

STAFF REPORT REGULAR MEETING

AGENDA DATE: August 18, 2026

DEPARTMENT: Community Sustainability

TITLE:

Ordinance No. 2026-09 - First Reading and Public Hearing – amending multiple sections of Chapter 23 “Land Development Regulations” related to vacation rentals, transient public lodging, residential uses, and associated definitions

SUMMARY:

The proposed ordinance amends Chapter 23 of the City's Land Development Regulations to remove the City's existing prohibition on residential rentals of less than thirty (30) days and update related definitions and regulations for consistency with current Florida law. The amendments revise residential use definitions, establish terminology consistent with Florida Statutes, and update related provisions throughout the Land Development Regulations. The ordinance is primarily a housekeeping amendment to ensure the City's Land Development Regulations are consistent with current Florida law governing vacation rentals and transient public lodging. It does not create new local operational regulations for vacation rentals beyond those authorized by state law.

BACKGROUND AND JUSTIFICATION:

The City's Land Development Regulations have prohibited residential rentals of less than thirty (30) days since at least 2010. Since that time, Florida law has significantly limited the authority of local governments to regulate vacation rentals, prohibiting regulations based on the duration or frequency of occupancy. The proposed ordinance removes the City's existing minimum rental duration requirement to ensure consistency with current state law.

The proposed amendments update definitions related to residential uses, dwelling units, vacation rentals, and transient public lodging to align with current Florida Statutes. The ordinance also revises the City's Use Tables and related provisions throughout Chapter 23 to ensure terminology is applied consistently and removes references prohibiting transient occupancy within residential dwelling units.

Additional amendments include revisions to residential zoning district provisions, intent statements, micro-unit standards, and other sections of the Land Development Regulations to maintain consistency following the removal of the City's minimum rental duration requirement. The ordinance does not establish a new regulatory framework for vacation rentals but instead updates the City's regulations to reflect current statutory requirements while maintaining consistency throughout the Land Development Regulations.

The **Planning & Zoning Board (PZB)** unanimously voted to recommend approval of the proposed text amendments at their meeting on July 1, 2026. The board recommended that manufactured home and mobile home definitions match statutory definitions for consistency.

The **Historic Resources Preservation Board (HRPB)** unanimously voted to recommend approval of the proposed text amendments at their meeting on July 8, 2026.

MOTION:

Move to approve/disapprove Ordinance 2026-09 on first reading and public hearing and to schedule the second reading and public hearing for September 1, 2026.
