Mr. Jamie Brown
Director, Public Works Department
City of Lake Worth Beach
1749 3rd Avenue South
Lake Worth Beach, Florida 33460

Dear Mr. Brown:

Thank you for your letter requesting approval to use Pedestrian-Actuated Rectangular Rapid-Flashing Beacons (RRFBs) at uncontrolled marked crosswalk locations on a city-wide basis on city-maintained roadways throughout the City of Lake Worth Beach. Your request is made under the provisions of Section 1A.10 of the 2009 edition of the *Manual on Uniform Traffic Control Devices for Streets and Highways* and the Federal Highway Administration's Interim Approval memorandum (IA-21) dated March 20, 2018 for the optional use of RRFBs.

Your request is approved. This approval is granted for all locations where the City of Lake Worth Beach installs RRFBs under the technical conditions contained in IA-21. Per Paragraphs 20 and 21 of Section 1A.10, please inform the Florida DOT of the locations of such use and please check for any State laws and/or directives covering the application of the MUTCD provisions that might exist in the State of Florida. Also, please note that the installation of RRFBs on state routes in the City of Lake Worth Beach will require the approval of the Florida DOT.

For recordkeeping purposes, we have assigned your request the following number and title: "IA-21.127 - Rectangular Rapid-Flashing Beacons at Crosswalks - Lake Worth Beach, Florida". Please refer to this number and title in any future correspondence.

Thank you for your interest in improving pedestrian safety.

Sincerely yours,

**MARK RICHARD
KEHRLI**
