be 100 years, that is tremendous, why change now? Residents know the risk when purchasing real estate bordering a golf course.	8/1/2025 9:28 AM
106	No	8/1/2025 9:21 AM
107	The course is short as it is I do not want to play an executive course I would find another league to join .	8/1/2025 9:20 AM
108	Glad to see your addressing the fairway water condition.	8/1/2025 9:11 AM
109	Move the tee or put up a screen along the cart path	8/1/2025 8:54 AM
110	Although I'd prefer this hole to remain a par 4, I understand the need since I've personally seen many golfers hit into the properties of homes that line the west side of the course. I live local and have seen balls hit so far off the fairway they land in the street when I've been off the	8/1/2025 8:48 AM

course. Being local means this won't deter me personally at all from playing here, but it may influence non locals from playing here. Better to be safe though, and improving the condition of some holes may attract more players than knocking this hole down to a par 3 would deter, especially the condition of the fairway of hole 1.

111	I always love your course for the beauty and challenge.	8/1/2025 8:43 AM
112	My biggest issue is the drainage problem	8/1/2025 8:34 AM
113	I love this course. Please don't change! The sea breeze, the wildlife and the nice personnel make it the best asset of our county.	8/1/2025 8:27 AM
114	Love the course and love Lake Worth Beach. Looking forward to the changes proposed to redesign the course to include a hotel.	8/1/2025 8:23 AM
115	Please do not use fertilizer on any fairway or green as the run off will severely affect any of the ponds on the course and strangle them.	8/1/2025 7:31 AM
116	It seems a bit unusual that people would buy a property on a golf course, and be surprised that there may be errant golf balls. There are very high end country clubs where people fight to be on the course and understand the potential for occasional damage. If there is a design issue with that hole, perhaps it would make more sense to reconfigure the approach. I'm not sure that you can eliminate a stray ball potentially hitting a roof or ending up in a pool. I will still play the course whether they keep that hole a 3 or 4, but with homes all along the perimeter, will this be the only change or will the course eventually end up being an executive par 3 or a big putting green?	8/1/2025 6:30 AM
117	Depends on the length of the par 3 proposed. 4 and 6 are already par 3s. Adding another is too many for one side.	8/1/2025 6:15 AM
118	If the homeowner is unhappy. Tell him/her to place protection on their backyard. The course was there long before they purchased the home. Living on on course as I do has consequences.	8/1/2025 6:09 AM
119	I always feel like that hole3 is the hardest hole to score so let's keep it that way, get a par or better on that hole it gives you awesome feeling	8/1/2025 5:16 AM
120	Just keep it in good playing condition.	8/1/2025 4:33 AM
121	STARTER JIM & CART MAN JIM ARE THE BEST. WE ENJOY THE EARLY LUNCH & DRINKS ALSO	8/1/2025 1:50 AM
122	Not sure if you could put up netting there on hole 3. Maybe make hole 4 a par 4 move tee boxes back?	8/1/2025 12:21 AM
123	Come up with a different solution. The people bought a home on a golf course.	7/31/2025 11:58 PM
124	Some improvement to fairways please. Perhaps a beer cart	7/31/2025 11:40 PM
125	We have very good service I will be back in November	7/31/2025 11:20 PM
126	In changing Hole 3 from a Par 4 to a Par 3 it will require regrading the course & handicaps will need to be corrected! However, the golf course has been there much longer than housing & people buying on a golf course know it is a possibility golf balls may fly into their yard. Was a study done to see how often this happens? Has there been any damage to surrounding homes??? While I'm sure the Town wants to find a solution It would be appropriate to have all the facts before making this Change!	7/31/2025 11:07 PM
127	Happy as long as you stay a golf course and not a housing development. Thank you.	7/31/2025 11:03 PM
128	I will not play this course if it turns into an executive course. This course already has major issues for the price it charges.	7/31/2025 11:00 PM
129	Your course could be so good with an infusion of work/capital. But please don't bring it to the overpriced/snob factor if the Park	7/31/2025 10:57 PM
130	It's time the City of Lake Worth invest some cash in improving the conditions. I generally play this course as a last resort because of the lack of care (due to money).	7/31/2025 10:54 PM
131	Changing the hole will result in degradation of course rating.	7/31/2025 10:45 PM

