Preferred Claims Administration

Preferred Governmental Claim Solutions, Inc. ® (PGCS) is the premier governmental third-party claims administrator in the state of Florida and administers the claims for Preferred Governmental Insurance Trust (*Preferred*). Since its founding in 1956, PGCS has provided claims administration services exclusively to over 450 governmental entities including schools, cities, towns, counties, community development districts, and fire districts. Therefore, PGCS's adjusters are extremely qualified to handle governmental tort liability and public sector workers' compensation claims. They are experts at investigating and handling police and firefighters presumption claims. PGCS is sensitive to the politics involved in the handling of public entity claims.

PGCS's claims administration program consists of workers' compensation, general liability, bodily injury, personal injury, property, auto liability, auto physical damage, employment practices liability, school leaders/educators liability and public officials liability. Their claims staff has over 630 years of combined insurance experience and each has been with PGCS an average of 8 years. Claims are handled under strict supervision in accordance with the PGCS workers' compensation and liability claim handling procedure manuals and the PGCS claim best practices manual. A random sampling of each adjuster's claim files are audited on a monthly basis by a Quality Assurance Manager to ensure compliance.

PGCS provides their clients with a dedicated Subrogation Unit to pursue reimbursements from at-fault third parties. Their current recovery rate is fifty-nine (59) percent of the claim costs expended. PGCS also has a dedicated excess reporting and recovery unit for communication to and securing reimbursement from the excess and/or reinsurance carriers. In addition, PGCS provides a state-approved Special Investigation Unit (SIU) to prevent and pursue fraudulent claims. PGCS offers rewards up to \$10,000.00 for the arrest and conviction of persons committing workers' compensation fraud. This service is provided via a twenty-four hour seven day a week hotline.

PGCS utilizes the RiskMaster system for claims processing. This system captures a wide variety of data and allows the adjuster to enter an unlimited number of claim notes, process reserve changes, and issue claim payments. Customized reports can be obtained from PGCS's on-line system containing a multitude of data parameters that a client may choose to analyze. The system can be accessed by clients via their website at www.pgcs-tpa.com.

Communication with PGCS's clients is the cornerstone of their claims administration program. Professional adjusters, nurses, management, quarterly in-depth claim review meetings, 24/7 claim reporting, utilization of attorneys specializing in public entity defense, litigation management, and return to work programs are just a sample of how PGCS has set the standard for the industry.

PGCS is committed to partnering with their clients to provide professional and aggressive claim management programs. While they are recognized as the leader in the industry, PGCS is always striving to improve the quality of their programs and expand the services that they offer.

Preferred Safety and Risk Management Services

The success of any public sector community is tied to its ability to protect and preserve its human physical assets. This basic premise serves as the cornerstone of an effective Safety Management program and underscores the importance of Safety and Risk Control to the community. *Preferred's* Safety and Risk Management Department is very aware of the valuable contribution a comprehensive safety and risk control program makes to the bottom-line of any organization.

At *Preferred*, Safety consultations originate with one basic thought—to recommend specific measures to minimize or eliminate the exposures that cause accidents. This does not mean that the workplace become no-risk utopias, but we expect our consultants to recommend measures to control and minimize all types of accidents, injuries and illnesses to our *Preferred* members' operations and premises.

Preferred is dedicated to meeting the challenge of the complex issues facing public sector organizations. Disarming these issues and converting them into solutions which work to the advantage of our goal. *Preferred's* approach to risk control incorporates the following elements:

- **Exposure Identification** – Assist management in determining areas where a chance of loss might exist through cause trend analysis, work site evaluations, and facility inspections.
- **Exposure Measurement and Loss Analysis** – Loss analysis and a review of the consequences of the exposures will be considered to develop alternative methods of control.
- **Determination and Selection of Appropriate Risk Control Methods** – Based on measurement and analysis, specific recommendations and/or custom designed risk control plan will be formulated. OSHA, as well as other Agency Standards will be applied and/or used as a “Best Practice” measure when designing and formulating safety and risk control plans.
- **Training and Safety Management Consulting** – After considering client needs specific services and/or training will be formulated and initiated to fit the client's need. Key Personnel or specialty consulting services with the knowledge and skills needed to meet those identified needs will be provided.
- **Additional Consulting Services Available** – *Preferred's* Safety & Risk Management has other services available that may benefit our clients. These services include security evaluations and review of existing safety and risk programs.

Preferred's Safety and Risk Management Department evaluates the unique needs to each client, ultimately designing a program that is capable of being integrated into the overall safety and risk control efforts of each client. *Preferred's* dedication to the problem-solving approach is the foundation of their Safety and Risk Management Service.

Retail Compensation Disclosure

In addition to the commissions or fees received by us for assistance with the placement, servicing, claims handling, or renewal of your insurance coverages, other parties, such as excess and surplus lines brokers, wholesale brokers, reinsurance intermediaries, underwriting managers and similar parties, some of which may be owned in whole or in part by Brown & Brown, Inc., may also receive compensation for their role in providing insurance products or services to you pursuant to their separate contracts with insurance or reinsurance carriers. That compensation is derived from your premium payments. Additionally, it is possible that we, or our corporate parents or affiliates, may receive contingent payments or allowances from insurers based on factors which are not client-specific, such as the performance and/or size of an overall book of business produced with an insurer. We generally do not know if such a contingent payment will be made by a particular insurer, or the amount of any such contingent payments, until the underwriting year is closed. That compensation is partially derived from your premium dollars, after being combined (or "pooled") with the premium dollars of other insureds that have purchased similar types of coverage. We may also receive invitations to programs sponsored and paid for by insurance carriers to inform brokers regarding their products and services, including possible participation in company-sponsored events such as trips, seminars, and advisory council meetings, based upon the total volume of business placed with the carrier you select. We may, on occasion, receive loans or credit from insurance companies. Additionally, in the ordinary course of our business, we may receive and retain interest on premiums you pay from the date we receive them until the date of premiums are remitted to the insurance company or intermediary. In the event that we assist with placement and other details of arranging for the financing of your insurance premium, we may also receive a fee from the premium finance company.

If an intermediary is utilized in the placement of coverage, the intermediary may or may not be owned in whole or part by Brown & Brown, Inc. or its subsidiaries. Brown & Brown entities operate independently and are not required to utilize other companies owned by Brown & Brown, Inc., but routinely do so. In addition to providing access to the insurance company, the Wholesale Insurance Broker/Managing General Agent may provide additional services including, but not limited to: underwriting; loss control; risk placement; coverage review; claims coordination with insurance company; and policy issuance. Compensation paid for those services is derived from your premium payment, which may on average be 15% of the premium you pay for coverage, and may include additional fees charged by the intermediary.
