**CLEMIS**

**INTRODUCTION.**

The Courts and Law Enforcement Management Information System (known as “CLEMIS”) is a multi-faceted, regional public safety information management system, operated and maintained by the Oakland County Department of Information Technology, CLEMIS Division. CLEMIS is comprised of many software applications.

CLEMIS was created in 1968 to address the inability of criminal justice/public safety agencies to electronically share data in a timely manner. The purpose of CLEMIS is to provide innovative technology and related services to criminal justice/public safety agencies to enable them to share data and to improve the delivery of criminal justice/public safety services. Public Bodies that use CLEMIS have realized lower costs and improved efficiency in providing criminal justice/public safety services. These benefits allow first responders additional time to serve and protect citizens.

Its purpose is to empower criminal justice/public safety agencies to maximize the use of collected data, to enhance daily operations and engage in comprehensive planning. **INTRODUCTION**

ArcGIS Online (“AGO”) is a web based, collaborative Geographic Information System (GIS) that allows users having an AGO Named User account to create and share maps, applications (apps), layers, analytics, and data in Environmental Systems Research Institute, Inc.’s (“ESRI”) secure cloud.

County entered into an agreement with ESRI that permits County to deploy AGO to Public Body (County Contract No. 008474, Enterprise Agreement No. 00270489.0, and herein referred to as the “Enterprise Agreement,” to which the County will provide Public Body with access. The Parties desire for Public Body to be authorized to access and use AGO as specified in the Enterprise Agreement.

County will provide Public Body with AGO Named User accounts that will allow Public Body to access the County’s AGO portal without having to purchase, manage or maintain its own AGO Named User accounts.