132	Balls can now go into propertys further down the fairway.	7/31/2025 9:52 PM
133	I would like to play the Lake Worth course more often. I could join the ladies'day to meet partners for example. The location is ideal for me, just across the bridge. An improvement: grass improvement, so some irrigation maybe? Every player should become member and perhaps make a donation for some watering?	7/31/2025 9:34 PM
134	This has always been my favorite course in all of Palm Beach County. The laid back atmosphere, friendly staff, and fun to play course makes this a special place in the community. Keep up the good work!	7/31/2025 9:30 PM
135	Changing Hole #3 from a par 4 to a par 3 seems like a reasonable solution to the problem of balls hit from the tee striking houses along the hole.	7/31/2025 9:28 PM
136	The course is generally in rough shape. Fairways poorly grassed, not well maintained. Poor drainage throughout. You have a great piece of property you should do better with it. It really needs a major refresh.	7/31/2025 9:27 PM
137	Not really. It's great to have an 18 hole course so close by. I've enjoyed playing Lake Worth Beach and look forward to returning this season.	7/31/2025 9:23 PM
138	Having a 6th par hole affects consistency with with most if not all par 71 courses with too many par 3's	7/31/2025 9:18 PM
139	No	7/31/2025 9:15 PM
140	Any improvements are desperately needed. Could be so much better with care	7/31/2025 9:13 PM
141	Beautiful course	7/31/2025 9:07 PM
142	Great place. Love it	7/31/2025 9:06 PM
143	I absolutely despise the change of hole #3 from a par 4 to a par 3, making the course a par 70. Even more so that there are now two par 3s back to back.	7/31/2025 8:46 PM
144	Love the course no matter what...cart path work is nice	7/31/2025 8:25 PM
145	Love the improvements.	7/31/2025 8:25 PM
146	I liked hole #3 as a par 4, people who live on this hole new what they purchased and the possibilities of golf balls coming into their back yard. I assume the change was to alleviate this problem.	7/31/2025 8:12 PM
147	Back to back par threes is absurd for an 18 hole course! 🤔	7/31/2025 8:03 PM
148	Start using more fertilizer on the fairways. Dogpatch last year.	7/31/2025 7:45 PM
149	i wish the drainage issue on the course would be addressed	7/31/2025 7:42 PM
150	The course could use a freshening up. It is my course of last resort due to conditioning. It's not nearly as well maintained as Palm Beach County courses. Just look at the first to holes for start.	7/31/2025 7:41 PM
151	love the course! wish there was a driving range but I understand why there isn't	7/31/2025 7:38 PM
152	Some things have to be accomplished to promote safety for everyone.	7/31/2025 7:35 PM
153	None	7/31/2025 7:33 PM
154	I understand the reasoning for the change however I don't like the idea of two par 3's back to back.	7/31/2025 7:31 PM
155	I'm sure there are alternatives being considered but as someone who feels that is one of the more challenging holes on the front 9, I would hate to lose it.	7/31/2025 7:30 PM
156	People who bought those houses along the fairway of the 3rd hole knew they were buying property backing up to a golf course; They also knew that unless the city sells to a developer (which they never will) they will pretty much have an environment that many crave but cannot afford. To bow down to and acquiesce to a handful of residents to degrade the quality and length of a beautiful intercoastal golf course reeks of politics and should NOT be continued nor tolerated!	7/31/2025 7:25 PM

