

**Parks & Recreation  
May 2023  
Town Board Meeting**

**RECREATION**

- LBP and LSP are off to a slow start with the weather we've had but it's looking better.
- Our T-ball program has started, we have 7 teams at that level. (Kindergarten and Pre-k)
- Our Summer Program booklet is now available, we have an outstanding list of offers.
- We were awarded \$5,000 from the County Parks & Trails grant for a piece of playground equipment and wildflower seed for some ditches as erosion control.
- I attended the Cornell Design Connect final presentations at Sibley Hall, all the presentations were beautifully done. We will be sharing more information with the Town Board soon.
- We have a potential opportunity to use one of the Cornell Design Connect students as an intern for the summer. Ruth and I can discuss this with the board.
- The lights for the Town Hall parking lot have arrived and we'll be putting that project into our schedule.
- The Town Hall flower beds are now completed, a big thanks to Katrina Binkewicz for planting.
- Unfortunately, lately we have had some issues with a couple of residents of Milton Meadows on the Town Hall complex. Instructions have been given to each department on how to deal with these individuals if they show up on Town Property.

**PARKS**

- We passed our Tompkins County Health Department inspection at Myers Park and camping is now open for the season.
- Restrooms at Myers Park are also now open.
- Ludlowville Park clean-up has been completed, you'll notice the east side of the park looks much nicer.
- No updates on the NYS Parks & Trails Grant money, I will reach back out to them.
- We have cleaned the debris from the beachfront at Myers Park.
- We will begin charging at the park on Memorial Day Weekend.
