MEETING TYPE: Board of Alderman

DATE: December 11, 2023

SUBMITTED BY: Michael Ambrose, Town Manager

ITEM TYPE: Consideration

AGENDA SECTION: Consent Agenda

SUBJECT: **Consider Approval of Schnabel Engineering to Develop an Action Plan for the Lake Landis, Lake Corriher, and Lake Warrior Dam Issues**

DETAILS:

Consider Approval of Schnabel Engineering to develop an Action Plan for the Lake Landis, Lake Corriher, and Lake Warrior Dam Issues. The Town Dams were inspected by the NCDEQ. The NCDEQ advised of the repairs that need to be corrected with all three Dams. The estimated costs of the issues were over 1 million dollars; therefore, I investigated grant funding for the projects. The NCDEQ has a current grant that would pay a large portion of the dam related issues if the town had a Dam Action Plan drawn up by an Engineer. Schnabel Engineering can get us this Action Plan in a timely manner for the Town to apply for the available grants at the cost of \$19,000. This expense can be funded from the Restricted Funds.
