

Presentation information:

Two founders of non-profits with long involvement with youth empowerment, swimming, snorkeling and marine wildlife will present possible ideas for helping Lake Worth Beach. Maui Goodbeer, founder of Streetwaves, has dedicated his life to bringing under-served South Florida youth out to the ocean to learn to swim, surf and sail. Dan Volker, a LWB resident and founder of Project Seahorse, has years of experience with diving, teaching children to snorkel and introducing them to the wonders of underwater life. Together Maui and Dan would like to help link our pool and our potential underwater park.
