MEETING TYPE: Board of Alderman

DATE: June 10, 2024

SUBMITTED BY: Jeneen McMillen, Finance Director

ITEM TYPE: Consideration

AGENDA SECTION: Considerations

SUBJECT: **Consider Awarding Patterson Road/Flat Rock Road Waterline Project Bid**

DETAILS:

Please consider awarding the facilitation of the Patterson Road/Flat Rock Road Waterline project bid to MESCO (Municipal Engineering). This bid opening was placed on our website, and in the Salisbury Post, however MESCO was the only bid for this project. MESCO has completed many water and wastewater related projects for the Town of Landis over the years and is familiar with our system.

The engineering team that will work with us, if approved, will be headed by Vince Tomaino, P.E. He will be supported by Gary Flowers, P.E, and Bobby Blowe, P.E, as well as other staff members as necessary. These gentlemen have many years of experience in the design of water, wastewater, and stormwater systems. MESCO's Design Engineers and Project Managers are very familiar with the new requirements of the DWI Funding Programs. They are available to start immediately and can complete the project within the timeframe provided by the funding agency.