157	I would not want to see any additional holes changed from current par values - making too many par 3 decreases the quality of play - there are other courses who offer par 3 or executive courses but we chose LWGC for the complete nature of course.	7/31/2025 7:25 PM
158	In my recent experience, changing from a par 4 to a par 3 doesn't solve the problem. Since the change, a friend's vehicle was hit by a golfer playing the new par 3. More landscaping/trees or a net would solve the problem more than a change to the Par on the hole. Filling in the lake and providing a landing area to the left would work as well, but would most likely be cost prohibitive.	7/31/2025 7:23 PM
159	I like that it was made a par 3	7/31/2025 7:09 PM
160	We cannot make this into a 9 hole golf course or a "par 3 golf course "	7/31/2025 6:59 PM
161	The fact that the golf course has been there in the same form for very many years, with exception of reversing the front and back nine, clearly shows the course was working well. I am a believer that the residents who have recently bought are trying to open their yards and capitalize on the ICW and Golf view at the expense of the City and Course. If you buy a home on a golf course you should know and assume the risk, no questions asked! Perhaps moving the tee boxes to the east a bit would make no one happier?	7/31/2025 6:58 PM
162	Make it a par 4 they bought houses by a golf course that's their problem	7/31/2025 6:57 PM
163	The staff always does a great job ! Pro shop are always trying to make your time at L.W. Golf course a good time. And the food service is good	7/31/2025 6:55 PM
164	Hole 3 is one of the more difficult hole to par due to its length. I like it anyway. Perhaps the hole could be shortened just a tad with the fairway and the green shifted to the East enough to reduce the number of shots veering into private yards. Moving the tee boxes East and up some may also help.	7/31/2025 6:43 PM
165	There are other solutions that just make it shorter, it's actually creating more hazards to walking residents, and homeowners.	7/31/2025 6:40 PM
166	Why not put up netting along that hole to prevent golf balls going into housing area, that is what I see at other courses.	7/31/2025 6:40 PM
167	I didn't know about frequent player card or membership! Would love more information on these!	7/31/2025 6:35 PM
168	Many tee boxes need repair	7/31/2025 6:13 PM
169	I love this course! Wonderful wildlife and water views, and your team of employees could not be more welcoming!	7/31/2025 6:03 PM
170	Thank you for repaving the cart paths!	7/31/2025 6:00 PM
171	Beautiful, scenic course ❤️	7/31/2025 5:55 PM
172	Would prefer it not change	7/31/2025 5:47 PM
173	The course is relatively short already.	7/31/2025 5:46 PM
174	Please don't sell out!	7/31/2025 5:42 PM
175	I have never hit into a home from the back tees. However, the first time I played from the temporary tees I hit into the house next to the green. So pick a neighbor you hope to protect.!?	7/31/2025 5:39 PM
176	People who work there are friendly, concerned, and doing a good job. Course could use more tender love and care but it is still an asset to the golf community. I believe the many loyal golfers who consider this a home course are proud of it, enjoy playing and promoting it, and should be listened to when considering golf course changes. You have a tremendously loyal golf community.	7/31/2025 5:31 PM
177	Course is short to begin with; shouldn't shorten it; leave it a par 4 and put up a screen to prevent balls flying into the backyards of homes; or allow players with different skill levels to choose to tee off from original back tees, or par 3 tees	7/31/2025 5:30 PM
178	I used to play the course a great deal 10 years ago. I consider it more an executive course. Clearly, you have limitations based on your footprint and lack of a practice area. I believe it is best suited for kids learning to play golf. I visited a beautiful course in the Redwoods of	7/31/2025 5:30 PM

Northern California. They were charging \$5 for kids under 21. Now that would be a great contribution to your community. BTW. The kids walked, they do not drive carts.

