- B. This warranty is for the benefit of the original purchaser only and is not transferable or assignable.
- C. This warranty is null and void for any material that is subjected to salt spray or installed on property 1,500 feet or fewer from a salt water environment.
- D. This warranty does not apply to defects or failures which arise out of any of the following:
1. the formation of rust on the panel edges;
  2. acts of God, falling objects, external forces, explosions, fire, riots, civil commotions, acts of war, radiation, harmful gases, harmful fumes, salt atmosphere or standing water due to failure to provide adequate slope and drainage;
  3. failure to properly insulate panels from direct contact, fallout or run-off from dissimilar metals such as copper, lead, nickel, stainless steel, etc., contact with damp insulation, chemicals, fumes, ash, debris, soil, vegetation, animal waste, decaying materials, wet absorptive materials, concrete, cement dust, animal waste or other foreign or corrosive materials from contact with or in close proximity to the panel;
  4. paint adhesion loss and/or staining as a result of excessive sealant or failure to remove steel debris/iron particles that come in contact with the panel surface;
  5. significant differences in insulation below coated metal panel;
  6. use in manner not intended or improper storage or handling, including but not limited to damage from condensation on the panels attributable to improper handling;
  7. conditions / circumstances where corrosive fumes or condensates are generated or released inside the building
  8. minute fracturing which may occur in proper fabrication of the building parts. Bends less than 2T inside bend diameter for sheet thickness 0.030" and thinner, and less than 4T for sheet thickness 0.031" and thicker
  9. slopes of the roof or sections of the roof flatter than 1/4:12;
  10. if panels are applied without protection over lumber which has been treated with preservatives or fire-resistant materials, regardless whether such treatments are present with or without the knowledge of the buyer, the owner or any other party. This exclusion shall include, but is not limited to, lumber which has been treated with pentachlorophenol, chromated copper-arsenate salts, creosote, fluochrome arsenate phenol, alkaline copper quaternary, or any similar treatment for fire and rot resistance. Protection of lumber as provided for in the exclusion shall be defined as any barrier that prevents the transfer of moisture and salts between the treated lumber and pre-finished metal panel;
  11. abnormal corrosive atmospheric conditions. This exclusion includes, but is not limited to, contamination from external sources such as manufactured chemicals and salt spray, and internal contamination created by improper ventilation (design or operational defects) or improper housekeeping;
  12. discontinuities in the paint film as a result of damage during installation or use of the building e.g., scratches;
  13. attachment or adhesion of materials or items such as snow guards and solar panels to the metal panels;
  14. damage due to improper forming, scouring, cleaning procedures or use of any bleach-based cleaners;
  15. any condition, which occurs in any chemically aggressive environment containing salts, or other chemicals, whether naturally occurring or caused by man, are stored/installed in an environment that includes a high degree of humidity, sand, dirt or grease;
