### **IFB Scope of Services**

The City of Lake Worth Beach is expecting that the CONTRACTOR provides repairs to the CITY's water distribution, wastewater collection and stormwater collection systems immediately after a hurricane, other disaster, or as needed by the CITY on an emergency basis. The objective of this Agreement is to secure the services of an experienced CONTRACTOR who is capable of efficiently repairing aforementioned water systems in a timely and cost-effective manner. The CONTRACTOR should be experienced and proficient in all phases of construction and repairs of water systems, including but not limited to: furnishing and installing various sizes of pipe for gravity sewer main and force main, water distribution lines and storm sewer mains; and concrete structures for the wastewater and storm water systems, set up and monitoring of bypass pumping; dewatering systems; and restoration related to landscaping, asphalt and concrete work may also be required as needed. The CONTRACTOR must be capable of assembling, directing, and managing a work force that can complete the repairs in the assigned number of days.

This is an acknowledgement that FEMA financial assistance may be used to fund the resulting contract. The CONTRACTOR shall perform all work in compliance with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives in order to maximize recovery of reimbursable expenses. This shall include the provision of audit quality documentation as required by and acceptable to FEMA for all work accomplished. This includes compliance with any disaster management or monitoring services the CITY may have under contract.

The CONTRACTOR may be required, at the CITY's discretion, to be under the direction of an agent of the CITY.

While intended to cover water, wastewater and stormwater repair needs in any major disaster scenario or other emergency, the primary focus is on the threat of hurricane damage to the CITY. The planning standards used for this project are based on the anticipated impacts of a named storm event or major flood impacting Palm Beach County, Florida.

The CITY envisions the need for multiple contracts to carry out the water utility systems work throughout the CITY in the event of a major disaster or other emergency. The CONTRACTOR must have the experience and capability to manage a major workforce with multiple subcontractors and to cover the expenses associated with a major recovery operation prior to the initial CITY payment and between subsequent payments, as well as

the capacity to provide the necessary insurance. The CONTRACTOR must also have an established management team, an established network of resources to provide the necessary equipment and personnel to complete comprehensive water utility system repairs and demonstrable experience in major disaster recovery projects.

This Agreement is a contingency contract that will be activated activated via purchase order or work order only in the case of an emergency or immediately after an emergency. As such, no compensation will accrue to the contractor(s) unless and until a purchase order or work order is issued either in anticipation of an emergency or immediately after such disaster. Each purchase order/work order will contain a price ceiling (not-to-exceed amount) that the CONTRACTOR exceeds at its own risk.

The CITY does not guarantee a CONTRACTOR will be activated under this Agreement.

In addition to using CITY forces and equipment, the CITY intends to award multiple contracts on a contingency basis for the purpose of having CONTRACTOR(S) immediately available and committed to assisting the CITY prior to or in the aftermath of an emergency. Each CONTRACTOR awarded a repair contract will serve as a General Contractor for the purpose of water utility systems repair operations, and will be able to use his/her own resources and subcontractor resources to meet the obligations of the contract and specific purchase order. It is anticipated that the CONTRACTOR will use both local and non-local subcontractors. Notwithstanding, the CONTRACTOR must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises and labor surplus area firms are solicited and used when possible.

When a major disaster or emergency occurs or is imminent, the CITY intends to contact the CONTRACTOR awarded a repair contract under this IFB to advise them of the CITY's intent to utilize the contracts via purchase order/work order.

When a major disaster or emergency occurs or is imminent, the CITY will initially send out an alert to the selected CONTRACTOR(S). This alert will serve to activate the lines of communication between the CONTRACTOR representatives and the CITY.

Specific purchase orders/work orders will be issued to select contractor(s) based on the best interest of the CITY. The CITY reserves the right to assign purchase orders to various CONTRACTORS based on pricing submitted. The CITY does not guarantee a cradle to grave pricing arrangement but reserves the right to pick and choose awarded CONTRACTORS based on ranking.

The general concept of water utility systems repairs shall include pipe break repair, pipe collapse repair, sections of pipe replacement, cleaning and lining of existing mains, among other tasks. The CITY will prescribe the specific schedule to be used after ascertaining the scope and nature of the anticipated or disaster's or emergency's impacts.

The CITY reserves the right to utilize the CONTRACTOR for other repair work consistent with this Scope of Work even if the repair work is not an emergency. Said work will be awarded via Purchase Order OR Work Order in the CITY's sole discretion.