179	Needs to stay par 4	7/31/2025 5:28 PM
180	Love the convenience, friendliness and beautiful location. We eat at the restaurant several times a week during the season. Hope to play a lot more this coming season.	7/31/2025 5:24 PM
181	Do NOT pander to the minority of homeowners complaining about errant balls. They knew the risk when they bought a house FACING THE GOLF COURSE! Like people buying a house near the airport and then complaining about air port noise.	7/31/2025 5:23 PM
182	Practicing before a game is essential for improving performance. Having access to a practice range would significantly enhance both the quality of play and overall enjoyment of golf. If a full range is not feasible or is too costly, improving the quality of the chipping green and providing a net for swing practice would still be greatly appreciated.	7/31/2025 5:21 PM
183	Greens are not in good shape Fairways could be a lot better	7/31/2025 5:18 PM
184	LWB Golf Course is a wonderful place to play because it is beautiful, affordable, and a place to meet neighbors. I see that a private company wants to develop on our golf course. I am strongly opposed to any private development on our course. As stated above, this course, in addition to a place to golf, is a meeting spot for neighbors and our children. It is central to the social and cultural fabric of LWB. Do not change that.	7/31/2025 5:17 PM
185	seasonal memberships for snowbirds do not seem to be available	7/31/2025 5:15 PM
186	I back to hole #3 and the change to temp par 3 has reduced number of balls in many of the yards on the hole, but has INCREASED balls in yards closer to the green. this survey looks like it's trying to gather data around the course being less attractive to golfers because of the hole 3 change. as a par 4, hole 3 is poorly aligned causing risk of bodily harm. if you want a par then spend the \$\$ and realign the fairway and move the green (the target) more easterly. the 'target' is too close to the fence / property line.	7/31/2025 5:13 PM
187	none-I have enjoyed playing the course for several years	7/31/2025 5:10 PM
188	You should have tried re-routing the hole by making it a dog leg right and planting a tall tree or hedge along the right and moving the fairway/landing area further left. This is a pretty disappointing change.	7/31/2025 5:04 PM
189	Enjoy the trip each time is go to the course	7/31/2025 5:03 PM
190	Our ladies enjoy playing your course, and we also enjoy a great lunch after golfing.	7/31/2025 5:01 PM
191	I enjoy playing the course. Anything less than par 72 detracts from the overall course experience inmy opinion.	7/31/2025 5:01 PM
192	When I played the course this past year, it was in serious need of improvement -- not just the cart paths, but the condition of the fairways and greens.	7/31/2025 5:00 PM
193	Golfers seek championship rated courses for golf. Changing the 3rd hole at the Lake Worth Beach Golf Course to a par 3 will result in it no longer qualifying as a championship course. Therefore, it becomes a course that I will not play. The solution to the issue that causes the consideration to change the hole can be addressed by simply modifying the existing teeing ground to face more to the east away from the western boundary of the hole. If the hole is changed to a par 3, I will miss the great staff and restaurant that make Lake Worth Beach's golf course a playing option for me and my fellow golfers. Lake Worth Beach will lose the money that I currently spend at the facility. But, it will be a necessary change in order to satisfy my needs for a championship rated course.	7/31/2025 4:59 PM
194	I know it's not easy but any little clean up details around bunkers and greens and cart paths would go a long way. Little things like better edges on the bunker, wood type boarders by the tee boxes to prevent carts from getting close to the box and something to prevent golfers from driving up on the hills around the greens would help. More garbage pals and ball washers and heck maybe even a beverage cart. It's a great little track no doubt it just needs a little cleaning up.	7/31/2025 4:47 PM
195	I'm sure redesigning the configuration and keeping it a par 4 can be accomplished. The course was established well before the homes surrounding it and residents probably should have thought of it when purchasing their homes. Perhaps a fence would help. 🚧🏃	7/31/2025 4:43 PM

196	A net along the right would help. But the course was there when everyone bought their house so they had to have understood what that would entail.	7/31/2025 4:39 PM
197	Hole 3 is large enough to be reconfigured and still keep it a par 4 without losing yardage and angering the neighbors.	7/31/2025 4:38 PM
198	Why not erect netting to protect the houses? That is very common on golf courses. The course was present when homeowners bought these houses, so it shouldn't come as a surprise that balls might enter their yards	7/31/2025 4:37 PM
199	This change is a serious blow to the image/appeal of the course. Simple Fix: Change it to a dogleg right with the first shot going right at the lake, and then turning back to the green. Maybe push back the front of the lake by 20 yards and readjust the sloping of the ground. Place palm trees on the right side of the fairway w/ a net behind to further protect and disincentivize short cuts. It might even make it into an interesting par 5! This will be a relatively Easy Fix and will preserve the integrity of this important and beautiful course.	7/31/2025 4:37 PM
200	try to keep hole 3 as a par 4 by careful adustment & tweeking of the drive angle away from property lie adjacent to the homes. may need to adjust the west edge of the lake slightly. make the hole more of a dog leg. put some palms at the angle.	7/31/2025 4:36 PM
201	If one buys a house bordering a golf course one should expect to collect golf balls.	7/31/2025 4:33 PM
202	Love the straight forward play of this course. The reduction in total yardage due to the par 3 conversion makes sense and does nothing to change my opinion of the course. The one question I have, that I'm thinking many others may have, is I am hoping this course improvement plan will address the need for better drainage on the course. Rain happens but this course seems to flood easily and if this issue was addressed would result in me feeling more confident to book it in advance and know, not withstanding a major weather event, the course could still be playable after a day of rain. Happy to hear the course is getting some updates and I look forward to playing it again soon!	7/31/2025 4:28 PM
203	Put up a net instead.	7/31/2025 4:27 PM
204	If you make it a 3 please redesign the hole. That would make for a very boring par 3. Maybe changing the angle to having a tee box left side so the bunker front left actually comes into play. Real tee boxes, removal of current tee boxes and landscaping where old boxes were. Just don't make the change because people can't hit their driver straight and not redesign the hole itself. If that is the plan, that would indeed make it a less nice place to play.	7/31/2025 4:27 PM
205	Fairway on hole 1 usually not in good condition	7/31/2025 4:25 PM
206	Par 3 courses are horrible	7/31/2025 4:25 PM
207	There are already three Par 3s on the front nine, and adding a fourth to what's already a relatively short course further reduces its overall challenge and appeal. With six Par 3s total, what was once a regulation course starts to feel more like an executive layout. Given that course conditions can already be hit or miss, removing another opportunity to hit a driver or 3-wood off the tee does, in my opinion, take away from the overall value and playing experience. That said, I've always enjoyed Lake Worth Beach Golf Club and have appreciated the existing layout. I sincerely hope it can remain intact moving forward.	7/31/2025 4:23 PM
208	I love the course and look forward to the upgrades. I used to have a players card but it expired. I will renew.	7/31/2025 4:21 PM
209	The residents that live alongside the third hole should been aware of the potential for a golf ball to enter their property BEFORE they purchased the house	7/31/2025 4:20 PM
210	Good luck with renovation. Marty is doing great things with the course. I see much improvement.	7/31/2025 4:19 PM
211	Fix the fairways	7/31/2025 4:19 PM
212	Net	7/31/2025 4:14 PM
213	As a par 4 it adds a so look d challenge to the course. It should stay a Par 4.	7/31/2025 4:11 PM
214	Many ways to keep hole 3 as a par 4. Have any of them been researched?	7/31/2025 4:09 PM
215	In terms of value the county courses are in much better condition for about the same cost. I	7/31/2025 4:09 PM

