6"	\$289.45	\$562.58
8"	\$501.89	\$987.45

- (b) Sewer Charges – Sewer charges will be \$2.37 per 1,000 gallons over the base of 2,000 gallons plus the minimum charge for sewer. Effective July 1, 2023.
- (c) The residential customer's monthly sewage usage will be based upon the customer's average water usage during the winter for **two** billing periods in the months of November, and December re-determined annually on or about January 1st.
- (d) Sewer service charges for other than residential customers are to be based upon the indicated water usage. In the event that any customer can show (by meter) that a portion of the metered water does not enter the sanitary sewer system, the customer(s) are to be charged for only that volume entering the sanitary sewers. The customer may be required to install a meter in his system to record the difference between sewage and non-sewage flows.
- (e) For those users who use wastewater, the strength of which is greater than normal domestic sewage, a surcharge in addition to the normal user charge will be collected. The surcharge for operation and maintenance including replacement will be determined after testing for BOD, SS and other pollutants.
- (f) Non-property Owner Deposit Required. – All water and sewer customers who do not own the real estate or a substantial equity therein, in connection with which such services are required, will be required by the city utility department to post a two hundred dollar (\$200.00) deposit as a guarantee of payment of their service account, which deposit shall be returned to such customers, without interest upon discontinuance of service and payment of their account in full. At each change in occupancy the property owner will submit a transfer form signed by both the tenant and the landlord.

In lieu of the above required deposit a property owner may sign an agreement with the City utility director guaranteeing payment for all water and sewer services furnished such property. In the event a property owner executes a guarantor's agreement, as provided in the preceding section, period bills shall be addressed to property owners in care of tenants at the address to which services were furnished.

Delinquent Charges. - Monthly charges for water and sewer not paid within 20 days of the billing date are deemed delinquent and a delinquency charge of 10% of the unpaid amount will be charged at the close of business on the 20th of the month. In such circumstances, the City may shut off the water upon ten (10) days' notice to the property owner and/or tenant by U.S. Postal Service or posting of the notice on the property. After shut off, water service shall be resumed only upon payment of the account balance, together with the sum of \$100.00 for the costs incurred in shutting the water off, sending notice and turning the water on.

- (g) Payment of Charges and Penalties. - The City shall submit monthly statements to the user of water and/or sewer. Should any user fail to pay the balance due and interest penalty within two months of the due date, or if the account should exceed \$200.00 in delinquency, the City may shut off the water upon ten (10) days' notice to the property owner and/or tenant by U.S. Postal Service or posting of the notice on the property.
- (h) Payment Arrangements. The City Treasurer and/or the City Clerk, or their designee, at his or her discretion, may formulate payment arrangements with a utility user for delinquent accounts. The payment arrangements will require the user to pay their current bill plus delinquency payment and additional payments for two months. If the utility user fails to comply with any part of the payment arrangement, water service may be shut off immediately without further notice.
- (i) Payment Arrangements for Severe Water Breaks: In the event an account holder/water user has a severe water line break resulting in a balance due and owing in an amount the account holder is unable to pay completely in the timeframe according to payment arrangements in (h) above, the City Treasurer and/or the City Clerk, or their designee, at his or her discretion, may formulate payment arrangements for the remaining balance. If the account holder makes payment each and every month under said arrangement, the City may suspend the accumulation of the delinquency charge of 10% of the unpaid account balance. Severe water break shall be defined as an identifiable water line break on the account holders' real property resulting in a greater charge than the \$250.00 allowance causing extreme hardship to the account holder.
- (j) Disconnection. - Any permit holder may request that their meter be disconnected. Upon payment of a disconnect fee of \$40 and any accrued charges, the City shall remove the meter. Accrued

charges shall be figured as all past due charges adjusted by a pro rate credit for the unused portion of the prepaid basic demand charge. The permit holder shall pay for any overage.

- (k) Reconnection. - Any service disconnected under City Code Section 9-5-2 may be reconnected upon payment of a reconnect fee of \$40 and the basic demand charge.
- (l) Transfer of Permit. - A water permit may be transferred to a new owner of the premises served upon payment of all accrued charges and a transfer fee of \$25.
- (m) Rural Water Fees – Fees for water from the Rural Water House will be \$15.05 for 1,000 gallons
- (n) The Mayor and City Council may allow running of water for residential customers and reduced rates for sewer in the event the City needs citizens to run water to keep the City water and sewer mains from freezing.
- (o) These rates and charges are established so that each user class pays its proportionate share of the costs of water and wastewater treatment services and the City Treasurer is directed to review the charge structure to assure that proportionality between user classes is maintained and to recommend modifications as appropriate every three years. Each user shall be notified by the City of rate changes.
