

120Water
250 S. Elm Street
Zionsville, IN 46077
December 12th, 2023

To Whom It May Concern:

This letter is submitted by request from the Town of Landis, NC as confirmation that 120Water is the sole provider of an end-to-end Lead and Copper Compliance program solution.

The regulatory revisions to the Lead and Copper Rule, finalized in January 2021, have more than doubled the efforts required for the State of North Carolina to comply with the updated Lead and Copper Rule, including increasing sampling requirements, requiring a digitized inventory, and automated public reporting.

120Water is a technical services company that helps state agencies, schools, and public water utilities plan, manage, and effectively communicate the results of water sampling programs. 120Water is the only company with a cloud-based technology platform and complementary services to manage the full life cycle of water testing programs at the point of use. 120Water is used to run the full lifecycle of drinking water voluntary and compliance programs, including Lead and Copper Rule, Lead Service Line Inventory, Lead Service Line Replacement, Facilities Sampling, and Pitcher/Filter Distribution across 41 states.

120Water is the only organization that manages full outsourcing of lead & copper sampling programs today, including out of the box, ready to implement technology solutions to support adherence to all of the updated Lead and Copper Rule revision requirements.

Sincerely,

A handwritten signature in black ink that reads 'Matthew Boes' in a cursive script.

Matt Boes
Vice President of Sales