will hesitate to play there if it becomes a par 71 course. I'm 59 years old but I play well and I don't mind spending more money to play a course that's maintained better. I have really enjoyed playing the course in the past for a change of pace. The third hole has a beautiful and challenging par four. As a par three it's almost too easy in my opinion. Would a net to protect the bordering property be an alternative?

216	Am considering an annual membership this year, however, adding another par 3 may negatively affect my decision to join. Is it possible to add a safety net on hole 3?	7/31/2025 4:06 PM
217	I lived on course on 716 Gulfview rd for 20 years and then it was #9 . We never had problems except a few stray balls but that is what you expect when you choose to live there.	7/31/2025 4:03 PM
218	The course is a jewel and should not be changed to accommodate homeowners who bought knowing they were next to the course. The course needs to be upgraded in many ways but not in terms of shortening it.	7/31/2025 4:00 PM
219	Changing hole 3 to a par 3 would not make the course have two par 3 holes in a row, but making hole 3 into a par 3 would make it extremely challenging to par due to its length.	7/31/2025 4:00 PM
220	The course is generally quite wet and the grass is not cut. Pretty course but not maintained well.	7/31/2025 3:59 PM
221	Would some netting work instead?	7/31/2025 3:58 PM
222	Please don't let developers take over the course and price it out of range for the local community.	7/31/2025 3:56 PM
223	If you keep hole 3 as a par 3 you will need to contact USGA to update the GHIN.	7/31/2025 3:54 PM
224	Great course and I have played all over the World. Nice helpful staff.	7/31/2025 3:54 PM
225	The elevation of the course being basically at sea level makes it so the course is always a swampy mess. That's the biggest reason I haven't been back in a while	7/31/2025 3:50 PM
226	Making the Change protects the homes in the area	7/31/2025 3:49 PM
227	Addendum - The shorter hole, and an increase in rates would make me less likely to continue golfing in Lake Worth.	7/31/2025 3:46 PM
228	i used to play here many times a year, i stayed away for about 3-4 years due to course quality. I played it in June of this year and was totally impressed. the work that has been done makes this a very nice course now, Would like to see some work on greens to make them quicker, but that won't keep me away now. Bravo to your maintenance crew. Will be playing here more often.	7/31/2025 3:44 PM
229	When homes are on a golf course, there is a realization that balls will land in your yard. If that isn't desirable, then consider erecting netting.	7/31/2025 3:43 PM
230	It seems like moving the tee box and the green to the left could alleviate a lot of the issues with errant balls hitting houses. The people buying the houses did know they were buying them next to a golf course..	7/31/2025 3:42 PM
231	Course has been here so long. Why the change?	7/31/2025 3:41 PM
232	Love playing there as there is almost always a breeze!	7/31/2025 3:40 PM
233	APPRECIATE THE IMPROVEMENTS	7/31/2025 3:40 PM
234	It shortens the course but I do understand why the change is being made. I've seen nets put up on courses to protect houses at certain spots - not sure if this would be an option	7/31/2025 3:38 PM
235	The change does not bother me but I do feel like the bunkering should be adjusted to make the hole more of a challenge in the par 3 configuration. Also the course layout should be adjusted in the 18Birdies app to account for it being a par 3	7/31/2025 3:38 PM
236	I care more about the uneven teeboxes	7/31/2025 3:36 PM
237	The issues you've addressed this summer is like putting a band aid on a bullet hole. This course has never been maintained properly, even dating back to the 90's when I first started playing here. It sits on some of the most coveted land in Palm Beach County and it's treated like a goat track. Get creative with this golf course since LWB clearly doesn't have funds to do	7/31/2025 3:35 PM

