The selected Respondent

will be notified in writing with an intent to award letter. Recommended awards will be made available for review by interested parties by Financial Services.

Lake Worth Beach does not currently use its solar resources in calculations of electric capacity for reserve requirement purposes, however it may do so in the future. Lake Worth Beach is also a participant in the FMPA Municipal Solar Projects I and II for a total of 36.55 MW and is anticipated to expand its take of future solar power in coming years. Wholesale power delivery to Lake Worth Beach is achieved via a single 138 KV radial transmission interconnection to FPL’s Cedar 1 and Quantum circuits and associated transmission network service on FPL’s system.
