2022 Water Master Plan Level I Study City of Lander

8/22/23

- 1 Background and Purpose
- 2 Summary of Recommendations
- 3 Study Funding

4 Future Projects Funding

5 Rate Study and Recommendations

Study Background

- Last Master Plan (2011) identified issues with and solutions for system hydraulics
- City has worked diligently to fix those issues with projects over past 10 years
- Hydraulic issues largely resolved
- Unfortunately, there are more issues to address right now, and in the future....

Study Purpose(s)

Core Study Focus Areas

- <u>Reliable Service</u> Prioritize fixing known issues with existing system
- <u>Water Supply</u> Determine City water supply adequacy 50 years out
- <u>Fiscal Responsibility</u> Ensure the City is able to pay for improvements
- <u>System Expansion</u> Provide direction for future development/system expansion
- <u>Regionalization</u> Evaluate possible regional / wholesale customer connections.

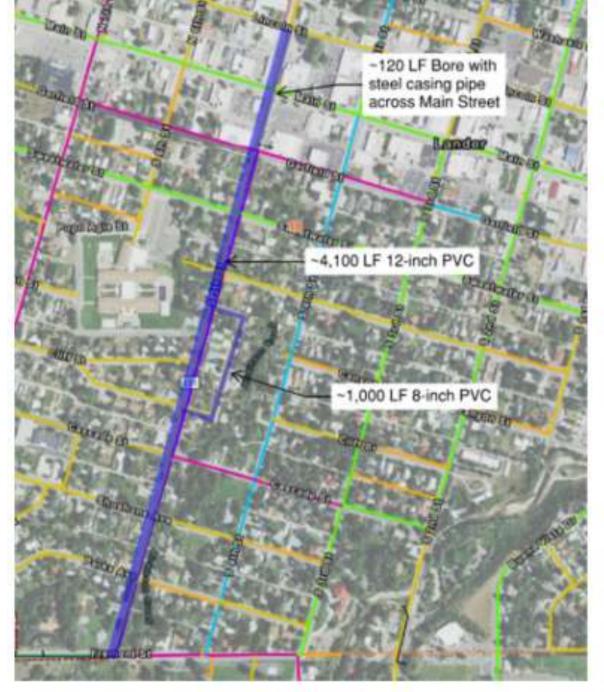

Figure 10-6 5th Street Transmission Line Rough Alignment and Scope of Work

Summary of Recommendations

- Prioritize existing system upgrades
- 48 Total Projects
- 20-year planning horizon
- \$157M in inflated costs (~\$100M present day dollars)
- City pays \$53M (~\$31M of that elig for loan forgiveness)

RECOMMENDED PROJECTS

Figure 10-1 LANDER, WYOMING MASTER PLAN

Who Paid for the Study?

• City paid \$1,000 application fee.

 Wyoming Water Development Commission paid for the entire study (roughly \$200K)

Final Report

City of Lander 2022 Water Master Plan Level I Study

August 2, 2023

Who Pays for the Projects?

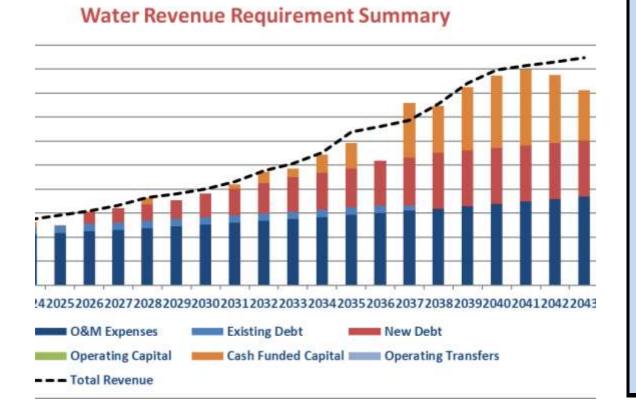

• Inflated costs break down as follows:

CASH	DEBT	GRANT	SPECIAL IMPROVEMENTS DISTRICT
\$ 21,356,219.71	\$ 30,953,794.86	\$ 85,738,224.18	\$ 19,604,467.38

- ~13.5% of costs (cash) go to current users
- ~19.6% of costs (debt) go to current and future users AND have the potential to be forgiven
- ~54.3% of costs (grant) are eligible to be paid for by the State
- Remaining 12.6% are slated to be paid for by developers and/or water user groups wanting to connect to system
