

EXECUTIVE BRIEF SPECIAL MEETING

AGENDA DATE: December 14, 2021

DEPARTMENT: Financial Services

TITLE:

Amendment to Resolution No. 58-2021 to correct scrivener's errors in the original resolution

SUMMARY:

This amendment to Resolution No. 58-2021 will correct a scrivener's error in the rolled-back rate and percentage over rolled-back rate incorrectly stated in the original resolution.

BACKGROUND AND JUSTIFICATION:

Resolution No. 58-2021 set forth the millage rate for Fiscal Year 2021-2022. In the resolution, an incorrect rolled-back rate and percentage over rolled-back rate were stated. The Florida Department of Revenue caught these scrivener's errors and requested that the City amend the resolution to state the correct rolled-back rate and percentage over rolled-back rate. Amending Resolution No. 58-2021 in this manner is an administrative matter and does not require the City to complete the formal millage adoption process anew. Further, this amendment **has no negative impact on the taxpayers of the City of Lake Worth Beach.** The incorrect values indicate a rolled back rate of 5.0754 mills which is 8.27% more than the rolled back rate from the previous year. The corrected values should be 5.2125 mills which is 5.41% more than the rolled back rate from the previous year. The corrected values are consistent with what has been remitted to the FL Department of Revenue.

MOTION:

Move to approve or not approve Amendment to Resolution No. 58-2021 to correct scrivener's errors in the original resolution.
