

EXECUTIVE BRIEF UTILITY MEETING

AGENDA DATE: June 28, 2022

DEPARTMENT: Water Utility

TITLE:

Interlocal Agreement between Palm Beach County and City of Lake Worth Beach for utility adjustments for Congress Ave at Lantana Road project

SUMMARY:

Interlocal Agreement authorizes joint participation and project funding between Palm Beach County and City of Lake Worth Beach for the construction of utility adjustments for Congress Ave at Lantana Road Project for a total cost of \$35,535.50 in FY2023.

BACKGROUND AND JUSTIFICATION:

Palm Beach County has designed a roadway alignment improvement at Lantana Road west of Congress Ave. The new alignment widens the edge of pavement further south and thus a drainage is relocated to match the gutter edge. This structure relocation will be in conflict with existing sewer force main that is owned by the City but located in the County right of way. This main must be deflected horizontally to allow for the construction of the road improvements and associated drainage collection system. The City staff prepared a relocation plan along with a bid item list and County included this information with their advertisement for construction bid.

The County received bids for the project with R&D Paving, LLC. as the lowest responsive, responsible bidder. R&D Paving bid the City work at total of \$27,335.00. The project has a 30% contingency value of \$8,200.50 that will be available for unforeseen conditions or minor utility changes. The total, not to exceed value of the interlocal agreement is \$35,535.50. City must reimburse the County within 30 days of the submission of an invoice for completed utility work, which is anticipated no sooner than the start of FY 2023.

MOTION:

Move to approve/disapprove Interlocal Agreement between Palm Beach County and City of Lake Worth Beach for utility adjustments for the Congress Ave at Lantana Road project for a total cost of \$35,535.50 in FY2023.
