Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project:

NY Lansing II, LLC - Proposed Commercial Solar Facility

Project Location (describe, and attach a general location map):

North Triphammer Road (County Route 122), Town of Lansing, Tompkins County, NY (Tax Map Nos. 44.-1-1.2 and 44.-1-3.3)

Brief Description of Proposed Action (include purpose or need):

The proposed action includes the development of an approximate 3-megawatt of alternating current (MW AC) ground-mounted solar facility on two (2) tax parcels totaling 66.83± acres located on the east side of North Triphammer Road (County Route 122) (hereinafter the "subject property"). The owner would lease approximately 14.84 acres of the subject property to the applicant (i.e., NY Lansing II, LLC). The area of disturbance for the proposed project would be 16.76± acres. The solar facility would be situated along the southern portion of the southern tax parcel (44.-1-3.3). The proposed action would include the installation of solar modules with a maximum height of 15 feet, an eight (8)-foot-high deer fence around the proposed solar facility, one (1) concrete equipment pad to house electrical equipment (i.e., one [1] inverter and two [2] transformers) and electric utility lines to connect the solar panels to the existing distribution power line along the west side of the subject property. The proposed action would also include the construction of a gravel access road on the northern tax parcel (44.-1-1.2) from North Triphammer Road (County Route 122). It is noted that the project area would be seeded with a northeast solar pollinator mix. All solar power generated by the proposed action would be sold as Community Distributed Generation. This program allows subscribed participants to share the benefits of clean energy production. According to the applicant, a mix of residential and commercial customers, specifically New York State Electric and Gas (NYSEG) customers, would be able to receive a share of the solar power.

C. Planning and Zoning

C.1. Planning and zoning actions.	
 Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? If Yes, complete sections C, F and G. 	∐Yes ⊠ No
• If No, proceed to question C.2 and complete all remaining sections and questions in Part 1	
C.2. Adopted land use plans.	
a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located?	ℤ Yes □ No
If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located?	∠ Yes □ No
 b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway; Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) If Yes, identify the plan(s): 	□Yes ☑ No
 c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? If Yes, identify the plan(s): 	∐Yes ∑ No

C.3. Zoning	
a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. If Yes, what is the zoning classification(s) including any applicable overlay district?	✔ Yes ☐ No
The subject property is located within the Residential - Moderate Density (R2) Zoning District.	
b. Is the use permitted or allowed by a special or conditional use permit?	Yes No
c. Is a zoning change requested as part of the proposed action?If Yes,<i>i</i>. What is the proposed new zoning for the site?	☐ Yes Z No
C.4. Existing community services.	
a. In what school district is the project site located? <u>Ithaca City School District</u>	
b. What police or other public protection forces serve the project site? <u>Tompkins County Sheriff's Department</u>	
c. Which fire protection and emergency medical services serve the project site? Lansing Fire Department provides both fire protection and emergency medical services.	
d. What parks serve the project site? N/A - the proposed use includes a commercial solar facility.

*There are areas on the eastern portion of the subject property with perched water at approximately 2 feet bgs and 6 feet bgs. *The EAF Mapper indicates the presence of federal waterbodies on or adjoining the subject property. Review of the U.S. Fish and Wildlife Services National Wetlands Inventory (NWI) Mapper indicates that a 13.14-acre Freshwater Forested/Shrub Wetland habitat classified as PFO1/4E is located on the southeastern portion of the southern tax parcel (44.-1-3.3) and adjoining area. It is noted that review of the NYSDEC Environmental Resource Mapper indicates that there are no state-regulated freshwater wetlands or streams located on or adjacent to the subject property.