what is necessary to bring the maintenance of this course up to the level that it's craving. The greens need to be completely redone. That's probably just the tip of the iceberg. It's currently like putting on the fairway. Maybe there is a deal on the table such as "The Park" in WPB. Something drastic needs to be done and it isn't changing a par 4 into a par 3. Get with it, please

238	Active rangers should move play along.	7/31/2025 3:33 PM
239	i've been playing golf at this course for well over 30 years & for the last 100 years no one ever complained about errant golf balls.I have for the past 25 years live on a golf course (Atlantic Nat'l) & my property gets hit with errant golf balls all the time.I expect this to happen otherwise I wouldn't have purchased my home on a golf course..As far as the temporary par 3 is concerned I am totally against it..How about putting some sand in the bunkers & get them back to playing condition..	7/31/2025 3:33 PM
240	Been playing your course on vacation for 20+ years. I play from a wheelchair and was always impressed with your staff. I just moved to Boynton Beach and hope to be playing again by end of year	7/31/2025 3:32 PM
241	it's been a par 4 for 100 years, and one guy can change that? is this going to happen on the back nine too? does this person that changed a par 4 to a par 3 even play golf? please change it back to a par 4	7/31/2025 3:30 PM
242	If you buy a house on the right side of a fairway on a par 4, your house is going to get hit. If you don't like it, put up a barrier such as a net. The course is 100 years old, the buyers purchased knowing the situation. Cutting number 3 to a par 3 isn't going to stop me from slicing an iron into your house, but it will bring the course down to almost executive length and place far too many par 3's on the front side - not to mention it puts two par 3's back to back. If hole 3 is shortened, you need to change number 4 into a par 4 by moving the tees to the old green area of 3; or moving the tees way back into the open area by hole 5 green behind where the tips are now. You'll need to find an extra 100 yards on hole 4 and make it a par 4 to balance out the front.	7/31/2025 3:30 PM
243	Need the distance of this course to qualify for handicap and sanctioned golf leagues and tournaments. Move the tee boxes more toward lake, move western boundry more eastward.	7/31/2025 3:28 PM
244	I have more than once mentioned to Carmine in the Pro Shop about no paper towers in the men's room but this nuisance remains. The litter and construction debris by the water and ice machine gives a bad impression. I often pick up trash and debris on the course too which is not the case on "better" area courses	7/31/2025 3:27 PM
245	What country—really USA was not first get a new programmer. As far as the course goes you need new management. Like Troon Golf. To start with the grass and greens need someone that knows how to grow grass. This course is going the way of the trash pit West Palm just rebuilt. As far as 100 anniversary goes today I am sure the course is in a shape the for father would not understand. I am sure the city of Lake Worth would like to sell that prime ground. Update is and raise the fees. I am sorry I live on the wrong side of the ditch, LakeWorth vs Lake Worth Beach.	7/31/2025 3:27 PM
246	The last time I played golf here was on 2024. The course was in horrible shape and I was shocked at the amount I had to pay. I have not been back.	7/31/2025 3:27 PM
247	Isn't hole 2 shorter than hole 3? 347 par 3? Doesn't seem like a good move. Keep it par 4.	7/31/2025 3:27 PM
248	Why can't a mesh fence be placed and return the hole to a par 4	7/31/2025 3:26 PM
249	3 par threes within 4 holes just doesn't make a lot of sense. It is a par 4 that my wife and I enjoyed playing.	7/31/2025 3:24 PM
250	My understanding is that it changes the category of gold course to Executive Course. That isn't a positive change.	7/31/2025 3:24 PM
251	I like the course and play when I am able.	7/31/2025 3:23 PM
252	Keep the fairways / tee boxes and greens in good condition and I will play more rounds	7/31/2025 3:23 PM
253	Install protective measures Examples: Twin Lakes Golf Course (Fairfax, VA) added netting and tree buffers Los Serranos Golf Course (CA) rebuilt tees to change driver trajectories Many courses opt for visual cues or fencing near homes to direct tee shots Offer alternative	7/31/2025 3:22 PM

solutions: e.g., tree planting, changing tee direction, limited driver use Ask residents if they'd be open to netting/fencing along their yards ♦ Design Review Work with a golf architect to sketch out: Tee relocation Safer fairway angles Visual buffer

