Exhibit A
IFB Scope of Services

The objective of the IFB and subsequent contracting activity is to secure the services of an experienced CONTRACTOR who is capable of efficiently providing transfer services in a timely and cost-effective manner. The CONTRACTOR must be capable of assembling, directing, and managing the bus transfer service and provide a work force that can start operations within 24 hours after the notification of emergency.

This is an acknowledgement that FEMA financial assistance may be used to fund the resulting contract. The CONTRACTOR shall perform all work in compliance with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives in order to maximize recovery of reimbursable expenses. This shall include the provision of audit quality documentation as required by and acceptable to FEMA for all work accomplished. This includes compliance with any disaster monitoring services the CITY may have under contract.

The CONTRACTOR may be required, at the CITY's discretion, to be under the direction of an agent of the CITY.

While intended to cover bus transportation needs in any major disaster scenario, the primary focus is to provide the support to personnel during the threat of hurricane damage to the City of Lake Worth Beach. The planning standards used for this project are based on the anticipated impacts of a named storm event or major flood impacting Palm Beach County, Florida.

If activation is required, the CITY intends to activate contracts on an as-needed basis as solely determined by the CITY. The CITY intends to activate the CONTRACTORS in the order of final ranking as best meets the needs of the CITY. The CITY reserves the sole right to assign/reassign any or all CONTRACTORS at any time as may be deemed appropriate depending upon the circumstance(s), the event, or any other condition which may warrant such action.

The CITY does not envision the need for multiple contracts to carry out the bus transportation service, but may award the Primary and Secondary contract for this service. The CONTRACTOR must have the experience and capability to manage a major workforce with multiple subcontractors and to cover the expenses associated with a major recovery operation prior to the initial CITY payment and between subsequent payments, as well as the capacity to provide the necessary insurance. The CONTRACTOR must also have an established management team, an established network of resources to provide the necessary transfer services, equipment, supplies and personnel, and demonstrable experience in major disaster recovery projects.

The resulting contract to be awarded under this IFB will be a contingency contract that will be activated via purchase order only in the face of an emergency or immediately after an emergency. As such, no compensation will accrue to the CONTRACTOR unless and until a purchase order is issued either in anticipation of a natural disaster or immediately after such disaster. Each purchase order will contain a price ceiling (not-to-exceed amount) that the CONTRACTOR exceeds at its own risk.

The CITY does not guarantee a CONTRACTOR will be activated if awarded a contract.

The CITY'S goal is to have the CONTRACTOR fully operational on designated and approved site within 24 hours after the initial activation.

The CITY intends to award Primary and Secondary contract but reserves the right to execute more or less than two (2) bus transportation contracts on a contingency basis for the purpose of having CONTRACTOR(S) immediately available and committed to assisting the CITY in the aftermath of an emergency or major disaster. Each CONTRACTOR awarded a bus transportation contract will serve as a General Contractor for the purpose of bus transportation operations, and will be able to use his/her own and subcontractor resources to meet the obligations of the contract and specific purchase order. It is anticipated that the CONTRACTOR will use both local and non-local subcontractors. Notwithstanding, the CONTRACTOR must take all necessary affirmative steps to assure that small and minority businesses, women's business enterprises and labor surplus area firms are solicited and used when possible.

When a major disaster or emergency occurs or is imminent, the CITY intends to contact the highest ranked CONTRACTORS awarded bus transportation contracts to advise them of the CITY's intent to activate the Contracts via purchase order.

When a major disaster or emergency occurs or is imminent, the CITY will initially send out an alert to the selected CONTRACTOR(S). This Alert will serve to activate the lines of communication between the CONTRACTOR representatives and the CITY. The CONTRACTOR should anticipate receiving this first Purchase Order 24 to 72 hours before projected landfall of a hurricane. Depending on the nature of the storm and circumstances, the CITY may activate more than one (1) CONTRACTOR. CONTRACTOR will generally be activated in order of final ranking.

Specific purchase orders will be issued to select CONTRACTORS based on the best interest of the City.