### Reporting

The CONTRACTOR shall submit a report to the CITY Emergency Management Coordinator or designee by close of business each day of the term of the Purchase Order or Work Order, Each report shall contain, at a minimum, the following information:

1. Contractor's Name
2. Contract Number
3. Daily and cumulative hours for each piece of equipment, if appropriate
4. Daily and cumulative hours for personnel, by position, and tasks performed, if appropriate
5. Volumes of repairs handled

Failure to provide audit quality information by 5:00 p.m. of the following day of operation will subject CONTRACTOR to non-payment in each instance at the sole discretion of the CITY.

### Performance of Contractor

It is the intent of the Agreement to ensure that the CONTRACTOR provides a quality level of services. To this end, all complaints received by the Emergency Management Coordinator or designee, and reported to the CONTRACTOR shall be promptly resolved pursuant to the provisions of this Agreement.

The Emergency Management Coordinator or designee may levy administrative charges for the following infractions:

1. Inability to perform repairs due to CONTRACTOR equipment or operational failures, liquidated damages of \$500 per day, for each day repair site must remain attended.

CONTRACTOR may also be subject to non-payment and liquidated damages of \$50 for the following infraction:

1. Failure to provide audit quality information by 5:00 p.m. of the following day of operation.

The CONTRACTOR may be immediately terminated and may not be paid for the following:

2. Moving to another designated Work Area without prior CITY approval.
3. Failure to provide service in accordance to guidelines set forth by FEMA and the CITY.
4. Soliciting work from private citizens or others to be performed in the designated Service Area during the awarded contract term.

The City reserves the right to delete or amend any of the services as listed and described herein in negotiations with the selected CONTRACTOR(S) or in specific purchase orders.

### **Federal Contract Provisions**

The Contractor hereby agrees that the following terms, at a minimum, are incorporated into this Agreement:

Equal Employment Opportunity. During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the

contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, that if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract. The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of

contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

**EXHIBIT D**  
**SAMPLE WORK ORDER**

**CONTRACTOR AGREEMENT**  
**(EMERGENCY UTILITY REPAIRS FOR WATER, WASTEWATER AND STORMWATER)**  
**WORK ORDER NO. \_\_\_\_\_**

THIS WORK ORDER for Emergency Utility Repairs for Water, Wastewater and Stormwater ("Work Order" hereafter) is made on the \_\_\_\_\_, between the **City of Lake Worth Beach**, a Florida municipal corporation located at 7 North Dixie Highway, Lake Worth, Florida 33460 ("City" hereafter) and **Johnson-Davis Incorporated**, a Florida corporation ("Contractor" hereafter).

**1.0 Project Description:**

The City desires the Contractor to provide all goods, services, materials and equipment as identified herein related to the Emergency Utility Repairs for Water, Wastewater and Stormwater project generally described as:

\_\_\_\_\_ (the "Project"). The Project is more specifically described in the plans prepared by \_\_\_\_\_, dated \_\_\_\_\_, and which are incorporated herein by reference.

**2.0 Scope**

Under this Work Order, the Contractor will provide the City of Lake Worth with construction services for the Project as specified in the **Contractor's proposal attached hereto and incorporated herein as Exhibit "1"**.

**3.0 Schedule and Liquidated Damages**

Substantial completion of all services and work under this Work Order shall be within \_\_\_\_\_ **calendar days** from the Effective Date of this Work Order. Final completion of all services and work (and all punch-list items (if any)) under this Work Order shall be within \_\_\_\_\_ **calendar days** from the Effective Date of this Work Order. The Effective Date of this Work Order is the date following the parties' execution of this Work Order and the City's delivery of a Notice to Proceed to the Contractor via e-mail, facsimile or other form of delivery as documented by the City. Substantial completion occurs when the services and work has progressed to the point where, in the opinion of the City, the work is sufficiently complete in accordance with the Contract Documents and this Work Order, so that the Project can be utilized for the purposes for which it is intended. Final completion occurs when all services and work (including punch-list items) has been completed and the project becomes fully operational and accepted by the City.

