Crop:

WPS Needed:

Gross Acres:

Total Cost: \$18,350.00

Costshare: \$11,080.00

Customer Cost: \$7,270.00

This is only an estimate of the cost. The District bills for actual time plus the products applied. Due to conditions in the field at the actual time of treatment, this estimate may not cover all the proposed work, but we will not exceed the estimate without prior approval.

Treatment location :

DESCRIPTION OF WORK:

Popo Agie Weed Management Association (PAWMA) Baldwin/Squaw Creek Russian Olive Treatment Cost Share Program

--Crosscut Lumber and Timberworks (William Bayless, PO Box 1912, Lander, WY 82520) will cut and treat all Russian olive trees over 6 feet tall within property. Trees over 6 feet will be cut near ground level, limbed, and piled at their growing locations. Cut stumps will be treated within 15 minutes using triclopyr herbicide with methylated seed oil to prevent resprouting. Logs over 8 inches in diameter will be cut into 6-foot lengths and piled separately. Machinery such as a tracked skid steer and pickup may be used to move material and equipment.

--Any additional work not specified in the Crosscut Lumber and Timberworks, LLC scope of work must be coordinated between the landowner and Crosscut. These services are at the landowner's expense and are not eligible for cost-sharing with the Popo Agie Weed Management Association.

--The landowner agrees to allow treatment for resprouts in 2027 and in 2028.

DISCLAIMER OF WARRANTY: Fremont County Weed and Pest Control District agrees to apply the above-described pesticides as the label allows. Due to variability in environmental and biological conditions, neither the district nor the product manufacturers can guarantee a specific level of control or duration of effect. All work conducted by district personnel is considered public record. Monitoring data may be used for future outreach and educational purposes.

Fremont County Weed and Pest assumes no responsibility for damages to property that may be hidden by vegetation.

ACCESS AGREEMENT: The undersigned agrees to allow Fremont County Weed and Pest access to the described lands for the purposes of treating weeds and/or pests and monitoring the effectiveness of the treatments. Monitoring data, including photographs, may be used for public outreach and education.

NOTICE: It is the responsibility of the landowner or operator of the agriculture establishment where the pesticides(s) will be applied to comply with Worker Protection Standards (WPS) and Restricted Entry Intervals (REI). WPS and REI standards can be found at www.epa.agriculture/twor.html
