RELEVANT EXPERIENCE	<p>I have over a decade of experience in clinical research, primarily supporting cancer centers, hospitals, and biotechnology companies. My work has focused on improving operational efficiency, training healthcare professionals, and ensuring compliance in highly regulated environments. I've led initiatives to streamline clinical trial processes, build sustainable workflows, and support workforce development—particularly in under-resourced or high-need settings.</p> <p>Although my experience is rooted in healthcare, the skills I've developed in project management, cross-functional collaboration, quality improvement, and training are highly transferable to the CRA's mission of revitalization and long-term strategic planning. I bring a systems-level perspective and a strong commitment to equitable, sustainable growth—both of which are essential to effective community redevelopment.</p>
INTEREST/ACTIVITIES	<p>I'm deeply interested in community-driven development that centers equity, sustainability, and long-term impact. As someone who works in a field focused on systems improvement and public health outcomes, I'm drawn to the ways thoughtful redevelopment can improve quality of life—through access to housing, small business support, walkable infrastructure, and preservation of neighborhood identity.</p> <p>Outside of work, I'm passionate about mentorship, career access, and helping people from underrepresented backgrounds navigate professional pathways and am committed to being part of the solutions that strengthen and uplift Lake Worth Beach if given the opportunity.</p>

COMMUNITY INVOLVEMENT

I'm a full-time resident and homeowner in Lake Worth Beach, and while I haven't been formally involved in city initiatives yet, I'm eager to contribute more directly to the community I live in. My interest in serving on the CRA Board comes from a genuine desire to learn, listen, and support thoughtful, equitable development in our city.

Professionally, I work in healthcare and clinical research—fields that have strengthened my appreciation for how systems and policies impact real lives. I also mentor individuals pursuing careers in research and healthcare, with a focus on accessibility and representation. I'm hopeful that by serving on this board, I can bring both a fresh perspective and a deep commitment to Lake Worth Beach's long-term growth and resilience.

WHY DO YOU DESIRE TO SERVE ON THIS BOARD (FIRST PREFERENCE)

I want to serve on the CRA Board because I believe that too often, critical information about redevelopment, planning, and community resources is not accessible or easy to understand for the people most affected by it. I've seen how misinformation or lack of communication can leave residents feeling excluded from decisions that impact their neighborhoods. I want to be part of changing that—by helping ensure that redevelopment efforts are transparent, inclusive, and clearly communicated.

More personally, I care deeply about making my neighborhood cleaner, more sustainable, and more financially resilient, while still preserving the character, diversity, and culture that make Lake Worth Beach special. I want to be part of thoughtful initiatives that help the city grow with the times—without losing what makes it unique.