**Liquidated Damages.** The City and Contractor recognize that time is of the essence under this Work Order and the Contract Documents, and that the City will suffer financial loss if the services and work described in this Work Order and the Contract Documents are not completed within the times specified in this Work Order. The City and Contractor recognize, agree and acknowledge that it would be impractical and extremely difficult to ascertain and fix the actual damages that the City would suffer in the event Contractor neglects, refuses, or otherwise fails to complete the

services and work within the time specified. Accordingly, instead of requiring any such proof, the City and Contractor agree that as liquidated damages for delay (but not as a penalty) Contractor shall pay the City \_\_\_\_\_ hundred dollars (\$\_\_\_\_\_.00) for each day that expires after the time specified in this Work Order.

#### **4.0 Compensation and Direct Purchases**

This Work Order is issued for a lump sum, not to exceed amount of \$\_\_\_\_\_ (\_\_\_\_\_). The attached proposal identifies all costs and expenses included in the lump sum, not to exceed amount.

The following Direct Purchases are to be made under this Work Order by the City:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_.

#### **5.0 Project Manager**

The Project Manager for the Contractor is \_\_\_\_\_,  
phone:\_\_\_\_\_; email: \_\_\_\_\_; and, the Project  
Manager for the City is \_\_\_\_\_,  
phone:\_\_\_\_\_; email:\_\_\_\_\_.

#### **6.0 Progress Meetings**

The Contractor shall schedule periodic progress review meetings with the City Project Manager as necessary but every 30 days as a minimum.

#### **7.0 Contractor's Representations**

In order to induce the City to enter into this Work Order, the Contractor makes the following representations:

7.1 Contractor has familiarized itself with the nature and extent of the Contract Documents including this Work Order, work, site, locality, and all local conditions and laws and regulations that in any manner may affect cost, progress, performance or furnishing of the work.

7.2 Contractor has obtained at his/her own expense and carefully studied, or assumes responsibility for obtaining and carefully studying, soil investigations, explorations, and test reports which pertain to the subsurface conditions at or contiguous to the site or otherwise may affect the cost, progress, performance or furnishing of the work as Contractor considers necessary for the performance or furnishing of the work at the stated work order price within the Work Order stated time and in accordance with the other terms and conditions of the Contract Documents, including specifically the provisions of the IFB; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or is deemed necessary by Contractor for such purposes.

7.3 Contractor has reviewed and checked all information and data shown or indicated

on the Contract Documents with respect to existing Underground Facilities at or contiguous to the site and assumes responsibility for the accurate location of said Underground Facilities. No additional examinations, investigations, explorations, tests, reports, studies or similar information or data in respect of said Underground Facilities are or is deemed necessary by the Contractor in order to perform and furnish the work under this Work Order price, within the Work Order time and in accordance with the other terms and conditions of the Contract Documents.

7.4 Contractor has correlated the results of all such observations, examinations, investigations, explorations, tests, reports and studies with the terms and conditions of the Contract Documents.

7.5 Contractor has given the City's Contract Administrator written notice of all conflicts, errors or discrepancies that he or she has discovered in the Contract Documents and the written resolution thereof by City or its designee is acceptable to the Contractor.

**8.0 Warranty.** The Contractor warrants and guarantees to the City that all services and work provided under this Work Order will be in accordance with this Work Order and the other Contract Documents. The Contractor warrants that (a) all materials and parts supplied under this Work Order shall be free from defects for one (1) year from the final completion of all work (unless a longer manufacturer warranty applies); (b) all services and work performed under this Work Order will be free from defects for one (1) year from the final completion of all work and the project shall be fully operational without unreasonable downtime or failures; and (c) that the services and work will conform to the requirements of the Contract Documents. If, at any time prior to the expiration of the one (1) year warranty period, the City discovers any failure or breach of the Contractor's warranties or the Contractor discovers any failure or breach of the Contractor's warranties, the Contractor will, upon written notice from City or of its own accord, at the Contractor's sole cost and expense, promptly correct such failure or breach (which corrective action must include, without limitation, any necessary removal, disassembly, reinstallation, repair, replacement, reassembly, retesting, and/or re-inspection of any part or portion of the work and any other property damaged or affected by such failure, breach, or corrective action). The Contractor will remedy any such failure or breach so, to the extent possible, to avoid unnecessary disruptions to the operations of City or its systems. In the event the Contractor fails to initiate and diligently pursue corrective action within five (5) days of the Contractor's receipt of the City's notice or the Contractor's discovery of the same, the City may undertake such corrective action at the Contractor's expense.