254	It has been a par4 for almost 100 years and before they bought homes. It was a known risk and I am embarassed that you are yielding to this issue from a FEW that impacts HUNDREDS of golfers.	7/31/2025 3:21 PM
255	The course is in terrible condition and would benefit from a complete renovation. In my option, it should be leased to PBC so that it can be transformed into a better quality course. I used to play it a lot when I first moved here until I found out there were so many better options for less money. In addition, I was a member for one year, which was not a great experience. I played almost every day and none of the staff treated me like a member, remembered my name, etc. Also, the starters are almost completely useless, during busy season, patrons tee off from whatever 9 they want which is incredibly disruptive. In short: changing one hole is no big deal really, but the course has a lot of fundamental and deeper issues than that.	7/31/2025 3:20 PM
256	If it changes to a par 3 will it change it to an executive course? If so then that will definitely reflect on the handicaps. Also if I may, the golf course has been there longer than most of the houses and those that bought or built on the golf course would have to expect an occasional golf ball to land in their yard.	7/31/2025 3:20 PM
257	Upgrade the fairways and greens!	7/31/2025 3:19 PM
258	My wife and I discovered your this gem several years ago and it is the only course we play when we come to Florida for spring training in Feb/March every year. We love the golf course, proshop, restaurant and all the staff. You have a great facility and team there! It's disappointing to see the course change this drastically from it's original design, but understandable given how things change these days. I'm sure there are several homes/back yards that get pummeled on a regular basis by golfers that lack accuracy and concern for whatever property damage they may inflict on homeowners. We will continue to happily support the golf course and restaurant as we always have. You are a great value and we love playing and dining there.	7/31/2025 3:19 PM
259	A message to the people that bought a home on the right side of a fairway on any course in the world, including #3 at LWBGC - YOU ARE GOING TO GET GOLF BALLS HIT ONTO YOUR PROPERTY !	7/31/2025 3:19 PM
260	I feel you should shorten the hole, but still maintain Par 4 status (i.e. 290 yds from tips). Take driver out of golfer's hand and you should have less "stray" shots into the houses.	7/31/2025 3:18 PM
261	If you live in a golf course, you have to expect golf balls in your yard. This is outrageous. Have the gentleman sell his house or put a net up?	7/31/2025 3:17 PM
262	If you buy a house near an airport you get planes flying overhead. If you buy a house on/near a golf course a few balls may come your way. I believe that the golf course Wadsworth there long before any of the homes. Enough said.	7/31/2025 3:16 PM
263	Please continue to improve course, don't rip it up, spend a ton of \$\$ on a par 3. keep the prices affordable. Make some forward tees if that works. Good Luck	7/31/2025 3:15 PM
264	Overall, the course is an entry level experience so any changes shouldn't affect desire to play.	7/31/2025 3:15 PM
265	Could be a wonderful course on the ocean. Just needs a little TLC and influx of cash to improve conditions and I would play there very often.	7/31/2025 3:15 PM
266	I don't mind the change on hole number 3 - the only "down side" is that you play two par 3 holes back to back. But personally I do not see it as a big deal and I understand why it was done.	7/31/2025 3:14 PM
267	Improved cart paths & water drainage will help tremendously in addition to maintaining the quality of fairways and greens.	7/31/2025 3:14 PM
268	LWBGC is my neighborhood course, I love it effusively. LWBGC is one of the many reasons I bought my house IN east LW back in 2017. I play LW usually every other week, often times in the Summer once or even twice a week. But here's the thing: LWBGC is not especially challenging. It's a late afternoon ride with a few buddies or my daughters to play some music and get a round in, maybe even a personal best low score. To convert one of the few truly challenging golf holes on the course into a par 3 would make the course even easier, and this course needs al of the help it can get defending itself from low scores!	7/31/2025 3:13 PM

269	Keep working to improve the course. It's a great location. Don't sell out to the developers.	7/31/2025 3:13 PM
270	Drainage improvements would be welcome. A beverage cart would also be nice.	7/31/2025 3:11 PM
271	A homeowner who Buy a house on a golf course implicitly accepts the risk of potential damage from errant golf balls. In other word, when a homeowner buys a property adjacent to a Golf Course they are generally considered to have accepted the risk of property damage from golf balls. This is similar to other situations where people accept inherent risk associated with a location, like living in a hurricane-prone area or near a busy road.	7/31/2025 3:11 PM
272	spend money on course conditions, upgrade, great peice of land, lets do what the Park did and make it amazing. Mediocrity does not fit that land	7/31/2025 3:11 PM
273	How are you going to change the golf course because of one home on the course? What's to stop removing every single hole on the course that is within a certain buffered distance of a residential property? Changing the hole to a Par 3 paves the way for more unreasonable concessions by the City having to modify course in the future.	7/31/2025 2:55 PM
274	Hole 3 is one of the most challenging holes in the area, and it's quite possibly the signature hole ,next to the 17th, which is more aesthetically pleasing than tough. Having played the course several times since the recent downgrade to a Pr 3, and having played these rounds during the brutal heat of summer's off-season, I can attest that the front nine and the lines at the first tee have never moved slower or been a longer slog than ever before—and I've been coming here nearly thirty years; going off on the old first hole, now the tenth, has become once again status quo as a quick glance down the field reveals an empty eighth and ninth holes, as the golfers are all waiting for their chance at One and Two. Why? Because Three is now a Par 3, and Four is still a Par 3, and Par 3s are notorious for causing bottlenecks in the flow of play. The gap once afforded by Three's expansive and long fairway used to allow golfers at the tee to send their ball and move forward, but now it's a lot of waiting for putters to abandon the green; combine this for two holes in a row, and at the very beginning of a round, no seasonal golfer in their right mind would think of returning for a round at Lake Worth! It's already enough that the conditions of the bunkers are fair to middling and the water just about reaches your ankles on king tides, but having a paltry Par 3—on what was once the area's "True Test of Golf"—blocking up the flow of traffic would be the straw breaking a camel's back. Without the distance of this Par 4, the course falls into "executive" territory, which isn't where dollars will be spent by those visiting us from up north when they book through vendors like Golf Now and see a sub-6,000 yards on offer. It's why most golfers would rather brave the mid of Lake Worth over the shortness of Poinciana, right up the road and with glowing turf reviews. This course has been here for nearly 100 years, and it has a unique charm from the period, one that is being lost with the loss of our Par 4 that plus like a Par 5, the third hole on the western perimeter of the grounds. It's hard to believe the neighborhood has been unawares of this issue for the last ninety-nine seasons, and I hope the town recognizes the importance of this course to the community during its deliberations.	7/31/2025 2:43 PM
275	Leave the set up as is and focus on quality of course.	7/31/2025 2:39 PM
276	Don't change please	7/31/2025 2:39 PM
277	Change the hole back to a par four. As a resident and as a golfer, I don't want back-to-back par 3s on the golf course. That's poor golf Course architecture. People bought their house knowing that there was a golf course to the east of them. Golfers have not changed, only the residents have changed and take issue with something they knew when they bought their house. The par 3 is just as easy to slice Balls to the West. Please change it back to the original setup of a par four.	7/31/2025 2:31 PM
278	i think it's ridiculous for a person to buy a house on a golf course and complain about the occasional ball going into their yard. in addition i don't think making the hole a par 3 will solve the problem.	7/31/2025 1:25 PM
279	If people don't like balls hitting their house, they can move.They live on a golf course.What do they expect, we're not professional golfers	7/31/2025 7:30 AM
280	I dont like the change, I hope we can get it back. That is my favorite hole.	7/30/2025 4:23 PM
281	Bring back the par 4	7/30/2025 4:19 PM
282	Bring back hole number 3 par 4	7/30/2025 3:45 PM
283	There are already 5 par 3's this makes the course too short. Less than 6000 yards. This is a	7/30/2025 11:35 AM

slippery slope. Houses can come into play on several holes. Are we going to make 2, 8, 11, 13 and 18 par 3s. Living on a golf course has inherent risks. This course is 99 years old. Why ruin a beautiful Lake Worth institution? Is this really that big of a problem or are a very small group of home owners overreacting?
